Not gonna lie, the Bishoujo Kigurumi are creepy. xD

We get to meet Serinuma's dad, and Shinomiya gets a bit more development. Be curious to see what they do next volume (figure it is Nishina's turn? Or just more of a big cast focus? Or introduction of a new suitor?).

Andrea says

I really like this series, but this issue was a bit of a miss for me. Maybe it's post wisdom-tooth extraction pain meds, but none of it was that interesting/funny to me. That being said, I'm excited for whatever that ending set up?! And I also would like a pet iguana, thanks (Thor gets an extra star)

Liza says

Meh, still not feeling this series anymore.

Also as someone with a lizard phobia...you don't get over that stuff that fast. =\$=

I am now giving one review at the end of manga series

4/4.5?

Starts out with the completion of the Puri Puri Moon storyline (not my fave), and then enters into new territory for me, as the anime hasn't quite caught up yet (also I'm a couple of episodes behind now). There's one about Serinuma's dad, which is kind of meh, until the very end, when he asks her who she likes--HA! That's the Serinuma we know and love! And then there's a story about Shinomiya that's kind of cute (except

what the heck happens in the end??? I have no idea). But Iguana!

I dunno, this manga is still pretty hit or miss, but I'm looking forward to volume 9 anyway!

Anna says

For some reasons, I do not rate mangas and manhwas. I just can't.

This manga series is hilarious. It's borderline offensive and it's a lot problematic since all the guys fall in love with Serinuma once she loses weight and that's not right. Of course, throughout the story, they all get to know her for what she is beyond physical appearance and that's great but still freaking offensive. That's mostly why I want her with the chill out dude, the third year, the one who never thought differently of her whether she was fat or skinny.

Apart from that, I think this manga is pretty good at portraying otaku reality and mostly teenagers' reality (Twitter, animes, stress, etc...) but don't expect something phenomenal, it's still a harem and I hate those because they lead absolutely nowhere. So really, if you're looking for a funny manga series to read, read this one. If you want some deep ass romantic story, look elsewhere.

Lakendra says

Very adorable. I can't wait to see who she picks. I have a favorite and I think they would be perfect together!!

¡¡Qué!?

Finamente llegue a los capítulos que aún no son llevados al anime y me fascino, estoy totalmente enganchada de esta serie, y ¡¡qué significa ese final?! I mean... what is going on?

Además de que me encantó lo que esta pasando, ya estoy deseando la nueva temporada del anime para ver en animación estos capítulos, pues estoy segura de que me partiré de la risa con el padre de Serinuma <3

Dakota says

continuation from the last volume, an appearance by Kae's dad(funny) and some maturity with Shinomiya.

Tani says

This volume finishes up the Puri-Puri Moon Show, then has a brief interlude where we meet Kae's father,

and wraps up with the sudden announcement by Shinomiya's parents that they're going to be moving back to Norway.

I really liked the ending to the Puri-Puri Moon Show. I enjoyed the way that it takes a bit of a closer look at one of the most common BL tropes, and I'm glad that Nana really seemed to realize that what he did was wrong. Also, it was really cute how the story line wrapped up.

I was not very thrilled to meet Kae's father. I'm pretty done with manga where family members are insanely possessive of other family members. It kind of skeeves me out. He does realize the error of his ways, but I still could have done without it.

I really liked the Shinomiya storyline. Finally, some depth to his character! I feel like he's been the least developed, so that was nice to see, and the addition of Thor the iguana was fun both visually and in terms of the story. Also, no cliffhanger this time around, which was nice.

Nidah (SleepDreamWrite) says

Another good volume.

yvee says

shinomiya! my baby, let me hug you I'll be ur friend :((

DonutKnow says

Finally something more substantial from Shinomiya's character! :D

Lissa says

poor hayato.. I do so enjoy this quirky series
