I originally read this on Literotica and after reading it I fell in love with Pepper Pace. Her characters are interesting, complex, and very likable.

I'm happy to see that Miss Pace is publishing her stories. She's a wonderful storyteller and I look forward to discovering her new work! :)

4.5 stars. This book was short and sweet. It also brought up topic of what damage relationships do happen with your life. Ms. Pace get's into the real story of the character that is based on what is going on with our society. Such as Physical abuse, sexual abuse, drug abuse, death. When you read her books it makes you wonder how some of our society can neglect and ignore what is around us. But it is true when they say when there is love and appreciation with work can battle any emotional and physical sorrows. Thank you Ms. Pace for a love story story.

Oh noo.....another Pepper Pace book.....heheh

Alright yesterday was such a bummer at work, I was working alone for the night and I forgotten to bring along my storybook (which is why I hate switching bags).

Pepper Pace books have interesting characters and they make a good story not only that her books are short and straight to the point, so it's not a heavy reading like some books. In fact you could finish it in a day or two depending on how free you are at that time.

Alright enough jabbering, I've read this story before in Literotica (yeah yeah laugh all ya want) but being the dumb arse that time I've forgotten the title of the story so I only read up until she checked out of the hospital with Marty, after that I just couldn't even recall the author's name. I had to delete my browser history ....because Literotica (self explanatory) duh.....

So anyway I liked the character's introduced in this book are very likable, although for some reason i cannot 'picture' Marty as bald and with nice goatee, because I have a friend who is the exact description of Marty and every time his physical appearance is described .....I think of my friend.

There seems to be some kind of trend of Pepper that most of her characters have very tragic life or history. This one seem to hit the sky compare to all the other books from Pepper that I've read so far. They never explained why or how she has gotten the name Baby Girl right ?

Also sometimes along the line .....I'm thinking to myself .....Baby Girl....of all the opportunity you had with your life, you have the worse decision making acumen of all time.....

Baby Girl .....even with a steady job and in come.....not many of us have the opportunity to travel and learn like you had.....

2.5/5

Cute story. Good characters, good chemistry between the MCs, okay plot. I enjoyed it.

This is my third book by Pace and she's got a pretty clear formula - two slightly unusal protagonists, here an angry chef with a tragic backstory and a trying-to-better herself prep cook with a backstory to equal or surpass the angry chef's in tragedy.

One big misunderstanding which is a very fair one to have and then a HEA for everyone!

A bittersweet story of redemption and second chances. This story does a great job of using Love as the ultimate healer for forgiveness and bringing out the best in the loved one and ourselves. Pepper Pace understands emotions, self-sacrifice, and oh yes, suffering. This author does an amazing job of character building. Marty and Nicole are flawed, deeply damaged, and it makes them believable and wonderful. What you have is complexity without the cliches that could reduce a solid love story with two seriously wounded people into tasteless mush. Instead they soar to unmitigated heights, and revel in bliss.

This was a cute intro to this author. I was given a recommendation to read another one of her book, but chose to read this one first. The story called to me and I didn't want to put it down.

I really liked Marty even with his mean ways. Knowing people who act mean use it as a way to distance themselves from others, I was excited to find out Marty's story. True enough, he had been hurt in the past and was protecting his heart.

Nicole was a different kind of character. There was something about her that I didn't like, but I can't put my finger on it. Whatever it was, it kept me from connecting with her character. I think she felt untrustworthy. It was like I was waiting for her to do something ruthless the entire time I was reading. That moment never came, but I still felt it.

I was happy when Marty showed his vulnerable side, but I wanted to kick him in the balls when he was in the walk-in cooler with that tramp. What was he thinking? There are better ways to teach lessons. He almost destroyed his future.

The HEA soothes my spirits and I was happy for them.

Very Shocking moments in this book. Both People have gone thru hell and back and have done some awful things to make it thru. They were broken down but existing. Both were like walking shells but seemed to fill up those shells with the things that each have to offer. Their Offerings were wonderful and full of love, great sexy sex and joy. I enjoyed this book and I especially enjoyed the great, rap-up at the end. My kind of book.

Woah, this was another nice quick read.

Don't be surprised that I'm so into the interracial romance lately, I found that it's really sweet when reading interracial couple fall for each other despite of their color of skin.

So, when Marty, the owner and the boss of restaurant that Nicole worked, being so mean and cold to everybody, Nicole didn't have any interest with this 40 yo white man. She admitted that Marty was hot, but personality is all for Nicole. Then when Nicole got hit-run by an SUV and blood everywhere, she forced herself to walk and ended up in the restaurant instead of her apartment. Lucky her, Marty was there. Story short, they became close and were aware that they had mutual feeling and attraction. But everyone has demon in their life or past life that affect of how they became today. This is not about how they fall for each other or how the sex they had steamy, no. It's about how they beat their demon and start to move on.

This was really sweet. Really a nice quick read. I enjoyed it.

This is my third book by this same author and I've yet to be disappointed, if there's a Team Pace, I'm on board. In this novella, Pace has written two well rounded characters in restaurant owner Marty and college student Nicole.

Working her way through college Nicole knows that her boss is an as\*shole. He's been nothing but mean to her from the time that she's been working by his side at his restaurant, until one day when Nicole has a very bad accident and Marty steps up and becomes the man that he knows he can be for Nicole.

Nicole life has been a tragedy since birth, she's lived in poverty most of her life and has come to depend on herself only. I was so happy to see this flawed character come into her own and learn that a bad beginning don't always have a bad ending.

Marty has his own troubled past and can't forgive himself for past actions. He's buried himself in work because he thinks that's all he deserves. Folks, this is not a drawn out storyline, it's quick, funny, and the dialogue is really smart. The one thing I didn't like about this story was the speed at which things were resolved in the end, I thought it was too convenient and too quick.

In the end, I really enjoyed this story and I would definitely read it again if it became a full length novel. And before I forget, yeah the sex was hot!

Happy reading folks!
