Teresa Lara says

I love this Story about 2 broken souls Diablo and Fallon who find love.Chiah is awesome I love her in Insurgents and I love her with the Night Rebels.Excellent.

Jaymie says

4.5 Stars!

Diablo doesn't have difficulty getting women, they seem to throw themselves at him all the time. Of course, as a member of the Night Rebels MC, he knows most just want to sleep with him because of the patch. He doesn't have a lot of trust in anyone outside of the club and he's not looking to settle down anytime soon. All that changes with one glance at Fallon, daughter of the jerk who runs the Underground Fighting Ring he's employed at.

Fallon is different than other women he meets. She's as broken as he is and he knows she's worth getting to know. He doesn't see what others see when he looks at her. They try to beat her down, they prey on her insecurities and hurt her anyway they can. Diablo wants to show her she deserves more and that she's special.

Before they can get their "Happily Ever After" Fallon will have to learn how to stand on her own. But not everyone wants her to be happy, there are plans for her in motion and her newfound independence and relationship is ruining things.

What I Loved: Diablo is a good guy. He's sweet yet not a complete wimp, he's still got that Alpha Biker feel to him. He's not a huge misogynistic manwhore like so many of the other brothers. I loved reading about a guy who doesn't treat the woman he's with like dirt. Too many times the men are jerks and I end up hating them and wondering why the women are with them. Diablo was lovable from beginning to end.

What I Liked: I really liked that their relationship moves pretty naturally and while not slow it's not instant either.

What I Didn't Like: I absolutely can not stand characters that are so stupid they don't think about possible consequences of their actions when dealing with the villain in a story. Whether out of naïveté or thinking that nothing would happen to them, I just want to shake them while screaming "Shut up! You're going to get yourself killed!"

So obviously you get the hint that there is a villain and Fallon ends up in the person's crosshairs. Instead of playing her cards close to the chest, she reveals what she knows over the phone. Now, first, this is a stupid move, has she never read a book or watched tv or a movie? *Bangs head on wall*

Second, don't you think you need to go to the cops about it? Ugh!

Okay, so basically, I think it's obvious that I was not Fallon's biggest fan. I found her a weird combination of innocent, sheltered, wallflower and fake. Her constant anxiety attacks got on my nerves (which as a person

who suffers from PTSD and anxiety, I never thought I'd say that). She seemed to suffer them constantly but as the ol' lady of a biker it just didn't work for me.

Copy provided to Bayou Book Junkie by the author/publisher for my reading pleasure in hopes of an unbiased opinion, a review was not a requirement.

Denisa says

2.5 Disappointing

I expected so much more from this one, I was really curious to read Diablo's story. Too bad, it had potential.

The characters had no chemistry and they were pretty flat, no development, no nothing.

Not really worth reading, this one.

Angela says

I so love you Chiah Wilder!!!! Your MC series are some of my favorites. Another GREAT read!!?

If you haven't read one of Chiah's MC books you need to. This is a great stand alone read that has a beautiful HEA!!! The first 2 books help you understand the characters but you don't have to read them to fall completely in love with Diablo and Fallon!! This story was very special to me for many reasons. Without spoiling anything and giving away too much, all I can say was that it was heartwarming to read about a man who looks at the beauty and soul of a woman and not her flaws. Diablo is a hard core badass who is part of a MC! He's not much into seeking out a woman to love and cherish. Far from it-- until one night when he lays eyes on Fallon and he can't keep her off his mind. Fallon, a beautiful and broken girl sees Diablo for the first time in a fight club and can't forget his face or his beautifully tattooed body. Of course, she doesn't think that he would remotely be interested in her because she is "nobody". Diablo proves her wrong and he won't stop until she realizes that she can trust him and that he really cares. It's the first time either one of them have been truly in love and together they heal each other in a beautiful love story that will make you melt. Diablo gives her the confidence she needs to be strong and he lets everyone know how beautiful and wonderful she is and that she's his!!! Wow what a man and how beautiful Fallon is and becomes!!! Again, this story touched me on levels I haven't reached in a while and I absolutely loved it!!! It's not often that you read a story where the characters aren't perfect with the most beautiful body. Chiah, thank you for always thinking outside the box and continuing to write amazing love stories!?. GREAT STORY!! I recommend this book to anyone who loves true love! I read this as an ARC for an honest review.

Renee Entress says

4 star

I was pulled right into this story. The story has laughs, pain, secrets, suspense, and heartbreak.

If you have not read the below I would recommend reading those books(s) first
Steel (Night Rebels MC #1)
Muerto (Night Rebels MC #2)

This is Fallon and Diablo's story. Fallon can't stand the touch of a man. The men all look and the woman all have comments. When she sees Diablo, she is drawn to him but she knows all men are cruel and not to be trusted. She learned that from her father and the men around him. See can see something in his eyes that begs her to trust him. Just as she thinks she might be able to her past comes back for her. Can she trust anyone? Or will this be the end of her and her sanity? If she trusts Diablo will he protect her or give her over to the danger?

I could connect with the characters and the story was a great read.

I recommend this book.

I recommend this book.

Wendy Livingstone says

This is the 3rd book in this amazing series, and in my opinion, my favourite! Diablo is sweet and quiet, and is a bouncer for the underground fights which Fallon's father runs. Fallon is such a sweet, big hearted character, but due to the awful way she is treated, she is insecure. There is an instant attraction between these two from the moment their eyes meet, and they bring out the best of each other. They both have heartbreaking stories to tell. No spoilers from me, you really need to give this one a go for yourself, you will not be disappointed!!

Once again this author had me hooked and intrigued from the very beginning of this book, and I highly recommend this authors work for all MC lovers. Cannot wait to read the next book in this awesome series.

Kathleen R. says

Title: Diablo

Author: Chiah Wilder

4 unexpected stars

MC genred novels are some of my favourite. Add the fact that they are dark, and I find them irresistible. Why? Probably because the possibilities are endless and there's so much that an author can do with that kind of story that my curiosity is more than a little piqued, heck, I have this itching in my fingers that make me HAVE to read the book just to find out what happens to their characters and whether or not they were able to redeem themselves in the end. It's absolutely thrilling and something that makes me want to read more and more from the author. So when Chiah Wilder, a new author for me, wrote a dark MC romance about two broken individuals who suffer from their past, I just had to get my hands on it.

4 breath taking dreams

Diablo was nothing like I expected. As part of a series, I was happy to realize that I didn't need to have read the previous instalments to know what's going on. Honestly, it felt like an entire new story that even though it was set in a motorcycle club, it was easy as a standalone. These characters are broken, so damaged from their past that trust doesn't happen easily for them, and yet, when it came to one another, it just seemed as though the big things disappeared. They could laugh, live, forget and even hope for something they never thought they could: to be loved in return. Fallon was a conundrum. As the daughter of a man responsible for an underground illegal fight club, i didn't expect her to be so shy or as brusque as she was when she's laid a compliment. The reason for her limp was a secret for quite some time, but I did enjoy the fact that it was a mystery for as long as it was so that you could get to know the woman before feeling bad that rolls treated her horribly after what happened. When it came to Diablo, he was more of a straightforward man ~ either he liked you or he didn't, but there wasn't really any middle ground.

While the way that the story was developed allowed you to get to know these two characters, my mind did manage to wander every so often on who the other characters were ~ those that are part of the MC, and I did wonder what their story is and whether they found their very own HEA or at least their HEAFN. While I liked the premise of the story and the development of it as well, I had a bit more troubles connecting with these two characters, and that could be because I wasn't aware of what the previous life stories was about, but that doesn't go to say that I didn't like this book, because I did. I'd be curious to read more from Chiah Wilder in the future and see if each book in her series can be read as a standalone.

Rose says

This is definitely my favorite Night Rebels book so far! I loved Diablo and Fallon. It was a great story with some really interesting twists and turns along the way. Looking forward to Goldie's story!!!

Mel Allen says

Received an ARC for an honest review. What do you do when you've grow up being told you unholy and stupid, Fallen has had a rough life never being treated right made to feel like nothing until her eyes spot him at the warehouse.

Diablo is in the Night Rebels MC and doesn't chase women he has his pick of them but when his eyes connect with the beautiful Fallen he can't get her out of his head. When they both start to talk and have a date they find out they have a lot in common but with things heating up with a rival MC and things coming out about Fallon's family can they put themselves first, when Fallen realizes Diablo is it for her she joes he feels the same, when things come to a head can these two show how strong they are or will things get out of control. Diablo and Fallen is an emotional story would recommend this book to everyone who loves Mc alpha strong me when love there women, and strong women who can hold there own in there mans world. Chiah Wilder has written another amazing book in the Night Rebels MC Series.

Sarah Armstrong says

4.5 stars

First book by this author & I'll definitely be checking out earlier books in this series. I loved the dynamic between Fallon & diablo. Great writing.

Tpagirl says

Diablo was the third book in the Night Rebels MC series by Chiah Wilder.

Diablo was the Sergeant at Arms for the Night Rebels MC and part time bouncer for the local underground fighting circuit.

Fallon was the twenty one year old daughter of the head of the underground fighting circuit in Colorado. She had a pronounced limp so those around her, including her father and step mother, treated her poorly.

Diablo met Fallon at the fights. They were drawn together before words were ever spoken. The relationship developed with a foundation of friendship and was a sweet development. It progressed as a journey of healing from brokenness with both learning to trust each other while overcoming the present obstacles.

It was told in a dual POV. Wilder was detailed with Diablo and Fallon's thoughts, the nuances of the fighting circuit, and how their past affected their present and future. It provided insight and depth as the storyline progressed.

Additionally, the MC had a secondary story that has been the consistent thread throughout the series. As expected, the same theme will continue in the next book.

All in all, it was a fast and enjoyable read with a few twists to make it interesting. Goldie is next up with several brothers still to explore to keep the series going.

Joelle says

Another great read in this series. This time around it's where opposites attract. Fallon is kind shy and meek type and Diablo is the bada** biker covered in muscles and tattoos. But, Diablo sees something in Fallon that he needs and wants more than just bedding her.

Fallon had to be my favorite character in this story. We saw Fallon grow throughout the book. Like a butterfly spreading their wings. By meeting Diabalo and forming an unusual friendship that turned into so much more. We saw a broken girl gain confidence and independence who desperately needs some sort of happiness in her tragic life. Through it all and the horrors and pain Fallon lived through I loved that she still remained

innocent in a lot of ways. I found her to be kind, caring, witty and just an all-around sweetheart.

Diablo sees something in Fallon that she doesn't see herself that he wants and needs. Diablo at this time in his life is looking for something more. As the story progressed we saw why he was so attracted to Fallon and she to him. This couple's attraction was fierce and once they acted on it was flames to a fire smoking hot!

Fallon really surprised me most throughout the story because honestly I never thought she would be able to handle a guy like Diablo or his lifestyle but she surprised me again with her strength and determination. Fallon is meek no more and is not going to be ruled by any man from here on end.

An unusual love story that was about healing and growth, love, and finding a slice of happiness all the while when someone is trying to take that all away now that you found it. The plot had twists and turns, secrets coming to life and an unsolved murder that is unresolved. Know more.

I really loved it from beginning to end. I loved the two main characters; they were easy to connect with and I loved them from the onset. This story kept you interested with the unusual love story and all this misdeeds happening in the background, never knowing what was going to happen next.

Another keeper!

Recommend read to all and the series itself.

5 stars from us

Ana Rita says

It only took me a sec to be insane lol, in a good way of course, because if you had read any of my reviews you know that I love a good MC book. I just love it so much that you can guess the way I was when I got a glimpse into this one...

I've never read any book from this author but with this premier I know that I'm addicted.

Chiah Wilder as a dark, intense and hot writing that can make you blush or shake with fear with a flick of a page.

Diablo is the third book from the Night Rebels MC and dayum... What a book.

I haven't read the first two books but I will grab them as soon as I can because I want to know all the characters. So my advice to you is to read the books in order to fully understand everything.

This book explores Diablo and Fallon's story.

Diablo is the Sergeant-At-Arms of the Night Rebels MC. He's a very grumpy and scary man that doesn't show what goes on in that mind of his. His life revolves around the Club, his Harley and some pretty good whisky. He doesn't have time for women nor does he want them. He simply doesn't trust them so he refuses to have or pay any attention to them.

That is until the day he sees her...

Fallon is a sad and neglected girl. Since the day her mom up and left she was left with her dad and her life hasn't been easy, on the contrary. Her dad is a prick, a bad man that is involved in some illegal fighting. That could be simple for her but her father demands her presence in every fight. She doesn't trust men or women. She just wants to be left alone.

When she sees Diablo for the first time she can't forget him. She just can't.

But what will happen to these broken guys? Can they forget? Can they stay together?

Well you know me enough to figure out that I don't spoil so if you want to know more, grab this series and

dig in...

After this book I can say that I'm even more addicted to MC books, that can seem impossible but it's the truth.

The plot is amazing and the interaction between the characters is intense.

I haven't read the first two books from this series but I really need to. I loved this one so freaking much.

This book transport us to a world full of betrayal, crime, punishment as well of love, loyalty, family and second chances.

There were parts of the book that I was angry, mad, sad, but there were others that I was happy in love, and hot as hell. Jeez the hot scenes are so good.

Chiah Wilder I'm new into your book world but I can assure you that I'll follow your career really closely.

The best way to describe this book is with a quote from the story:

"In the midst of the darkness, brightness can come when it's least expected."

I voluntarily reviewed an Advance Reader Copy of this book.

ErMoS Wiler says

♥??♥?♥?Loved It !!! ♥?♥?♥?

I love how diablo was with Fallon

I enjoyed it more because there wasn't No Cheating

I'm Happy they got there HEA

I would recommend you read book 1,2,3 you'll love ♥? them !?

i can't wait for Book 4 ♥?♥? ♥? ♥? ? ? ? ? ? ? ? ?

Chiah Wilder you did a Great JoB Again! ???
