Two Knotty Boys Showing You the Ropes: A Step-by-Step, Illustrated Guide for Tying Sensual and Decorative Rope Bondage

Two Knotty Boys , Larry Utley (Photographer)
When Two Knotty Boys, Dan and J. D., began teaching rope bondage together in 1999, they discovered that most people learn best when they're shown — close up, step by step, and repeatedly — how to tie basic knots and combine them into bondage techniques. It is this learning process that they duplicate in this book. With the help of world-renowned photographer Larry Utley, they use over 750 photos and captions to explicate the soup-to-nuts techniques for turning great knots into great bondage that is safe, sensual, attractive, and effective. Readers can learn at their own pace, review whole techniques at a single glance, or even lay it flat on the table (beside their blindfolded partner) and follow along as they tie. *Two Knotty Boys Showing You the Ropes* appeals to those interested in improving the quality of their sex lives, not to mention aficionados of bondage and discipline/sadomasochism (BDSM), both curious newcomers and serious players alike.

From Reader Review Two Knotty Boys Showing You the Ropes: A Step-by-Step, Illustrated Guide for Tying Sensual and Decorative Rope Bondage for online ebook

Autumn Jean says

Someone once told me they avoided this book because they were worried it was about two gay men tying each other up. The half naked girl on the cover (who happens to be bound) should have been his first clue that his prediction was dead wrong.

This is a straight forward "how-to" book on the art of rope bondage. Filled with practical knots, advice and tricks on how to bind your lover without cutting off circulation or causing rope burns.

M. says

Step-by-step is right. In color photos with clear description and suggested uses of knots. Covers basic knots, how to tie up specific body parts, how to do harnesses, how to knot stuff to other stuff-- kind of something for everyone. Maybe some people have the idea that rope bondage is something to do with learning to rig someone up in an entire piece start-to-finish, but it's more about learning basics and building on that, like any skill. This book opens with about ten different knots that serve as building blocks for more complex pieces, which you can practice (and practice again) without needing a body. Past that, I recommend having someone willing and patient come over for you to practice more involved ties. ^_~

Chris Anderson says

Not bad but,

it's ok ,not what I was looking for, good for beginners. would recommend other books for a novice. good illustrations

Squaddiebear says

Very practical & tastefully illustrated - a great reference book

Monkey says

rope, knots...what-nots

Lars Hachmann says

Humorvolle, nette Einführung ins Thema. Gute bebildert und anschaulich gestaltet, leider schwarz-weiß, kein Manko, da trotzdem gut zu erkennen. Als Einstieg für Spielerisches durchaus zu empfehlen.

Landra Graf says

Excellent book for basics and a few bondage techniques. Instructions and visual images combine the best of both learning worlds and I'd be interested in checking out more from them.

Joe Barret says

A good reference for learning rope, expected a little more

Seamus says

My only complaint about this book is that it wasn't long enough! Plenty of awesome pictures to detail every step and a great sense of humour. I would love to see these guys present in person.

Bicycle says

Great and easy to follow book for anyone who wants to get started in rope art.
Lots of illustrations and a very simple no nonsense approach to this rather complex subject.
Several basic knots with alternatives to make things look better.
And ofcourse how to use the knots in decorative, dominant and sexual bondage.
There is a part on safety and how to care and maintain for various types of rope.

Mortalform says

Good basic /beginner book, step by step images of each knot/tie are particularly helpful. Despite being a supposedly kinky book it's pretty tame but as a first guide has few flaws.

Sheherazahde says

Lots of pictures. Decorative and intricate ties. Step by Step instructions. The white nylon rope almost glows. I can't wait to try some of these out.

Kelly says

I've lost track of how many people have been asking me to do rope work on them, so I cracked and have started practicing.

Troy says

Absolutely necessary to peruse before any attempt to tie your partner.

Xenith says

I actually won this book at a play-party and own it. I can say that as hard as Shabari can be solo, this is a great instructional book for partners that wish to dabble more.
