**Indiscreet** Nicole French

Sexiest man alive.

Playboy movie star.

Reckless actor.

Will Baker, better known as “Fitz,” is back, and the world has questions.

Where did he go?

Why is he back?

Who is Maggie Sharp, the girl who found him?

As Will and Maggie flee her family’s troubles, they return to a world most only dream of, where privacy belongs to the highest bidders, and loving Will might cost Maggie everything she has.

Secrets mean betrayal, and Will’s are bigger than most.

As he returns to a life of wealth and excess, will he fall back into his old vices too? Or is loving Maggie Sharp the one thing that will save him?

*“You and me, baby. We’re not right now. We’re forever.”*

### 4.5 beautifully romantic stars!

Just wow. What an amazing, beautifully romantic continuation of Will and Maggie’s story. So much heart, passion and intensity, the finale to the Discreet duet is dramatic and emotional, and a love story that absolutely stole my heart. A gorgeous read, I loved it so much!

This book picks up a couple of weeks after the ending of *Discreet*. Will’s secret is out, and the world’s most famous movie star is back on the grid after his mysterious disappearance four years ago, and he is not happy about. But this time he has Maggie by his side, and the feels are super intense as the two of them face the reality of their situation.

*“I’m Will, Maggie.” His voice cracked, and I watched, horrified, as he sank to his knees in front of me and buried his face in my thigh. “I’m your Will, baby. And you’re mine. My Lily pad. Without you... Without you, I have no name. Without you, I’m no one at all.”*

There is so much that thy need to sort through, first and foremost between the two of them, and I was on the edge of my seat with my heart aching as they pour their hearts out.

*“I’m still mad at you,” I whispered as he pressed kisses on top of my head. One hand wrapped securely around my waist while the other slid up my neck to cup the back of my head and cradle me into his shoulder. “So be mad,” he said. “Be angry. Be upset. But be mad with me, Lil. Just be with me.”*

But they are entering a whole new world as they are suddenly thrust into the spotlight, facing the pressures of Hollywood and fame and becoming targets of the incessant paparazzi. Can they make it in the world that almost broke Will the first time around? And how will they deal with the massive changes they are about to face? It’s a rollercoaster ride, and through it all there is SO much emotion. And after the secrets of their beginning, I love that they are so open with each other now, deeply in love and determined to do anything to stay together.

*“Don’t leave me again, Lil,” he whispered as he buried his face into my neck. “I can’t do this*

*without you.”*

But they are in for a world of drama as they deal with family drama, ex drama, and the huge complications that come with Will's celebrity – both to him individually and to them as a couple. It's a lot to deal with, and watching them work through it all had me glued to my kindle as I journeyed through the highs and lows with them. It's not always easy, and the drama does get intense, but at the middle of it all we have this beautiful love story that makes all of the heartache worth it.

It's beautifully romantic, and I was lost in a world of swoon. And the hotness! OMG, so much hotness. The steamy time is super sexy and intense, and there's a lot of it, showing the depth of Will and Maggie's connection and bringing even more feels!

*“God,” he whispered, eyes full of love ... “How do you do it?”*  
*I swallowed. “Do what?”*  
*... “Be the air I need and take my breath away all at once.”*

I absolutely loved this story! Will and Maggie stole my heart, and though their romance wasn't always easy, I loved watching them work through it all and find the HEA that they both so desperately wanted.

This is a great ending to the duet, rated down half a point only for some predictable, slightly cheesy moments, but it's a story that will stay with me for a long time.

Absolutely beautiful! 4.5 stars.

## **F.S. Faqir says**

ARC provided in exchange for honest review.

Oh, my heart. Nicole your stories get me everytime and now Will and Maggie's is one I adore with all my might. I cannot express my gratitude and love for this book enough but I'll give it a damn go!!

It starts continuing from Discreet (the first book in this duo), it's an emotional rollercoaster from Will no longer being able to stay in the shadows and Maggie feeling the after effects of the world outside finish out the truth.

Without many spoilers, this story is a bringing together of two broken souls, that just want to find peace in their world where they were never allowed to just be. To just have a normal life, with minimal drama.

With wanting that life so much Will and his Lily come together to fight for the freedom, even when obstacles come their way, they're not willing to let these ignorant people put them down or apart.

There are so many loving moments, so many emotional moments and so many moments where you just keep wanting more.

Nicole's writing is so artistic in the way it speaks a thousand words with only a single word or line. I love reading for this reason of being engulfed into these well developed characters and their minds.

I totally recommend the entire Discreet Duet to be read and all other Nicole French books!!

### **Jackie Fire and Ice Book Reviews (blog) says**

6 stars

This book. My heart. So much pain. So much heartache. So much love..

This book ripped my heart out and shattered it into pieces over and over again. This soul wrenching story took me on an emotional ride that made me feel it all. I felt the characters pain down deep in my soul. I cried for them, I felt as if I was right there by their side experiencing everything they went through.

But beyond the pain came joy and love... so much love. So bold, buoyant and beautiful. So touching, perfectly written and refreshing. Indiscreet took my heart on a journey that I loved every moment of.

Will and Maggie has gone through so much. .So many people tried bringing them down, and they went through ups and downs, but they never let it destroy their relationship. It's real and raw. This story is gripping and emotional.

All the words. All the feels. I devoured this book from beginning to end with no stops. I couldn't let go of this world that Nicole French has written. It's all consuming. The characters are in my heart, and they will be there for a very long time.

This duet is everything. Both books are full of beauty and pain. Both books are full of love and hurt. Both books are incredible. Both books held my heart hostage, and still does.

6 stars to this phenomenal book. I wish I could give it more. It deserves all the stars. I'm in love with this story, with the characters, with how it makes my heart feel full and happy.

Nicole French has gone above and beyond, and I'm glad I got to read this story. Such a unique and refreshing read that will have you in an emotional mess, but in a good way. It has to be experienced. It's worth every tear and much more.

Thank you Nicole for this amazing duet. These characters will forever be in my heart.

Indiscreet will suck you in not letting go til the very end! My heart was racing and emotions were everywhere! Jaw dropping a few times! Holy smokes! What a delicious ride in The Discreet Duet Series!

Nicole French has written a fabulous story of Hollywood stardom and things behind the scenes covering various topics.

Will and Lily Pad still have a difficult road ahead of them with obstacles are thrown in their path testing their relationship. Their ghosts of the past surface to the present causing chaos.

Definitely a must read series!

### **Grace says**

If you've read Discreet, this book is a no-brainer. Will & Lily fans will NOT be disappointed. I'm always at a loss for words when I go to review French's books. They are just so much MORE than most of the novels I read as a heavy reader. More depth, more feelings, more everything. This novel is no exception. This book gave me so many damn feelings: excitement, lust, happiness, heartbreak, frustration, anxiety. I was angry at a main character in an extreme way, and I still might be a little bit, but what an exhilarating ride. A satisfying end to Will & Lily's saga. I will deeply miss them.

---

### **Leslie says**

God what a good story! This duet is so satisfying in its depth. The characters are so developed. I ADORE Will and Maggie. Will is in the pantheon of awesome book boyfriends. This is one of those books you don't forget. I loved it.

---

### **Desirae (Dee) says**

I don't know if y'all saw me gushing over DISCREET. If not, check it out [HERE](#). And you know I was left wanting, right? Well, I was gifted an ARC of Indiscreet, so I got to jump in and get all my answers right away. But ladies...book lovers.... READERS.... haaaaaaaaaaaaallooooooooooooo. THIS IS HOW YOU COMPLETE A DUET.

The trials these two go through. I mean, we though Will was clingy in the first book, he's not changed much here. She's still the air he needs to breathe. She is the key to his survival in the crazy world of Hollywood. But...what do we do when we lose our way? When we lose our North Star? Or rather, what do we do when we push them away, unintentionally? Talk about a crash. It's almost like Will knew he was hitting rock bottom, and he needed to take Maggie down with him, but she just refused to crash and burn. Unfortunately you can only save yourself. You can't save someone until they're ready to be saved. And this, this is a hard lesson Maggie learns in this book. In more than one relationship. In an odd way, I feel like Maggie grew a lot in this book.. She went from always caving to Will and his wants and needs, to standing up for what she wants or need....all while maybe, just maybe still giving him a little something he is asking for.

Now, in this book, we've got a new villain in town and ladies, I wanted TO BURN HIM TO THE GROUND. I was like someone HOLD ME BACK. This man is like a freaking annoying puppeteer that you just can't cut the strings from. Oh but how the mighty fall. It may take a while, but those men get what's coming to them. Okay, maybe not like that. But we see Will protect what's his, and to me... it's like it's about damn time Will. Where's this Will been? ? I feel like our Will disappeared there for a while and had to fight to get back to not only Maggie, but himself.

I can say, by the end, these two end up saving each other in almost any way possible. And here I am still longing for more.

Gimme more Will and Maggie dangggggggggggggggggggggg itttttttttt

## **B. C. Booklover says**

### **Floored! In a good way!**

\* Could be spoilers..beware if you continue.\*

I just spent the last 2 days reading this Discreet Duet by Nicole French and I am FLOORED to say the least. I gave the 1st book, Discreet a 5 star rating but didn't take time to review 'cos I just wanted to dive into this one, Indiscreet as fast as humanly possible. Wow, wow,wow, these 2 books are exponentially awesome and I'm so going to find these characters floating around in my head for a very long time.

So, in Discreet, we meet Maggie Sharp, who ran to NYC as soon as she was able to attend college and escape her alcoholic mother. She said she'd not return again until Ellie, her mom, was sober. Eight years later, after a music career that never took off and a sadistic ex goes to jail, via her testimony, she swallows her pride and returns to the lake community across the country in Spokane. It's the only place she has to go, so she does but finds things with her mother haven't changed, much to her dismay. Her mom is a huge mess.

Back in Newman Lake, she literally 'crashes' into a man who could double as a Sasquatch, with crazy long blond hair and a beard to match, but those penetrating green eyes, unforgettable. He is a real a\$\$, mean and nasty but somehow she keeps running into him everywhere she goes, or should I say falls, gets stuck or hurt and he begrudgingly helps her every time! His name is Will Baker and he is definitely growing on her!

They form a friendship, which turns into more even as they both fight it, at 1st. I LOVED Will, he is sweet and vulnerable underneath the mask he wears. He is so reclusive and afraid of being seen, doesn't go out anywhere. Even after 4 years, no one in Newman Lake has seen him around, except now Maggie has. We find out why he's so guarded and its is a doozie. Can Maggie and Will, who have known each other in only one way, get past what they will have to deal with now that Will's truth is totally exposed, not just here in their lake community but in every corner of the world now? Can their love survive in this blown up situation?

So now, Indiscreet, how could I give it anything less than 5 stars, would give more of it were possible here.

Will winds up back in NYC as he tries to find his soulmate, Maggie, who doesn't want to be found. Can't blame her after finding out the sweet, sensitive reclusive man she loves is actually a world famous movie star who faked his own death to escape the horrors of his what his life had become as said actor.

This is the story of what happens when he finds her. It is AMAZING, it might be a new favorite of mine now. So many things I loved about it. The very intriguing MC's and the 'supporting cast'..lol. Maggie's musical aspects (wished there had more of that), the Hollywood scenes, evil, scheming exes and more schemers who weren't! The crazy mothers, wacky friends, bizarre situations, the sexy swooniness of Will, God, the things he says..and means, he has some alpha going on (?). The way Maggie 'gets' him in all his quirks and fears, makes him feel safe and loved. Boy, do they show each other how much..alot..wow, the steamy scenes in this book are seriously hot, that dirty talking Will! There were poignant moments but so much wit and humor were mixed in too, I was bookmarking pages right and left.

Give me more Nicole French now! I might be found binging her books for a while, that's for sure. She has some major talent and I'm so glad I read this series after seeing a recommendation from another reader on Goodreads. I heartily recommend this duet and can only hope you read it for yourselves. You will be missing out on a unique and amazing love story if you don't!

---

### **Betty Leung says**

The end of Discreet had me begging for more and Nicole French was generous enough to grant Indiscreet fairly fast, and she didn't disappoint.

In this book we see the other side of Will's life. The life he tried so hard to avoid and leave behind. Now he's back and with it all his demons and fears. Maggie is also vulnerable, more than in the previous book, so we see both MC fighting for their HEA. And fight they did. I have to be honest, I truly wanted to shake Maggie at some point. I wanted her to show her claws, to claim Will and b%#€ slap Amelia and Tricia. But I understand her insecurities stem from deep within her because of her childhood and previous relationships. I still wanted to shake her though...it wasn't until the end when I saw that fight and she, in my eyes, redeemed herself. Will was frustrating also, but he was pretty clear with what he wanted: Maggie. That's all he wanted. And I felt for both of them when their reality with Will's profession crumbled at their feet. I can't say more about that cuz spoilers, but I wanted to kill someone!!!

So those were my "issues" with Indiscreet. Now let me tell you the many pros of this duet.

First of all, as I said before, the author brings to light current issues in our society that most people avoid or try to, in romance books. We see racism, rape, sexual harassment, invasion of privacy, and the big role of social media just to mention some. I know it's fictional romance, but that doesn't mean it doesn't exist.

Sadly, it does and too often for my liking. While writing something beautiful, this author is creating awareness of how hard being different is for people like Maggie. And the fact that she portrays that struggle not being a minority herself, is truly to be admired.

Also, I LOVEEEEE the ending. I can't elaborate but it's just the perfect ending. I can't wait for the extended epilogue! This book squeezed my heart and then made it soar. Can't wait to see what else you come up with, Nicole French!

---

## **A.BookNerd.Bookseller&Bibliophile.Blog says**

I loved the first book of this duet, Discreet. I didn't enjoy this one quite as much. Although I liked reading the completion of Maggie and Will's story, it didn't capture my interest as much as the first one. I will say I still enjoyed the writing and I couldn't imagine not reading this book to find out what happens with them. I still gave this book 4 stars because of the writing and that I was still invested in Maggie and Will. They are the perfect couple but are just surrounded by some really evil people who will do anything to try to rip them apart. This makes for some dramatic scenes and great conflict! I will definitely read more of Nicole French's books!

## **Cee Cee Houston says**

Indiscreet is the second part of the 'Discreet' duet by Nicole French, it takes up a few weeks after the ending of book 1 (Discreet). Maggie's back in the one place she never thought she'd return to and things just aren't how she expected them to be. She left Will and now she has no idea what do.

She and Will have a hard road to travel to get back together.

Will has been searching for her ever since she ran away from him at Newman Lake, so when Benny gives him the news he's been hoping for, he's out the door in a second.

But, things have changed. Now, the world knows he's still alive, Will- or Fitz and the paparazzi call him can't go anywhere without protection. Not even to get him girl.

This book is filled with some heart-stopping moments, some that will gut you, some will make you laugh. There's plenty of angst and frustration as well as an abundance of love and devotion.

It's only when the ugly side of Will's life rears its head that things start to spiral out of control. And they only get worse. Will shows a side of himself that was less than stellar.

But, it was Maggie's new that really pulled the pin on their relationship, and sent her back to the beginning. Can true love conquer all just like in the movies?

Well! That would be telling, lol, but suffice to say. I loved this duet and can't recommend it highly enough. If you're looking for a light-hearted easy read, best try somewhere else. But, if you want a book with meat and bones, this is the one for you, just make sure you read both books.

---

## **Talia (Red Hot Ink) says**

Oh my, oh my, oh my. This. Book.

THIS. BOOK. PEOPLE!!!

Okay, now that I let out that pent up emotion, let me explain to you why I lurved this book so much. After the ending of book one, I was basically munching on my fingers to pass the time waiting for this next instalment. Thank god it did not take a long time until this beauty was in my hands, and as soon as I saw it, I dived in.

This book was first and foremost very dynamic. So many things happened it's crazy. At a certain point I was

feeling like I was on a broken carousel unable to get down because everything was happening and it was overwhelming.

But one thing at a time. The setting was different than the first book, but not totally different. We still get our fix of the lake, but the book is also set in New York and LA. If someone had told me before I started reading that those were the cities chosen, I would have curled my nose. I would have griped about how the lake was such an important part of this couple. And instead, seeing them having to handle these two big cities, each with their own demons, was a growing experience for the characters and it made me discover different aspects of their personality.

This book I feel like was a risky one. I feel like if the author hadn't painstakingly built up their relationship into the unshakable bond they have since book one, so many times in this second instalment I would have felt like it was all over, like they wouldn't be able to overcome what had been thrown against them. Instead, even in the darkest of days, I knew deep inside that Will and his Lily Pad would come out on the other side stronger than ever.

As I said, so many things happened, I couldn't detach my eyes from the pages. I just needed to know how Will was going to handle this and that, and how Maggie's career was going to develop, and whether or not her mom would clean up her act, or if Del Conte would finally let her alone. And yet, if this sounds like this book did not focus enough on the romantic aspect, do not fear. Will and Maggie and their relationship are still the complete focus of this book.

As for the previous instalment, neither of them is perfect. What has changed, in my opinion, is that they have both come to the realization that they cannot be apart, that even though heartache may ensue, even though their lives won't ever be the private heaven like at the beginning this duet, every sacrifice is worth it.

I would recommend this duet 100% and will definitely re-read it because it was an epic rollercoaster or a read.

---

## **Na says**

*"Will. Fitz. Love of my life. Devil of my dreams."*

Indiscreet is the perfect sequel to Discreet and it kept all what it promised to be. This is a page-turner you simply can't put down until you are finished.

*"I don't know where I belong, Will! - That's because you belong to me."*

The road ahead of Will and Maggie after the events in Maggie's hometown is a very rocky one. There is more than one obstacle in their way. Not only physical ones in form of human beings but also psychological ones. Both have inner demons they need to fight and anxieties that they need to overcome.

*"Will made me feel big when the world made me small."*

But Will and Maggie make it work. They have great chemistry and their deep and pure love for each other helps them to find their way. Together they are a strong unit that can steer a boat through any rough sea that tries to shake them up.

*"How do you do it? - Do what? ... - Be the air I need and take my breath away all at once."*

The pages of Indiscreet are filled with angst, love, sexy scenes and characters that breath life into this book and story: I enjoyed every minute spent with Maggie and Will.

---

### **Elaine says**

Best book this year!! I laughed, I cried and then I was insanely mad at Will, but Lil had me the angriest!!

Now that why it was the best book of the year!!!

Will Lilly and Will get their happily ever after or will all the lies be the end for them both?

---
