## **Slightly Hexed (Hexed Hearts, #1)** Miranda Ripley

When Ava Ashworth's boss turns up dead, she discovers that he's been using her as a magical battery to power some questionable spells. Those spells include a binding that anchors Cole, a delectably handsome demon, to Earth. Now that her boss is dead, Cole is bound to her. This wouldn't be so bad, except that the people who killed her boss are now after her, and the only way to head them off is to use the magical talents she supposedly has. Magical talents that are sealed behind a damaged hex.

The only way to access them is to relax. And the only way she seems to be able to relax that much is to, ahem... Well. Good thing Cole's around to lend a hand.

Dodging magicians, archons, and an inquisitive best friend, Cole and Ava set out to discover who killed Ava's boss and stop him from doing the same to Ava. But being bound together ignites complicated desires in both of them, and Ava isn't certain that she can trust her feelings... or Cole.

Great start to a serial- just wish I knew how many parts there are going to be.

\*\*\*I received this novel through a Goodreads Giveaway\*\*\*

This was a very fast paced introduction to the series. I read it so fast I was surprised.

I do have to admit that I had to stop and check the description again because I thought it was a piece of erotica and I didn't remember it falling into that genre. I wasn't expecting so much sex.

The storyline is great but I thought it could have been explored more. There wasn't much mystery; Ava's boss is murdered, Cole shows up, Her life is threatened there is a climactic situation and the book ends.

I would read more of the series simply because I want to see how Ava evolves.

Sexy read and great story!

Love, love, love the characters in this book! Ava and Cole are great romantic (or...erm... erotic) leads. The book reads like a paranormal urban action story with a strong, independent female lead, but the ample sex scenes tip it over into erotica. Looking forward to the sequel to see what happens next in their world. Sexy sexy times are a great bonus!

Ava Ashworth worked in a magic shop where such items as candles, incense, crystal balls amongst all other magic shop props were sold. Late to work one morning she feared her boss's wrath. instead she found her boss mr. blake deceased in the basement. He was on his back amongst ritualistic memorabilia. To her surprise a man steps out of the shadows. Cole tells Ava he is bound to her by a spell and her life was in danger by whomever killed her boss. THANK YOU GOODREADS FIRSTREADS FOR THIS FREE BOOK !!!!
