Thanks for joining me for this series of vignettes featuring the men of Thieves. We all know Zoey's point of view, but I thought it would be fun to take key scenes from the series and rewrite them from the men's point of view. I hope you enjoy seeing the series in a different light. I'm enjoying playing around with all of Z's guys!

This is a scene from Steal the Light. It takes place roughly midway through the book after the fight at the hotel with Stewart, the demon. Daniel has been shot with silver bullets and he's expended his energy saving Zoey by flying her safely from the top of the building down to the bottom. He wakes up, sure that he's died only to discover that Zoey won't let him go....

Debra Johnson says

You Will Call Me Master (Thieves, 1.5) by Lexi Blake is a Paranormal Romance Scene from Steal the Light. I guess it was suppose to get me interested in this series. I can't say that happened. I wanted to like this. I love her Masters and Mercenaries series. But this did not give me enough to know if I would like her Thieves series. More the opposite. If there had been a bit more to it, perhaps.

You Will Call Me Master is a short scene from **Steal the Light** but told from Daniel's point of view instead of Zoey's. It's not a great introduction to the series if you've not already read the first book though, IMO it only really works if you know the context and the history between the characters.

I found it really interesting getting the chance to see inside Daniel's head. We know how much Zoey adores him but he's harder to read because we only have his actions to go on in the first book. It always felt to me that he loves her too but was trying to protect her by keeping her at a distance but this just confirms that. I'd love to see more of his POV in future books (& hopefully some of Dev's too!) but this was definitely a nice little snippet.

Apparently I had this little tidbit for a while. Woah. Straight out erotica scene. This is a little deleted scene I guess from Steal the Light. I guess this is 1.1? Anyway, the title totally fits. Danny is hungry and stubborn. Zoey is more stubborn. Loved the ending line.

It was interesting to see some of these events from Daniel's perspective, but there wasn't really anything unexpected.

Camille says

Zoey getting aroused by the sight of her ex-fiancé's dying body + some blood exchange. Yay, I guess?!

This almost made up for Daniel's brooding and mulish behavior, oh wait . . . no, it didn't. But I do feel a little bit sorry for him now, like 3% sorry, which is still better than my previous feelings of general apathy

and slight distaste.

This book is only supposed to be Daniel's POV in the main series, Lexi Blake has written a few of these depicting certain scenes in the stories. But this was one that I just couldn't get into.

It didn't explain anything to the reader about the situation it was set in or why he was placed in a cell in Paris to die at all. While I understand that it was only supposed to about the actual scene and not the full story, I still felt that there should have been some way to understand what was being written about - but no, it appeared not.
