The Age of Corruption (Fiona Page Novel #1) Melanie Ifield

One kills to protect. One constantly stumbles into trouble. Assassins. Adultery. Action. When does murder become the answer to difficult questions, and who gets to decide who lives and who dies?

Join 29 year old Fiona Page in a thrilling action novel as she embarks on an adventure full of lethal friends and foes. One thing is for sure – when swimming in the murky waters of murder and romance, its better the assassin you know...

THE PAST COMES CALLING

Fiona lives the high life and is full of humorous ramblings especially when she's drinking to excess, and that is a lot of the time. She can't imagine anything more hazardous than missing the next party. That is, until she meets her new neighbour. Suddenly there are intruders in the units, dangerous men drinking at Fiona's local pub and an international hit-man in town hungry for revenge. Are all these directly linked to Fiona's new neighbour, Jonelle?

Jonelle's dark past holds friends and foes aplenty, and one of those old friends turns up looking for a fight. Fiona just can't stop getting in the way and Jonelle may not always be there to save the day.

TREAD CAREFULLY

Thrown together in a moment of weakness by Jonelle's unexplainable offer of friendship, Fiona must learn some basic life saving skills or Jonelle's world may be the death of her.

There is something sinister about Jonelle that has Fiona torn: Should she be running for the hills, or diving right in to the life Jonelle is offering? And if she does decide to join her new friend, just how far is she prepared to go down the dark road of violence and menace? As she finds herself becoming more involved in, and accepting of, Jonelle's dubious activities, Fiona begins to wonder if her judgement and morals really are that easy to corrupt.

I received this book as a prize from Goodreads first reads. An easy to read novel perfect for reading on the commute to work. Enough mystery and intrigue to keep you interested but a book you can pick up and put down without losing track of what's going on.

The story of a woman who has it all, and is a bit spoiled and how her life changes when a new woman moves next door. This book has some fun and much mystery to it. Interesting women in it. A good read.

DISCLAIMER: I received a free electronic of this book from the author herself in exchange for an honest review. In no way will this affect my review and rating of this book.

Rating: 8/10 stars

The Age of Corruption follows Fiona Page, a 29 year old woman who is used to partying and drunkenness, when all of a sudden she meets her newest neighbor Jonelle Brakin, a woman who is more than meets the eyes. Fiona is soon thrust into a world full of fighting criminals and murderers and falling in love with gang members, all while solving an unsolved murder mystery. Soon, she finds herself deciding whether she wants to leave behind Jonelle and a friendship she just made or fight Jonelle's old enemies and wind down a road of violence and corruption.

I'm pretty neutral about this book. There were many things about this book I like, but there were some characteristics that I could not stand as much. Rather than savoring and enjoying it, I felt as if reading this book became more of a chore at times rather than a pleasure. Don't get me wrong, it was a nice book, but there were many things that could have been improved in my opinion. Just to let you know, it took me almost six months to read this. I've set this down for a while, picked it back up, restarted it, and everything.

When you start your book journey with this novel, there will be a lot of things thrown at you, and I mean that in a good way. There's thrilling action that keeps you on the edge of your seat, adventure that will take you all around Australia, humor that will make you laugh out loud, mystery that will keep you guessing, and plot twists and surprises that you will never guess. If you have read some of my past reviews, you know that I LOVE PLOT TWISTS AND SURPRISES AND ANYTHING UNEXPECTED!!! I love to go "What???" (but not too much). This book has a lot in store for you. Things will happen when you least expect it, I guarantee it!

I think my biggest problem with this book is length. Books to me have to be a “right” size. I can’t read books that are over 600 pages long because I don’t like spending too much time with it. And that’s how I felt as I continued this book- I just wanted to finish it. When reading a book, you should either feel resolved, which is what the book did, or you should be wanting more. You shouldn’t, however, want to end a book. There have been books and movies that have been so well-written that I asked “It’s already over?” and other books and movies that I said “Finally, it’s over.” As my mom always says, “It’s better to do something short but you enjoyed it rather than something long and you wanted it to end.” That same quote (which is not exactly what she said but similar) applies to books in my opinion. I’d rather have short and sweet than long and starting to lose my interest.

I had a nice adventure reading this book. Did I want it to end sometimes? Yes. Was I fascinated at times? Yes. There were things that I both loved and didn’t like, but does that it was a bad book? No. It was enjoyable. A bad book is one I get disgusted when reading. Did that happen to me while reading this one? No (except whenever I’m about to come to one of those rated-R scenes that I skip). With some work on some details, I think this will be a great read to pick up.

Recommendation: It wouldn’t be my first recommendation, but try it out!

In THE AGE OF CORRUPTION BY Melanie Ifield > Fiona lives a priveleged life thanks to the generosity of an older dying relative, who leaves her his entire wealth. Lazy, self centered and a bit selfish she parties her way through life until she meets Jonelle. Her new neighbor. >> Fionas life is drastically changed. >> Full of MYSTERY and SUSPENSE
