Infiltration T.S. Paul

Athena Lee is the new Martian Ambassador but she is at odds with the old one. So much so that she is in a jail cell on charges of insubordination and treason, again. Visions of torture and persecution have her worried. Outside the Embassy, Dar is frantic with worry and has put a team together to storm the Embassy and free her.

This comes of the Eve of change for the known Galaxy. A Massive Earth ship is on its way and Civil War is already breaking out in the Empire. The enemies of freedom, the Cabal, have come out of the shadows.

With everyone against her, how can Athena Lee survive?

A bit shorter than I liked, but still a great addition to the whole storyline. Remember if your looking for a sci fi magus ops, your looking in the wrong place. The entire Athena Lee series and related works are a great sci fi pulp story line. Were TS Paul has done a great job of having the female character be the hero and not the damsel in distress.

Marie M Williams says

Fantastic!!

Loved this book, the best Athena book yet. I love a space odyssey and this fits the bill. The characters are really gaining in personality and scope. I want a kick ass grandmother too! I want a little more of Athena's ingenuity in the books, instead of her being rescued all the time. I want to learn more about Wilsons clones and let's destroy earth, and free humanity. Sounds like a plans!! Such fun!!!

Now. The family grows.

The story continues growing Betty and better with each book. Wilson is a fountain of surprise s go Wilson. It would be fun having him around. From surviving to reveluation Athena and Dar continue to find and surprise those who underrate them.

Ambassador Lee

Well Lee is now the Ambassador to Mars from Hong Kong!! It took a while and she had to be rescued but she is now the Ambassador!! Love her character and all the others associated with her. Wilson you are too funny and you have a cat, I love you more now!!

Excellent example of poor writing skills

Clichés in every sentence. Editing looks like a first draft . Characters' emotional development is preadolescent. Please attend some writing workshops.

Richard Howe says**Great read**

Ok as I have said before I'm not a great reviewer but this series is well worth the time to read them and as they are quite small it doesn't take up much time great e at real Mr paul keep up the awesome work

Mike says**Awesome story. Poor grammar.**

Awesome story. Poor grammar. I'll be happy to change the rating to a 5, when you fix it. Pasta & Ramen forever!

Louis Graff says**Fun**

I enjoyed this immensely and have read 8 books over a number of evenings. Clean dialog and not lost in sci fi technical details about the ships and weapons. Moves along and is fun to read like sci fi action movies are fun to watch.
