## From Reader Review Everything and More for online ebook

### **Curlyhair says**

Great story, I read years ago. The author wrote quite a few books I remember and all worth a look. I read quite a few.

### **Monica A says**

i read and re-read this book so many times over the years and i still love it every time. i completely fell in love with ALF! This is probably the first book that made me cry and i am not a crier! to me, this is one of those books that i can just pick up and start reading on any random page and enjoy.

---

### **Ioanna Xristodoyloy says**

ενα πολυ πολυ καλο βιβλιο που δεν υστερει σε τιποτα απο γνωστες και ακριβες εκδοσεις...η briskin εχει γινει μια απο της αγαπημενες μου συγγραφεις!

---

### **April Cantu says**

good but very slow...ready to be done with it

---

### **Natasha says**

All in all I did enjoy reading this book but it did drag on for a bit. Althea I did not like at all and Roy just infuriated me to bits. She was so annoying the way she let people walk all over her especially Gerry and Althea. I am glad with the ending but I do wish it had happened for Marylin and Linc a bit earlier so they could have had a family together .

---

### **Horsefeathersranch says**

I am not finished with this book, but I am on page 399 and I can't wait to go finish it tonight! The plot is interesting and the characters are well developed.

I LOVE IT!

I WILL bring this to Tracy!

Thank you again Jo, for another good read!

---

### **Kerys Rhapsody says**

you may think this book is cheesy or stupid. yeah, it's some kind of a soap opera and for sure it's not a smart, hard to understand book full of transitive sense or advices for a live. but when you are reading, you can feel sth different, sth special, sth what you will fall in love with. for me this book is magic and i have no idea why

---

### **Alex says**

Rain Fairburn was amazing! Fell in love with ALF!

---

### **Teresa says**

This is a soap opera in a book. You can see the action and although it will be considered cheesy or even tame by today's standards when I first picked up this book to read I was blown away by it. Those first impressions don't go away, they stay with you each time you see the title, each time you open the cover and each time you are transported back to the story like this book is more than just paper and words it's a time machine that takes you back to when you just loved to read.

The characters are a little over the top, but you love them anyway and even though their situations are a million miles away from the life you are living you can just picture them. That is down to the easy writing that draws you in.

I've given this book four stars, in an ideal world it would have all five but as good as this book is it is certainly not perfect. A few little tweaks here and there and it would have been phenomenal. It is still worth the time it would take to read it, so what are you waiting for? Dive in...

### **Michele says**

The jacket liner notes are pretty accurate on this one. This is one messed up family! if you enjoy family drama and love stories, this should be on your to-be-read shelf. I enjoyed both the writing and the plot. There are some twists that were completely unpredictable. This is a great beach or vacation read, pick up Everything and More by Jacqueline Briskin.
