Winter Reeds

Holland Kane

Winter Reeds Holland Kane

Documentary filmmaker Mike Harrison moves from New York City to a remote northwest town to research an infamous car dealership fire. The generation-old unsolved arson left two people dead, and if Mike can solve the mystery he'll have a career-making movie. He's distracted, though, by beautiful Katie Ames, a fellow New Yorker who's come to Hallmark County with her mentally handicapped brother to piece together their own complicated past. Katie's dating an architect who was tangled up in the dealership arson. The man is obsessed with Katie, and threatens her when she tries to break up with him. The next morning, the police find his dead body. Was he murdered? The medical examiner won't say. Mike and Katie are outsiders in a town where the popular Sheriff Trout is a law unto himself, and citizens live under constant surveillance. Trout has his own secrets that he doesn't want Mike to find, and he's not afraid to use his position to intimidate and coerce. But there's a story to be told: one that ties the arson, the dead architect, the sheriff, and Katie's missing family together into a devastating small-town scandal. Is Mike prepared for the price he'll have to pay to tell it?

Tanja ~ T's Book ~ KT Book Reviews says

This was a Goodreads Giveaway book.

Ok I want to be kind as the author sent me a very nice note and the book came in a timely fashion. Unfortunately I don't think this one is for me.

I have tried three times to read and finish Winter Reeds and have failed. Here is why. I feel no emotion or connection to the main characters. So much happens within the first thirty pages with very little world or character building. What I have learned is very little and I honestly don't like Mike or Katie. Here is what has turned me off.

The sex scene aftermath...wet t-shirt talk...ew.

Katie claiming to "hate careless people" when Mike accidentally hits a deer. Only to then get a kick driving erratic and "tempting death". Made no sense.

Mike asking if Katie is channeling her parents...wait what? where did that come from? More info please.

And finally Mike not manning up when he clearly sees Katy being bullied/harassed by Cole. What the hell? You want to be her man...well be a MAN.

The cover write up looked and sound really good. I think the over all story idea is a great one. I just found no connection or emotional ties to these people. Therefore felt no investment in finishing. Maybe I will try again later but for now I am gonna shelve this one.

I WON THIS BOOK FOR FREE ON GOODREADS FIRST READS GIVEAWAY

"Winter Reeds", by Holland Kane, is about Mike, a documentary film maker, who is investigating an arson of a car dealership. Two people died in the fire, but it was ruled an accident. The fire took place in a small town, where the local police have their own way of carrying out the law. As Mike investigates for his film, he makes several startling discoveries, some of which involve Katie, the woman he has fallen for. The beginning of this book was very slow and felt devoid of emotion. It was hard for me to connect to the characters. The last half was very interesting and the emotion picked up. I actually came away liking the book. I gave it 3 stars because of the dragging beginning. I still would like to read some more of Holland Kane's forthcoming work.

Trisha Law says

I received this novel through Goodreads...

I want to thank the author for sending me a signed novel through this site. I thought the plot sounded unique and interesting from the back cover. However, I had a lot of difficulty getting through this book. I actually started it, but became utterly bored with the plot and set it down for over two months. When I resumed reading I found I had to force myself to keep going... (which I have NEVER had to do)

I found the plot unexciting, dull, repetative, and just hard to even read. I couldn't connect with the characters or really any aspect of the plot. When I finally reached the end; I found a huge let down. Overall, I would not recommend this novel.

Chad Varnado says

I won this book in a giveaway. I was so far behind on my reading list that it took a while to get to this one. I started it last night and finished it this morning. I wish I would have picked it up sooner! The characters had me pulling for them (well some had me hating them). Great book! Thank you Mr. Kane for the book and the adventure!

Jessica Brooks says

I don't know why this book got such low reviews. I really enjoyed it! Grammar check could use some work, but other than that? Really good, easy read.
