### Jitendra Patel says

Overall : 2/5

Feeling : **Disappointed**

Recommend : **No One**

I waited long for this book to read and as it was hyped so much online, i am bit disappointed to finish it as it is not that great.

It takes a good start then slowly it become very common and guessing the next line and passage become so easy. Typical Bollywood style story with happy ending , few easily guessable twist and turns and abrupt ending. No Elaborate storyline and full of forceful addition of sexual orientation even places where it was not desired or needed.

Overall not even a one time read and seemed like wasting of time. I have still rated 2 stars as i love the previous works of the author.

I am bit new to goodreads and hence this is my first review. I will add reviews of other book i have read in the past as and when i get time.

--cheers

.- Happy Reading -.

LOTS OF SPOILERS AHEAD.

First of all,I must appreciate Sudeep Nagarkar for writing about so called "taboo" issues in his book, and also for writing about so many issues at once :bullying,physical abuse in a relationship,having a different sexual orientation than most others .But that is where I draw the line on appreciation, and begin to focus on the faults. Shibani is a passionate biker.Shouldn't biking form atleast a small part of the story?It is instead just written to show out her character:bold and fearless.Also,I never felt very connected with her,she remained a one dimensional character,though I sympathised with her in the end. Tushita was a character who was even more one dimensional than her sister,Shibani. Though she had mental and physical scars,the hurt which she felt kept being displayed almost in the same words,that I lost interest.Tushita's Prince (the way she depicts her ideal man) was again,repeated so many times.Also,Tushita coping with the scars arent exactly shown. Geet was a character I liked,given her superior intelligence.But the fact I did not like in Geet and the entire book was that a girl had to become pretty for the guy to like her.Rudra didn't give Geet a second glance till she turned pretty.Also whatever the girls wore was heavily discussed (some times only,I admit)but that put me off.Rudra was very badly characterised,in fact I could not understand what even was his character. Geet could perceive well, but apart from that,I didn't understand what even drew them together,or why Geet is said to be kind and all that.Vivaan was good.I liked him especially when he was the only one who understood Shibani.Ending was very stereotypical.The book could have been written much better.2 stars just for the issues the author took the effort to educate people about.

he book has the perfect title! You will love every character coming across. The story will unfold in front of you and you will relate to the characters and the story so much that you will feel that you are living it. As if you are the one watching all this behind a secret door which takes you through every chapter. I am not reviewing it. I am just expressing what I felt.

This book sucks. I never read Indian authors but i was forced to read this on a train journey. Im someone who wants to complete the book once started no matter how bad it is. I painfully finished this book as fast as I could. The story was lame typical bollywoodish kind. The characters were very plain. His writing style and vocabulary is of a 4th grade student who is forced to write an essay in exam and he writes whatever the hell he can manage to score marks. I wish we had better authors in India and most importantly, better readers because as long as people keep reading and making such shitty books bestsellers, we are never going to get rid of these pathetic 'writers'

SUDEEP NAGARKAR has become THE NAME in the romantic genre which makes it easy for his book to sell in large numbers even before its release. With 6 books in his kitty and almost each of them doing well in market, his 7th book- "She Swiped Right Into My Heart" has just released today and as usual, I had high expectations from him like every time. I would say that by his own standards, this is not his best but certainly a fine attempt as he have tried to cover several issues in this fictional story. I like how Sudeep doesn't write books in a revolutionary way with each sentence presenting itself as it will change the whole nation in that second itself but he tries to influence your thought process with his stories gradually. Though I feel that at this stage, he should start attempting little more mature stories with a tone of thriller, spirituality or based on corporate theme which can attract even the age group above 25.

Talking about "She Swiped Right Into My Heart", it is a story of two sisters- Shibani and Tushita, their friend- Geet and two boys who take entry in their life eventually- Rudra and Vivaan. All 5 of them share a single roof many a times in this story. Though it becomes quite unbelievable that warden of a girl's hostel is allowing boys just because they don't look any dangerous. Author has beautifully captured how a girl faces

physical abuses in a relationship and still can't end it overnight because of fear of reaction of her boyfriend. He also discusses another issue where a girl is bullied almost everyday in college where anyone does something which makes her trip and fall on her face etc. The way author discusses this in few initial pages is really disturbing. Though the end of it isn't convincing as I wanted the victims to respond in the similar way to her bullies but she does it quite softly.

Many other issues are prominently discussed in this book but the prime is about a girl who identifies her sexual orientation not being straight. And how she ends up fulfilling her sexual desire is another throwback into this book which is majorly covered in 2nd part of it. In short, author is trying to convey many messages to the youth through his stories and that's what makes him click with his fans and new young readers who are picking his books one after another and making him much bigger with each one of them.

Coming to the drawbacks of this book, I would say that author takes lot of sentences to assure himself that the particular message is reaching his readers which makes it little boring and irritating when you get the message in the first sentence itself but still end up reading the same thing explained in different ways for next 2 pages. It would be great if author will try to be specific and be confident while describing even a disturbing scenario in a sentence or two. This will ripple more effect on readers. Rest, the twists and turns in this story weren't revealed in a proper manner which lessened its impact. The characters could have been woven with little more finesse the way Geet is treated in the book. You find it hard to connect with anyone else as you do with Geet. Overall, I would say that this is an average attempt by the author considering the standard he has set for himself. I give this 3.25\* out of 5. Next time, I am expecting a thriller from Sudeep Nagarkar. Let's watch out!

Thanks.

This is my first book from Sudeep Nagarkar's stable and to be frank, it has left me utterly disappointed. After much contemplation, influenced by the ratings of 4 and above on Amazon and Goodreads, I went ahead with this book. But then it did not excite me. The book was not a page turner for me definitely.

### **Sonali says**

Very pleasant book to read. It is a book about...friendship and love... It shows deep friendship between 3 girls and a guy. And love between one of those girls with a popular guy in college. Eventually all come together and celebrate their bond of friendship and love. There is a small twist in between which I am not gonna reveal. I enjoyed reading the book throughout, though I felt some lines were very cheesy lovey dovey lines which doesn't happen in real life these days. But after all it's a novel and a person's imagination so everything can happen. It's a cute story. So I give it a 4/5

I bought a copy because I was researching on what kind of books sell and I noticed that this was a best seller. I sincerely thank the author for writing this because it gave me a lot of confidence in my own writing. I possibly cannot write any worse than this abomination. I do not understand how people give out 5 or 4 star reviews for this book when the writing lacks depth and characterization. It was just 80 or so pages of incoherent rambling without any real dialogue. I would say 6th class students of our high schools would have a better love story to tell than this guy. The author should retire storytelling ideally but his legion of fans wouldn't let him. He brings the caliber of Indian authors down. I literally wept for the people that had to read this monstrosity.

### **Surbhi Sareen says**

She Swiped Right Into My Heart is a captivating novel by Sudeep Nagarkar.. The book talks about the concept of friendship, relationships, and obviously sensitive issues like LGBT, Bullying... The characters are portrayed reaptly strongly.. for instance, it takes guts to weave such a villainous character of Andy and the mean characters of those girls gang who used to bully the protagonist, Geet.. Shibani is elucidated as the mouthpiece of LGBT community who realises her preferences only after getting attracted to her best friend, Geet which ends up at a great havoc.. on the other side, Tushita is the victim of tormented relationship who later finds solace in Vivaan's care..moreover, Rudra is caught in the clutches of his past.. all these characters play a vital role in the development of the plot..the trials and tribulations these quadro group face makes the readers smile and lament at times..Sudeep has done complete justice to the characters.. The descriptions and epistolar attitude of the book makes it enthralling..

The introductory part was so interesting that I thought it would end with an interesting climax. The narration made me lose interest(too childish). It ended to a boring story. I think author was able to make too good.

However, I don't understand how could Geet forgive Shivani so easily? I can understand the feelings of Shivani, but it doesn't allot her the right to upload private pics of her best friend?

The only thing I liked was the nature of Vivan. A good example of an ideal personality.

Overall, I don't recommend to read it.

## **Arhind says**

It is an average book with average filmy story. Nothing some excited and real facts are there. When I was reading this, I thought I was reading some hindi serial drama. I am truly disappointed by this book. I think author was trying to excite the modern generation by including some love, kiss and sex type things.
