All of Me Lisa Renee Jones

In the sizzling conclusion to Lisa Renee Jones's bestselling Inside Out series, Chris and Sara finally embark on the road to marriage—but will the threats from their pasts steal their joy?

Sara and Chris have fled to Paris to escape the aggressive reporters covering an explosive scandal. But a long-time heartache from Chris's past awaits him there, and he finally allows Sara in fully as he shares his darkest secrets with her. Seeking peace, they spend some time at his chateau in the countryside, planning their Valentine's Day wedding, then return to Paris for a magical Christmas. And when they finally head home to San Francisco, other broken connections from their lives are made whole again. Healing finally seems within reach...until a surprise visitor right before the wedding throws Sara into turmoil. Will they ever be totally free of their pasts?

Sexy, Panty melting conclusion to the Inside/Out series

From the moment Chris and Sara met in the first book, 'If I Were You', electric sparks sizzled whenever they were close to each other! If anything, their sexual attraction is hotter now than it was in the beginning. Sometimes Sara can orgasm when Chris just looks at her! However, the sexual component is now only part of their bond. They have had so many demons they could have destroyed each other, but that has not yet happened. The slow process of sharing bit by bit seems to bring them closer each day.

Chris remains dominant in the bedroom or wherever they can find a minute anywhere to have mostly clandestine sex. I have never read a series where the hero and heroine are so extremely attracted to each other. (at least not in a well balanced series where sex is hot, but not the most important element) Sara finds she really enjoys being sexually submissive; however, Chris supports her 100% outside the bedroom to become a person with a very healthy sense of self worth.

He wants to protect her from any harm, and she finally realizes that he is not trying to control her (except during their many sizzling sexual play times)! He is not her extremely wealthy controlling father. Sara walked away from her life of luxury, taking NOTHING from her father with her. When she and Chris first meet she is supporting herself as a schoolteacher, though her love is art. Chris is perhaps the wealthiest, hottest billionaire artist in the world, having inherited a huge estate from his mother as well as selling his paintings for millions each year.

Chris's wealth is a problem for Sara for a long time as she equates wealth with controlling men (her father especially). Chris wants to shower her with nice things because he cares for her, but it is difficult for her to separate his care from being controlling, like her despised father.

Despite the many challenges and tragedies that continue to plague them, their bond grows closer each day. Soon it becomes Chris and Sara against the world. They become one entity. They still have demons to overcome, but now they trust and share with each other completely. Do we dare call it love? Will they continue to be able to fight their pasts together or will fighting their demons finally become too much and separate them forever?

This is the most exciting series I have ever read. I fell in love with Chris and Sara from the moment they met. I had a range of emotions from excited to sad to extreme anger. But overwhelmingly love for Sara. She is my favorite heroine in a series ever! Since I am a man, I will say I empathize totally with Chris. Lisa is so great in giving us great men's POVs.

This book can be read as a standalone, intense, hot sexy story, some results of previous conflicts are confirmed from the previous books. To really appreciate and understand the back stories, you must read the previous books in order. This is an exceptional series! And for everyone who has read the rest of the series, you will love this final wrap-up book!

I received an advanced ARC copy of this book in exchange for an honest review.

Yea, yea, yea....Chris and Sara are happy and they love each other....great!
But where the F is Ella, I need to know.....

Linda-Rose Sternfeld says

This is book 6 in the Inside Out Series by Lisa Renee Jones.
I was given an ARC for a fair and honest review.

I have had a lot of mixed feelings about reading this final book in the series. All Of Me is a wonderful and poignant ending to an emotional, suspense filled romantic thriller. All of your questions are answered and some you didn't know you had! If I could give this a Ten I would. To me all the characters have become a part of my life in ways I never expected! Sara, Chris, Mark, Crystal, Rey, Chantal, Amber, Tristan, the Walker Brothers, the two art galleries, Ava, Ryan and of course Rebecca. Where would we be if Ella hadn't found Rebecca's Journals???

ARC received for review

I liked Chris and Sara from the beginning of this series, and I really thought we were going to finally find out what happened to Ella. NNNOOOO we have to wait for a three book series to find out what happened/happens to her. I was so over the whole Tristen and Amber storyline. It was a nice epilogue to their wedding.

Natalie The Biblioholic says

This was truly a sweet conclusion to this series. Chris and Sara are more solid than they ever were (mostly due to Chris of course) and have vowed their lives and hearts to one another. Mark has never seemed more real and he's got the charming Crystal by his side. I couldn't be happier for these people. This book gave them some much needed closure.

The only unfinished business is Ella but I'm guessing that will be covered in the spin-off series.

All of Me was short, sexy and sweet and gave us just enough to say a cheerful goodbye to the story.

Enjoy! xo

Michelle says

Chris & Sara's journey hasn't been easy or without heartbreak, but the time for their own happily ever after has arrived. As they prepare to leave Paris for the States to wed, Chris is dealing with his guilt over Amber and his temptation for pain, but with Sara at his side, we see just how much he has overcome. With those responsible for Rebecca being punished, only the mystery surrounding Ella remains; Chris and Sara are home at last and counting down the final days till their wedding.

I am a little torn on this series overall. I did enjoy LRJ's writing and I really liked the concept of the story, however I felt like this series could have easily been wrapped up in three books. I know that Ella's story is yet to be told, but I still leave this feeling like nothing was really given closure. Several aspects of the last few books just didn't hold my attention and I felt like I was forcing myself to finish them just for answers, that still feel partially unanswered.

I don't yet know if I will read Ella's story or just hope that someone will spill the beans eventually. But where this series started off with quite a bang, it sort of fizzled out at the end for me.

Meagan says

I wasn't sure what I would get when I started this novella. The last book in the series, *I Belong to You (Inside Out #5)* felt like it cleared up most of the question dealing with Rebecca's death and those that killed her. I was a little surprised that we hadn't learned more about Ella, Sarah's friend, and hoped those issues would be dealt with. Unfortunately, I was left with many more questions than answers.

All of Me (Inside Out #6) was a bit disappointing. Storylines I felt could have ended, like Tristan & Amber, continued to play out while Ella's disappearance went nowhere. Before I read *All of Me* I did not know that Ella would gain her own series, If I had known that maybe I wouldn't have been so frustrated by the ending. Although without Ella's mystery the novella is basically a long epilogue for Chris and Sara's wedding.

I really loved Chris and Sara in the beginning of this series. Chris was an artist struggling with his past, but he had a lightness that Sara was able to bring out. Sara was strong and determined. I loved her tenaciousness as well as her willingness to give herself over to Chris. But as the series has gone on I feel as though the characters have lost some of what I loved about them. Chris had a super hero complex that is more than frustrating. It was maddening to see Chris force his will on Tristan just because Chris thought he knew best. Sara was not much better; rushing ahead to protect Chris like a guard dog instead of letting the two men work out a private matter.

I understand that everyone who reads this book will not share my sentiment and it is only my opinion. I know there are others who will love to see Sara and Chris' journey come to an end. I'm glad I followed this series to its completion, I just wished it held as much charm for me in the end as it did in the beginning.

★★BUY PROVOCATIVE - AVAILABLE NOW!★★

Book one in the sexy and intense new White Lies duet from New York Times Bestselling Author Lisa Renee Jones!

There are those moments in life that are provocative in their very existences, that embed in our minds forever, and sometimes our very souls. They change us, mold us, maybe even save us. But some are darker, dangerous. If we allow them to, they control us. Seduce us. Quite possibly even destroy us.

The moment I walked into Sonoma's Reid Winter Winery and Vineyard and made eye contact with Faith Winter for the first time was one of those moments. Provocative because I know at least one of her secrets, of which, I suspect she has many. Provocative because she believes I was a stranger to her when we met, but I am not. Provocative because I sought her out, with no intention of touching her. But now I have. Now I want her. Now I have to have her. But that changes nothing. It doesn't change why I came for her.

Mmmmmmm.....I love cheese

But this was a bit much for even me.

We have gone through death, great big horrible realizations (not so great big or horrible but yeah, ok), dark secrets and death defying situations.

And here we are. Aw so sweet. Everything wraps up in a bow but we are still left with Ella running around somewhere. What the hell....

This series started off with an excellent twist that had me hooked. Ooooh a mystery?! 5 books in and I was over it (there are 10 books right now with more to come on Ella).

Seriously....good luck ever finding an end because I don't think there will be one.

I give this series an overall 3 stars. I give Jones credit for keeping me hooked for this long. The plot had potential and it was good to see the HEA for our two love birds.

Jones has officially lost me on this book, it was just too much.

Sara knows what Chris is thinking and how he is feeling at all times. She knows just what he needs when he needs it and oh BABY (I abhor that pet name). You get some spice in this one but it is seriously hit and miss.

Its the perfect contemporary romance with the disgustingly rich-brooding-possessive-tattooed male and the mousy but cute and quirky leading lady. It just showed me that I really need to stay away from this genre.

I received this book in exchange for an honest review through Netgalley.

Sofia Lazaridou says

All of me is the final instalment in the Inside Out series. It marks the happy endings of Chris and Sara and Mark and Crystal. I know that I usually beg for a series that has lots of books to end, but I want at least one more novel or even a novella to show us how things are after some amount of time add something about Rey and Chantel. Maybe even Tristian could get a happy end and not end up alone and with a broken heart.

This book is not focused on the wedding as much as it does with other things such as how things were after Amber died and Sara's father. I would have liked to see a more extended ceremony and little more of the wedding night. The ending line would have been a great way to end the series if it came a couple of pages later because for me the end was a little abrupt.

Even if you have decided that you don't want to read some of the books in the series you should read All of me.

Christine says

I had to finish it, just to see how it went. I'm afraid the series went on a little too much for me and I was struggling to remember back stories and what has previously gone on. Glad I read it now. I have closure!

Before you start reading this review... please read the whole #InsideOutSeries ! If you haven't yet - you're missing out on some of the best books EVER ? (and of course our review might spoil some things for you!!!)

"We are all the sum of all our broken pieces."

In this final book in Lisa's #InsideOutSeries we start out with Sara & Chris in Paris.

Remember? Amber has just died, and Chris wants to make sure that everything is alright with Tristan; that he has all her papers in order and that he will keep running the tattoo shop. But Tristan of course is horribly angry. Mad at Chris. He blames him for everything bad that ever happened to Amber. And poor Chris, he of course blames himself too.

But he promised his fiancée that he won't need the whip anymore - well - he might need it, but he won't act on the impulse. He'll always tell her when he feels the need...

And I know he'd be seeking a whip right now if not for me. I know he'd be over that edge. But he's not, and I won't let him fall, not now or ever again.

We spend some very sexy time in Paris and in the Merit family château....

...all the while Chris still blames himself for so much...

... I taste hunger in him. I taste pain. I taste fear. The kind of fear that comes from blame.

The security people are still looking for Ava and Ella, and trying to keep the press as far away from Chris & Sara as possible.

But then it's time to go back to San Francisco, because Chris and Sara will get married on Valentine's Day. And there is still lots of preparing to be done for that special day.

What will happen to Sarah & Chris?

Will there finally be a HEA?

Will something/someone stop the wedding?

What about Mark & Crystal?

What about the Ava & Ella business?

Will everybody die at the end? o.O

Or will there be a horrible Cliffhanger?

I'm not telling you that of course ?

I don't want to spoil too much ?

*well, of course there's no Cliffhanger, since it's the last book in the series...BUT ?
The story about Ella is not over! Ella will get her own trilogy soon!*

AMAZING NOVELLA!!!

YAY ? I missed Sara & Chris & Mark soo much *happydance*

And now they're back for one final good-bye.

I LOVED this book!

It was just way too short :(

I would've loved a 600 page story. Or a never-ending story ?

But it was really perfect.

Sara & Chris's story, a story that so amazingly started with IF I WERE YOU, has been beautifully wrapped up...with the tiny possibility that we might see them again in Ella's books, or that once the TV show airs, it will be such a success (obviously) that we'll get 15 seasons and they have to be filled with so much more about Sara & Chris & Mark & Crystal ???

ALL OF ME had EVERYTHING a great story needs:

LOTS OF VERY SEXY & EROTIC SCENES
MOVING SCENES
ADORABLE SCENES

I love how Sara is finally so sure about her love for Chris, and how she knows deep down, that whatever happens, whatever life will throw at them, they will fight through it together.

"I won't let you go."

"Good. Because I'm not letting you go, either."

I loved all those really moving moments that made me and Dawson cry ?

When one of you can't breathe,

the other does it for you.

We also have a few tiny diary-excerpts from Rebecca thrown in here and there. It was a really nice & moving way for us to say our good-byes to her.

I don't want to be alone anymore, but I don't want to settle for Mr. Big. I guess I'm a romantic. I want real love... And that's why I walked away from my Master. He's my Mr. Big, and I want all of him. Only then will he get all of me.

-Rebecca Mason

***If you loved every book of the Inside Out series - just like I did - you will LOVE this one too ----->>> GO
GET IT ? You have no other choice...
you cannot NOT read THE END! ?***

Now I can't wait for Ella's books!!!!!!

And as I said numerous times before, can I please have the Inside Out TV Show on my TV tomorrow???
And can it please be a daily thing? Because I want/need to stare at (naked) Chris & Mark all day long!

(I received a digital copy of this book for free on a read-to-review basis. Thanks to author Lisa Renee Jones and Emily McGee.)

“I can’t promise you won’t get hurt,” he says softly, “but I can promise you I’ll never willingly let you go,”

This was a short but sexy story, and a perfect end to Chris and Sara’s story.

Chris and Sara were really in love in this story, and they were also really in tune with each other. They knew when the other needed them, and we more than happy to sacrifice for the other’s happiness.

“I will protect you, Sara. It’s a vow I’m taking for the rest of our lives. I won’t let you get killed. I can’t lose you Sara. I won’t lose you.”

The storyline in this was pretty good, and we found out about what had been going on with Mark and Crystal, found out a bit more about Ava, and also got some more insight into the wedding plans!

**“We’ll take this one,” Chris announces, no give in his words.
I turn in his arms to face Andre and Chantal. Andre’s staff of at least 10 has gathered around them, and I can’t help but grin as I say, “This is my dress!”**

There was obviously romance in this book, and we didn’t have to wait for some sexy scenes!

“He gives me a quick up and down inspection, approval flickering in his eyes. “Nice, but naked is nicer.””

The ending to this was pretty good, and we also got to witness Chris and Sara’s wedding!

“Soon,” he whispers, sliding the rose onto my left hand, “You’ll be all mine.”

7.5 out of 10.

Paris (kerbytejas) says

After following all of the characters through all of the “inside out” books and novellas for several years now, I had no idea what to expect for this last book/novella.

When I first read **If I Were You (Inside Out #1)** by **Lisa Renee Jones**, I found the book edgy, suspenseful, and sexy. As the series progressed, and all of the fill-in novellas started flooding the market between the actual book releases, I found the story becoming watered down, repetitive, less suspenseful, the sexual component used to keep the reader involved with the characters, and in some cases just plain boring.

Now its 2015,

- Chris and Sara have stayed together through thick & thin, and will soon be married.
- Mark has found love with Crystal, suffered family events as well as challenging business events
- Rebecca is confirmed dead – the body never found – but assumed it was tossed in the ocean
- Ella remains missing .. but has earned herself at least 3 new books to tell her story
- Ava, Ricco, Mary & Ryan have made deals for reduced sentences for their parts in the death, or art fraud
- Chris has lost close friends, burned bridges, come to terms with his needs and desires for pain, won the girl, and comes out smelling like a rose.
- Amber, Tristan, Chantal, & Ray have had their part of the story wrapped up
- Mark & Crystal will keep Riptide and run it, but will have all of the proceeds of the SF gallery go to Chris’ charitable foundation
- Chris & Sara spent most of the book, country hopping, flaunting money, evading the press, having bland sex, and finally getting married.

I feel that somewhere along the way the edgy, suspenseful series just lost its way. I wish what had grabbed me in the first book, could have remained throughout the series. Maybe if the series had been shorter, and the main themes expanded, with better follow through, I could look back at the series as a whole and be really happy.

All of Me (Inside Out #6) by **Lisa Renee Jones** does fulfill its promise to the reader, it ties up all of the loose ends (except for Ella), and gets Chris and Sara to the altar. IMO I found nothing outstanding or noteworthy in the final installment, even the sex was bland, and very quick, lacking the erotic quality found in some of the other books.

The book was provided to me by NetGalley on behalf of Gallery, Threshold, Pocket Books Pocket Star for an honest review.

For me this was a 2.75 star read which I’ll round up to a 3.0

Carissa says

Let me start off with a little diatribe. I literally power read all the previous books in this series in order to fully understand this final instalment. I will definitely need to re-read all the books again and prepare the necessary reviews.

"We are all the sum of all our broken pieces."

This series takes us on an emotional journey and gives us great insight into each character, their development and the ways in which each complements the other. Ms. Jones made me feel every emotion and absolute distress with the characters.

The characters at play battle tremendously with all their insecurities and their dark pasts. The pain and suffering each went through, reflects in the way they fought and the way their passion evolved. Their strength and love shines throughout All of Me. Of course the alpha male dominance I loved loved loved. Oh la laaaaaa!!!

Chris and Sara are each other's ROCK and finally finally they are communicating and trusting each other. This was an aspect that pissed me off throughout the novels.

When one of you can't breathe, the other does it for you.

In the end the Happily Ever After was taken beautifully and I devoured it all with a smile on my face.

***ARC provided by TRSOR on behalf of the author for an honest review* Thanks!!!**
