## CAOS MC: The Series K.B. Winters

### **Mick**

#### **My bike. My cut. The club.**

#### **Three things I love most in life.**

But, my club brother, Magnus is f\*cking dead.

And he left behind his legacy. A daughter he'd been searching for.

I found her. For him.

What I don't expect is to keep her. For me.

Holy F\*ck.

Beautiful is an understatement.

Raven hair, firm round ass, and an attitude to rival any f\*ck head in my club.

Talon's arrival in Brently brings up the question everyone has been silently mulling over for months.

Was Magnus' death a set up?

And who's to f\*cking blame?

*The ride ahead will be LONG and HARD, but know I have to protect Talon. To keep her safe.*

*Then I will claim her.*

*Make her f\*cking mine.*

### **Cash**

#### **First time I lay eyes on Minx, I want her.**

#### **Those curvy hips and full @ss belong on my bike.**

#### **Or maybe bent over it while I'm hard as steel.**

But she keeps her distance, which is probably for the best, because she doesn't want a relationship—neither do I.

It's just asking for trouble.

Been there, done that, seen it all.

Don't think much will make me want to settle down.

I've got too much to lose.

The club is my life and that's enough.

But there's something about that hot little spinner that makes me want more.

A lot more.

I don't know where she comes from or what she's hiding, but I'm going to find out.

*The last thing I expect is for her to bring me to my knees.*

*But she does—in more ways than one.*

### **Roddick**

#### **I swore an oath to live and die by my club...**

#### **And it's the club life that'll kill me. Or Baz's sweeter-than-candy little sister, Cherie, who's supposed to be hands off.**

And there's an unspoken promise among brothers.

The rules are simple. You don't sleep with another member's little sister.

I might be the club president, but I don't play by any man's rules. I want her. And I'll have her.

All. Night. Long.

Forever.

In my arms. In my bed. In my heart.  
*She may be forbidden fruit, but she's got a cherry just for me.*

### **Torch**

#### **Rule #1: Never screw the sheriff's daughter.**

I'm an enforcer—an outlaw. I've never been big on playing by the book.  
But when I see Kyla Darlington and her candy-sweet curves, I can't resist.  
It's my job to protect her, to keep her safe given what's she witnessed.  
Small towns are good for keeping secrets, but it's hard when you're a big, burly biker with an attitude the size of a city and a c\*ck to match.  
Keeping a low profile is the name of the game, but playing house isn't my style.  
All I know is that I want Kyla—every smoking inch of her body.  
And I'm going to have it.  
*Just as long as her Daddy doesn't find out.*

### **Baz**

**When Trina left ten years ago, it just about killed me.**

**And damn! She just walked back into my life with a kid in tow.**

I bet he's mine. Looks a lot like me. But I don't know how to be a father.

I'm an outlaw, a party animal and a player.

Favorite game? Wham-bam-thank-you-ma'am with all the chicks in Brently.

But there's only one girl I truly want. And she'll realize that once I get her crazy ex-convict boyfriend off her back.

### **Dawn says**

#### **Only read one**

I only read the first one and it moved way too fast for me. She seemed like she was the type to not put up with anything to start the book off, but fell short after that. There was action, but was taken care of and over before it began. No desire to read the rest of the series if that is how they all are written.

---

### **Sherri Chadwell says**

#### **I loved them all!**

Some really good stories and some very hot heroes and some totally kickass ladies make for an awesome series. There are some gray lines that the brothers of CAOS often cross in trying to keep their community free of drugs, the forced sex trade, just evil in general. Most of the brothers are former military and know how to get a hard job done. They believe in protecting one another and the ones they love. They are not a gang of thugs but a family made up of men who know how to be violent if necessary. Each story revolves around a member of CAOS meeting the woman that completes him and makes his fight for a clean safe future even more important. The series and even a bonus short will take you on a wonderfully sexy ride you don't want to miss. KB Winters always writes a winner!

---

### **Crystal says**

#### **Pretty quick read**

I think the characters had great potential to be some of the best ever conjured up. Just felt the stories were missing more mundane "daily" details to help build the connection, angst and suspense. The fact whole pages and even ends of sentences were missing was rather annoying. Not sure if this was an editor/writer issue or Amazon copy issue. I did remove and download the book 3 times and it never fixed the problem.

---

### **Patricia Baxes says**

??Oh Baby!! You have to 1-Click this series today...like right now. I've read all the books in this box set and totally LOVED every single one. Mick, Cash, Torch, Roddick, and Baz are super hot Alpha males who ride with CAOS MC. Each one has a story that will keep you aching for more—and in need of something cold to drink...and maybe your favorite BOB. ? Don't miss out—get your CAOS MC boxed set today!

---

### **Lee-anna Dunk says**

#### **Awesome series**

This whole series was really good i devoured the entire series in 2 days each story is different but the end result the same, Alpha tattooed biker's staking a claim on the strong women who come into there lives and walk all over their hearts like a cat searching for a good place to rest. When you are caos women are protected cherished amd loved . No one f#&\*\$ with their women . Or families. Highly recommend this series.

---

### **Leanne Bryson says**

\*\*I am voluntarily reviewing an Advanced Readers Copy of this book\*\*

I love a good BB MC book and especially when those bad boys have heart. All the men of CAOS MC are hot, passionate, tough men and the women they fall for are strong, independent women. The chemistry between the couples is amazing, their stories are interesting, they're fast reads, with good twists, and smokin' hot!! Do yourself a favor and read this series, binge read over a weekend!! KB Winters has created an awesome world for the men and women of CAOS.

---

### **speedreader says**

So I already read all these books separately at one time or another (except for Baz) on my kindle unlimited subscription and I really liked them. I stumbled across them being sold as a box set yesterday and purchased it. Each book is a quick read; as I just re read the box set lol. If you like an over the top alpha male bad boy; an insta love short story then these are for you. Quick steamy reads. Baz actually maybe my favorite. I do like to reread books/series so I permanently added this to my book shelf!

### **pamela d bryant says**

#### **Great!**

I chose this rating because this was a really great series. I really enjoyed and was in Awe of all the characters. The guys from the CAOS MC were awesome. When they love they love hard. And don't let anyone mess with their women. Now these were so really great stories, each and everyone of them. And there's really not much to say. Just don't mess with the biker guys women. And some of the villains had to learn that the hard way. This was a really great read. I recommend this series to all romance readers.

---

### **Book-Lovin-Momma says**

This MC series is awesome - each of these MC men are tough, alpha men who will do whatever it takes protect their loved ones. They're loyal and loving, but won't take any guff from anyone threatening their MC family. I have each of these books, and each one is an engaging, intriguing read. Gotta love the CAOS MC!

### **Jacki Smith says**

#### **Ahhh....**

I only read Talon and Mick's story.

What did I just read? It was like a 12 year old wrote it. The writing style was choppy and all over the place. The house that a major of the story took place was an older house with old furniture and I would assume a kitchen, bathroom and bedroom and a mystery room that has a hidden compartment. That was all the description it got. That is just an example. It was horribly written. I can handle typos and grammar mistakes but this is simply bad writing.

The conversations and characters had little to no personality to them. There was no connection or chemistry between the couple or any other characters. The sex scenes were dull and incomplete. The romance was all in the couple's head apparently. At the end it says they were together for 4 months yet they had only talked to each about 10 times in the book. I love insta love books but even that has some sort of nonsexual interaction. Mick said the right things but did the wrong things. Nothing too bad. Not calling for a week and then showing up at midnight for sex (and leaves right after) but he is in love with her. And she is hurt/ mad but she is just okay with it.

No words can describe how bad this is written. A 13 year old could have wrote it better including the sex scenes. They made that much sense.

To be generous I would give it 0.5 stars.

The whole book had potential. The plot and characters have the potential to be great and unique but the writing is painfully awful.

---

### **Linda Lagrue says**

I love MC romance and KB Winters writing so it was an easy pick when I won any e-book of my choice from another author. I enjoyed every story in this collection and was totally disappointed when the end came. These books are wonderfully written with intense action, suspense, passion, violence, drama, and love. I look forward to reading more of KB Winters work. I strongly suggest you give "CAOS MC: The Series" a try. You won't be disappointed.

### **Cheryl Graham-Petit says**

MICK: A short, extremely hot enjoyable read by KB Winters. If you love MC romance stories with lots of passion, some suspense, a touch of humor, dirty-talking bikers, instant attraction, betrayal, a great storyline, and characters you can't help but love, then you need to read MICK.

**CASH:** Cash by KB Winters is a definite page turner with a gripping storyline, great characters, suspense, hot scenes, and a fierce loving, dirty-talking tough alpha biker who will do whatever it takes to protect his club and the woman he loves.

**RODDICK:** Another quick, fast-paced, hot and sexy MC romance story by KB Winters filled with suspense, danger, action, twists and turns, lust, romance, hot chemistry, a great storyline and endearing characters you can't help but love.

**BAZ:** A steamy bad boy second chance romance about the dirty-talking bikers who are sexy, tough, and loyal to their club and the women they love.

**CROSSFIRE:** Crossfire is a fast-paced, action packed romance story with a dirty-talking biker, a sassy, spoiled redhead, suspense, a few violence scenes, and plenty of heat.

### **Vanessa says**

#### **Great!**

Days later, my mouth still tingled from his kiss, his handprint still burned on my ass. Why, after all this time, did Baz still have the power to turn me inside out? To electrify my senses? Of all the billions of men in the world, it had to be him who kept me so hot and bothered that I couldn't sleep.-Excerpt

---

### **Melanie Jo says**

Even though I've read all these books individually, I still read this collection. It was great to read them one after another. KB did a fantastic job on this series and I loved each and every story on these guys. If you love biker romances, I highly recommend reading this one. It's full of action and hot romance. Fantastic set KB.

### **Valeen Robertson (Live Thru Books Blog) says**

The *CAOS MC* series is a lighter take on the MC genre. It's got 5 hot bikers and the women who bring them to their knees.

**Mick:** Mick is a big, sexy beast of a redheaded former SEAL who meets Talon at her father's home, the home that is now hers. Sparks fly when they meet, and the attraction is instantaneous. Mick is Magnus' (Talon's father) fellow brother in the CAOS MC. Magnus was like a father to him, and he's thrilled to be meeting the daughter Magnus had been searching for for so many years. As the two fall into a steamy relationship, things seem to be going well, as Talon's settling into her new home. But, Mick is dealing with some crazy club business. He's trying to find out who in his club is dealing on the side, and who killed Magnus. Thank God he's got Talon to go home to, and Cash by his side to help sniff out the rats.

**Cash** (my favorite of the *CAOS* series): *Cash* is, if possible, even better than *Mick*. *Cash* is so sweet and loving, and PATIENT, willing to wait as long as Minx needs for her to let him in on the past she's trying to deal with. She was kidnapped when she was a kid and trafficked. When Magnus, Talon's father (*Mick*)

rescued her, he brought her to Brently. Ever since, she's been a bartender for CAOS MC, but she also has a side business of selling the clothes she makes online. As Cash and Minx start a relationship, it's really rough going at first, because she's so, as Cash puts it, prickly. But she has good reason considering her past. Still, Cash is always around, always there with a panty melting smile and a some hot loving, just waiting for Minx to open up, even a little, and let him into her life, and hopefully, her heart.

**Roddick:** Cherie's lived in and among the MC life nearly her whole life. Her brother, Baz, is a member, and so is the man she's been in love with nearly her whole life, Roddick. But, Roddick doesn't see her as anything other than just the sister of one his brotherhood members, or so she thinks. She has plans on leaving Brently, permanently, just as soon as her obligation is fulfilled to the hospital where she works as a nurse. So, when she and Roddick finally consummate the attraction between them, how will that affect their future? Do they have a future? There is the usual CAOS goings on in *Roddick*, and like in *Mick* and *Cash*, it's all very brotherhood, loyal stuff, only I think I like this one just a little better. The action is a little different with the added factor of the Feds, and Roddick is a different sort than either Mick or Cash. He's older, so more experienced, and a little more settled, so handles business differently and with a cooler head. All in all, I loved *Roddick*. It's got KB's signature sexy style, and both Roddick and Cherie are well rounded, fleshed out characters with loads of chemistry.

**Torch:** Kyla is Sheriff Ethan's daughter, who's come home to Brently after having witnessed the murder of her FWB. Now Torch is having her live with him while he and the rest of the CAOS members try to figure out who the man is who killed Chase, Kyla's FWB. As they live together, Torch finally gives into the temptation that Kyla presents. She wants Torch and she means to get him. So she swans around in teeny, tiny bikinis, tempting him til he just can't resist any longer. But when that passion leads to love, will Torch run? Or will he let Kyla into his heart, even if it means there's a chance he'll get hurt like he did with his ex?

**Baz:** Baz is Cherie's brother (*Roddick*). 11 years ago he was involved with Trina, but she had a serious problem with the idea of him joining CAOS, and left him when he didn't come home for 5 days after their huge fight about him getting his patch. Now she's back in Brently, having no idea that Baz is still around. When Baz is run into with an RC car by an adorable boy with green eyes that look suspiciously familiar, and when he sees that Trina is the boy's mother...yeah, he puts two and two together and comes up with the right answer. But, how can he possibly convince Trina to trust him with being Jack's father when 11 years ago they couldn't even make a relationship work? I liked Baz and Trina together, but Jack is really the star here. He's adorable, and so adult for his age. All the usual suspects have cameos: Mick and Talon, Cash and Minx, Roddick and Cherie, and Torch and Kyla, but the club business isn't at the forefront this time. There's only a little violence and none of it is very graphic. So, if you like your MC romances on the lighter side, *Baz* is perfect for you. This whole series is really on the lighter side of MC romances, but Baz in particular goes easier on the violence and is more about the sexy and the second chance emotions.

If you like your bikers sexy with big hearts, the *CAOS* series should be on your TBR list.
