Artwork wasnt as good, if you compare it to other artists but man, the story is compelling.

I love this book. It encompasses the entire Attack on Titan saga, and provides much more story and more room for deep thought. It also tells the story of Attack on Titan past the amount that the anime tells. It also has a great art style and pays a lot of attention to detail. As a die-hard anime and manga fan, this has been one of my favorite books to read. ?????????! (I love this book!)
