Nobody says no to billionaire Sutton Buchanan.

Nobody with a survival instinct or an ounce of common sense, anyway.

That's because he's a cruel, ruthless bastard who will stop at nothing to get what he wants – including the curvy blonde artist who just gave him the brush-off.

Elizabeth Downing is desperate and time is running out. Her one chance at landing an exhibition at the Covington Art Museum has been shot down in flames. The shy, insecure artist can't give her art away, much less sell it. How was she going to continue supporting her disabled sister, without selling off a kidney?

Unfortunately for Elizabeth, her family tragedy is Sutton's opportunity. Sutton makes Elizabeth a shocking offer that no good man would ever suggest. But Sutton has never pretended to be a good man.

Now he's going to own her — body and soul.

He's going to push past her limits.

He's going to see where her breaking point is.

But he won't make the same mistake his cousins made by falling in love with his plaything.

Elizabeth's about to find out, the words "love" and "mercy" aren't in Sutton Buchanan's vocabulary.

This can be a stand-alone, but I recommend reading all of the Buchanan brothers books by Alexx Andria, Bought by the Billionaire Brother's series. I love the Buchanan men. I have read all of this series and all of Alexx's books. She writes fast placed highly addictive books, they are very well written, as was this book. This is MY honest review!!!! Sutton Is billionaire with the attitude, if I want anything or anyone, I can have it because I have money to buy it or them!!! I wanted to hate him because he's a cocky rich, hot jerk, but he was so hurt and wounded I couldn't help but love him and route for him to find himself the real him!!!! (He needed a smack to the head, a few then a big hug!!!) Then he meets Elizabeth a shy, innocent and naive artist, who is in a desperate situation, she needs money(a lot and fast). Her parents are dead and she is left to care for her disabled sister, who's care is expensive and she has til the end of the month to pay. BUT HOW?? Sutton finds out about her situation and wants to OWN HER at any cost, body and soul, so he makes her an offer even she can't refuse to save her sister. Sutton doesn't realize he can use her body but he can't have her thoughts and feelings. This is not a simple story and the details and ending will surprise you..... so read this book for all the details!!!! Wish I could give more than 5 stars!!!!

I am new to Alexx Andria, I was so curious what kind of book this was list on ..but it says nothing about being funny? Am I the only one that found this to be a funny read, not all of it, not like funny ha. ha!! ...but there are so many hilarious moments, or maybe the better word is sarcastic humor? dry sense of humor? any who. I will be checking out more from Alexx soon enough, I took me a bit to find this book to review it ... apparently the cover has changed? it was a wild goose chase indeed! on a tame to holy hotness scale ... this book does have a lot of steam ...not sure Elizabeth liked every single moment though??! ha. ha! I love her humor ...or whatever word you wanna input there ...she doesn't take the cramp from Sutton. He has a lot of jerk-ness in him. Business suit and all. Trying to take care of her sister & earn a paycheck. Oh, i did find this on Amazon when Free, you might wanna go see if it still is FREE?!! who doesn't love a free read?!! (;

2.5 Star read

Story type: Contemporary, Erotica, Wealthy/famous

Storyline: This is the story of Elizabeth and Sutton. Elizabeth is a struggling artist that parent died leaving her to care for her sister who is a nonverbal and sometimes violent girl with autism. Sutton bumps into her storming out of the gallery that his company now owns in tears and decides that she will be his new project. He propositions her to essentially be his sex slave for funds and securing her sister in the home that she is threatened to get kicked out of in a few months when she turns 18. They have major chemistry and end up developing feelings for each other. Sutton fights those feelings at every turn but eventually they find their HFN.

POV: Third person with focus on Sutton and Elizabeth interchangeably.

Overall Pace of Story: Good until the ending where I feel like it was a rush to conclude it all.

H rating: 2 stars. Sutton. He wasn't all that like able to me. He was kinda a jerk for the most part.

h rating: 3 stars. Elizabeth. I did like how she was feisty at some points.

Angst level: Low. No tissues required and little drama except Sutton's hang ups.

Heat level: High. I labeled this as erotica because I feel like it was more about the sex than the connection between the characters.

Sex scene with OW or OM: (view spoiler)

Cheating: (view spoiler)

Possible Triggers: (view spoiler)

Closure: This book does end in an epilogue, but I would still classify it as a HFN instead of a HEA because of how abruptly it all finished up...don't feel too secure in the strength of the relationship.

Ah, those Buchanan men and their contracts! Like his cousins before him, Sutton sees what he wants and isn't afraid to use whatever means he has to get it. It just so happens that this time it is struggling artist Elizabeth that he wants. The question is if Sutton can get everything that he craves from Elizabeth. Is it just her body, or does he long for something more? Can something pure and lasting evolve from such muddied begins, and if it can is that even what either of them truly wants? Alexx Anders takes us on a smoldering voyage via her pen that provides those answers. Lovers of the Bought By the Billionaire Brothers series will enjoy being reconnected with some old book friends; yet, this book presents no difficulty for people who haven't read those books in following the story. Plus, as with all of her other books, Alexx Anders presents such a well rounded blend of characterizations and situations that you can't help but to love this book. I have no hesitation in recommending this book.

Expresso-Girls Just Wanna Have Books ; A Mafia Romance says

This story is a fast-paced, happily ever after, love story. It's very light and well written in that aspect.

Sutton and Elizabeth are from two different worlds. Sutton is a billionaire and Elizabeth is a struggling artist with an autistic sister. She is in desperate need of funds for her sister's constant care. Elizabeth enters into a

mutually satisfactory contract with Sutton. She becomes his pleasure toy and he in return he will assume responsibility for her sister's care. Of course the arrangement is anything but simple.

I gave this story four stars for two reasons: Elizabeth is not tall and model thin. She is a short, curvy, feisty chick who bought a billionaire to his knees with her innocence and goodness. Second, Sutton identified Elizabeth's beauty and sexiness and sought to make her aware of her attributes. Everyone she came into contact with in this story could see her flawlessness except the one who mattered the most: Elizabeth, herself. In the end, self-discovery and the love of a sexy man opened her eyes.

This is a vanilla story but it's definitely one of the better stories I've read. For that alone, I would recommend this story.

Kindle freebie.

It's listed as book 1 in a series but there are so many secondary characters mentioned from other books that I'm assuming are part of another series.

Hero basically blackmails heroine into signing a contract to be his "pet" for as long as he wanted her to be. In return, he'd give her money to help with expenses for her autistic sister who is in danger of getting kicked out of the establishment that her parents found for her before their death. Heroine agrees.

Hero tells her that it's just business but the day he starts feeling it's more than business feelings he has for her, he goes to a bar and lets "Gemini" give him a BJ in the back office before he heads off to the apartment he shares with the heroine.

Heroine is devastated. Hero is pissed because he never promised her fidelity in their "arrangement" and she had no right to feel devastated. He stays away from her and their apartment for three days because he doesn't know how to fix what he purposely messed up.

Grovel could have been more than it was, IMO.

Debating if I want to search out the previous books or even look for the next books in this series. Will have to think about it.

This is a book for mature readers as there's a lot of delicious hot scenes throughoutAnother absolute favorite

book by Alexx Andria! I love the way she captures details in the characters edgy daring ,and has you craving for more!! Sutton Buchanan a millionaire born into wealth never having to actually work for it, his family had taken care of that before his birth. He gets what he wants , and he knows it. But this isn't the typical billionaire romance so don't roll your eyes. This is something naughty provocative enticing and of course a stick it to you in the gut feeling because he is someone you probably won't like and will have you gritting your teeth or cussing at the book more then once trust me! Elizabeth a plain Jane type woman loveable but she has some issues with her image . She's a fuller figured woman, a trying artist that has had a rough time in the past years her sister has autism , and she can't take care of her. With her parents gone she's all she has.. Her art doesn't get a second look, doors shutting everywhere...totally opposite from Sutton Buchanan . Being the snake he is..he takes advantage of the situation after another door gets slammed in her face...a One in a Million Offer! But does taking a deal with a devil have consequences? Absolutely! Will she do anything for her only living family member depending on her? Definitely! Because Elizabeth is unselfish..she will do anything to keep her sister in the care she needs..even if Mr Sutton has the final word..why? Because it pleases him so.. this is a book about what money can do ..rules that don't apply to all, and also trust..Being hurt so badly that you think everyone is untrusting selfish and cruel...But even if you're completely different..in so many ways..that also can cause a dangerous attraction, one that may cost one of them everything they ever thought good, or one of them everything they were taught isn't always the same about all.. Different people cut from different cloths in different worlds... this book was my attraction I couldn't put it down I had to know what happened, and I'm so glad I did!! I would give it a 10 if I could ! I was given a copy of this book for an honest review

Enjoyed this a lot.

Only one thing kept bugging me and that was how Elizabeth kept going on about being 'chubby/fat/large'. It was obviously a big deal for her (excuse the pun) but I didn't feel like being reminded about that all the time added to the story. Just my opinion.

This isn't my usual type of read, but I like looking outside of my little box every now and then. I am really glad I did this time.

Ms. Andria was able to tell a story of someone who lives basically in poverty and another person who was born with the proverbial "silver spoon in his mouth" and bring them together in a not so good way, but turn it into something good. At first I didn't think this story was going to be for me, but once it was revealed why there is such a mix of feelings, well.....the rest speaks for itself.

Great job Ms. Andria!

Elizabeth Downing is a struggling artist. Her hopes of showing at the Covington Art Museum just went down the drain and to top it off, on the way out she runs into a very handsome man, talk about embarrassing. This was her last hope of finding the money to support her disabled sister. Looks like she is going to have to

go to extreme lengths....like sell a kidney.

Sutton Buchanan always gets what he wants. Any way he wants it and when he wants it. So when a curvy blond artist just brushes him off, he decides to start a new project. He wants the curvy artist for his new play-toy.....his pet. He wants to own her and he will pay her well for it. No attachments, just business. Finding out that she needs money makes this so much easier for him.

Elizabeth is shocked that Sutton Buchanan would approach her with such an offer. Even more shocked that she is going to do it. This was so not her, but she had to think of Gretchen, her sister. She would do what she had to to make sure that Gretchen could stay at Rising Dawn. It is just a business agreement after all. Nothing emotional and she can still work at her art.

Will another Buchanan fall or will Elizabeth walk away, just like every other woman has done? After all, women can't be trusted.

I suffered through 90% and

I'm ashamed I kept going that far. But the cover is so hot. It should really be forced to change to something lame like this story. Because I think it's why I kept trying.

The dudes not an alpha. Not fifty shades. Just a dick. Even with 90% of the bk read. And no sex scene should describe ejaculation as cream and then include the word ambrosia in the same sentence. Just no. The holidays are around the corner. Thanks for that.

Amanda says

*Ahhh those beautiful Buchanan's **sigh***

I devoured Ms. Andria's series and was no different. Actually, it's restored my love in the alpha billionaire book. Am I surprised? Not at all. *Ms. Andria has become one of my few go-to authors for a really great read.*

Sutton is a totally gorgeous billionaire who gets what he wants no matter the cost. And from first sight, he wants Elizabeth. A beautiful little curvy girl with a strong spirit and a dilemma Sutton can exploit to get what he wants. Of course what he doesn't know is that what he wants, is Elizabeth, for himself only, for ever and for always.

Well written without all the cheesy angst, bickering and childish antics, this story will keep you engaged from beginning to end and leave you wanting more sexy Buchanan men in your reading future!

Alexx has written another fantastic Buchanan Story!

Sutton gets what he wants and when he wants and he is willing to do anything to get it. Elizabeth is down on her luck, her life is falling apart and her sister depends on her. She has no idea what she is going to do when she literally runs into Sutton at the Covington Art Museum her world is about to change drastically. Sutton has seen what he wants and he wants her.

Omg you want to hate him. He is horrible and cruel to Elizabeth but the times of intimacy are hot, steamy and pushes her to somewhere she has never gone before. Just when you think Sutton can't be anymore hurtful he does something nice for her and Elizabeth starts to fall for him. but due to his history, Sutton is scared and lashes out and does something truly stupid can he be forgiven and can he redeem himself.

Oh there is a HEA but it's messy and fantastic!

Apparently this book is the beginning of a spinoff from The Buchanan Brothers series. I believe the author ran out of brothers and decided to bring the East Coast and West Coast cousins together in this first book of the new series.

What a book. Good to the last drop!!

Elizabeth was a starving artist trying to continue the support of her autistic sister who lived in a wonderful facility that aided in helping the young girl deal and cope with her autism.

Elizabeth was at a dead end financially and had some hard choices to make. No longer capable of continuing to pay for her sisters care, she was forced into a contract with a man who wanted only one thing from her.

Man, I didn't think I could like a romance without the aggressively dominant Alpha that I love so much. Don't get me wrong, sutton was Alpha, but after meeting Elizabeth he didn't know which end was up from down.

I loved it and I want to read both the west coast and east coast series.
