*Sparrow Beckett*

**Fueling His Hunger** Sparrow Beckett

**The author of *Stealing His Thunder*, Sparrow Beckett puts the pedal to the metal in their second Masters of Adrenaline novel.**

Never one to back down from a dare, Luke Larson crashes an upscale house party to steal a car. Narrowly avoiding capture by security, Luke speeds off—only to discover he’s accidentally kidnapped a hot billionaire passed out drunk in the back seat.

Having inherited a fortune upon her father’s death, Ophelia Covington’s life is spinning out of control. Of all the possible consequences of partying, she never thought kidnapping was likely. When she learns her tough and sexy abductor didn’t mean to take her at all, she’s strangely disappointed.

Ophelia’s irresistible curves and submissive nature fuels Luke’s hunger. But when old rivals target his crew, will Ophelia become collateral damage?

**Includes a preview of the third Masters of Adrenaline novel.**

## Tequila says

I felt like I needed a VERY cold shower after reading this book. Especially after the last scene that took place in the book. I should know by now to NOT read anything Sparrow Beckett writes while in public because, I do end up getting hot and bothered. Yes. There are lots of amazing and hot and steamy sex scenes in this book. But that totally isn't all.

There's a great story with even better characters that are so awesomely relatable you can't help but get attached to and fall in love with them yourselves. And there's stealing cars, some action that will keep you on the edge of your seat and a pretty awesome road side alien museum. This book is just as amazing as I knew it would be. Sparrow Beckett has yet to disappoint me. They love what they write and it shows in their work. The only thing that does suck, is I have to wait for the last book in this series.

## Alina says

There's only one way to describe this book: intense. Intense and smoking hot. Damn. You'd need to fan yourself a couple of times. I just loved it.

Luke is cheeky, fun, hot, playful and dominant. Alpha in every way. He knows how to push her buttons, to drive her wild with need. He falls for her quick. What I most admired about him was his respect. He

respected her, her beliefs, his family, his "jobs", even his enemies. He might be a badass, but he's a respectful one. How cool, huh?

Ophelia goes from insecure to a CEO and damn, that was so amazing. I loved it. I kept reading about young male billionaires, but a hot young female one is just...bloody perfect. Although we do not get a lot of it, it was clear she can lead a business. Luke had a big part in it, though.

I still find odd that stealing cars was what he enjoyed doing. It's a pretty odd job to love, isn't it? Oh, well. Anyway, this book takes BDSM to another level. It's playful and fun.

First, a shout out to my Holiday Hottie Secret Santa. Thank you so very much for the gift of this read!

Now, hot damn that was a sexy read! Luke was sort of a goofball in the first book, but this book had him skyrocketing into my book boyfriend stratosphere. I LOVED him. He was the perfect combination of dominant and gentleman. I seriously swooned hard through the entire book, and I swear, every time he spoke I fell harder. Oh that filthy, sweet mouth ?.

Ophelia was a sweet heroine, and even though she started out a bit green, she quickly grew on me. Her growth through the book was reasonably paced and made her relatable.

This was pretty low angst... Far more feel good material and hot scenes than drama.

---

### **Cally says**

We meet Luke Larson who's a man who has never turns down a dare so when his latest dare is to gatecrash a house party and steal a car but this isn't just any normal house party. This is a upscale house party where they are more than likely to be drinking from champagne flutes rather than cheap plastic cups he sets upon on completing the dare.

Luke manages to complete the dare and steal a car but Luke gets the shock of his life when he finds billionaire Ophelia Covington. She is passed out in the back seat of the car that Luke choose to steal.

Since the death of her dad and inheriting her late dad's money Ophelia's life has been spiralling out of control along. When she realises what has happened and that she wasn't part of the plan she feels a little dissapointed.

Will Luke be able to control himself once he spots Ophelia's curves and not to mention her natural submissive nature? And what happens when his crews rival gang come onto the scene.

I read and reviewed this book and behalf of Once upon an Alpha

## **Guilty Pleasures Book Reviews says**

Leigh's review posted at Guilty Pleasures Book Reviews

So far, this has been my favorite out of both the Masters Unleashed and the spinoff Masters of Adrenaline series. It was sweet, sexy and an entertaining read.

Despite my liking of this story however, I had to suspend reality for a bit. I'm not sure why, but the storyline of a party girl that decides she's going to fill her father's shoes and become the CEO of his company frustrates me. Because running a company is just one of those things that you can step into at the top, and as long as you're wearing a business suit and have your hair pulled back professionally, you're qualified to do so. And as a car thief, having a high profile lover won't draw attention to you at all...

So, as I said, I had to put that frustration on the back burner and just appreciate the story for what it was: totally hot sex and an enjoyable departure from reality. And based on that criteria, this one was a hit for me.

Luke was sweet. He was tough looking on the outside, but a ball of mush on the inside. I enjoyed seeing him fall in love, and watching this fierce looking tender guy out of his element. Ophelia was also a likeable character, reeling from her father's death and trying to find her place in the world and struggling between her desire to please her mother or further her father's legacy.

The romance was quick, the sex was scorching and seeing Fox and Addison again was a treat. I'm definitely looking forward to the third in this series.

#### **Cold Shower Please**

Holy mother of god....I need at least a dozen cold showers. And some other things too. Don't read this book if your partner isn't near by, unless you're a masochist. So hot and steamy and amazing and damn so good.

---

### **Lisa says**

Somehow the team of Sparrow Beckett creates an engaging read filled with panty melting sex, falling in love and humor. The building friendship and relationship between Luke and Ophelia is addictive!

---

### **Lily says**

**4.5 stars!**

***"Dirty."***

***"I blame you."***

***"Oh, you were like this when I found you."***

I love when books immediately suck me in. Sometimes it can take a minute to really get into the story, but *Fueling His Hunger* got off to such a great start that I knew right way it would be an enjoyable read. The opening scenes were hilarious and engaging, and in no time at all I was buckled in and excited to drive through the story. See what I did there with the car reference? ... no? Not funny? Okay, moving on...

This is the second book in the *Masters Of Adrenaline* series, featuring three car-stealing, adrenaline-chasing cousins, who indulge in a little kink when they're not busy pulling off their latest grand theft auto. I absolutely loved the first book and the sequel was equally fun and sexy.

***She laughed, and the lovely sound of it filled parts of him he hadn't realized were empty.  
Shit. He was a goner.***

Luke Larson enjoys nothing more than a good challenge. On his way home from his cousin's bachelor party, he is issued a dare by one of his drunken friends as they drive through an upscale neighborhood to steal a fancy car from the area. Despite the place being heavily guarded and more high-risk than they're used to on jobs, Luke refuses to back down from the challenge. He manages to pull it off without a hitch. There's only one little problem: the car he selects just so happens to have a sleeping occupant in the backseat. And she's about to turn his world upside down.

It's been a tough few months for Ophelia Covington. After losing her father suddenly, she finds herself as the sole benefactor of his fortune and company and all the pressures that come along with it. When she has too much to drink at a party one night and steps out for some air, she ends up falling asleep in her car and waking up in a strange room with a sexy, tattooed man. After getting over the shock and embarrassment of the situation, Ophelia let's it slip that she's taking a trip to the mountains in order to escape from her life for a bit. She's beyond surprised when this guy she just met offers to accompany her. And even more surprised when she accepts the offer.

***"Did I tell you to get in the water?"***

***She smothered a laugh. "I didn't realize this was going to turn into a game of Luke Says."***

***"Oh, but it is. Luke says stand there so I can look at you."***

From page one I was completely enamored with both main characters. And like I mentioned before, it wasn't hard to get engaged in the story. Luke's first scene with his crazy friends already had me laughing out loud. And his and Ophelia's first meeting was absolutely hysterical! I loved it. She's drunk as hell and thinks he kidnapped her. And he just wanted to show off to his friends and ends up consoling a drunk, emotional girl.

***"Where should I take you?"***

***"Does it matter?" she said quietly. "If you dump my body on the side of the highway no one will care."***

***"Come on, now. Friends? Family? There are people who care about you."***

***“How do you know that? You don’t even know who I am.”***

***“People would care,” he said stubbornly, feeling like he’d suddenly turned into a suicide hotline counselor. “I’d care even if we’d never met.”***

***“You’re nice for a kidnapper.”***

I was instantly charmed. Luke is such an amazing guy. Like really, really wonderful, and not just because he's funny or sexy or any of the more superficial traits we all love in a hero. I mean, he *is* those things. But he's also just so... *decent*. Really honorable and honest. There were many moments that had me thinking "Wow, this is a really great guy." Even small gestures he made added to that impression. Like when he was curious about how Ophelia's dad died and he figured he could probably find out with a quick google search, but he didn't want to invade her privacy. Instead he waited until she was ready to tell him herself. And this exchange when they first met:

***“I’m big on consent,” he went on, rubbing a hand over the stubble on his jaw. “Drunk means no.”***

***She flushed, her cheeks going bright pink. “I’m not usually a sloppy drunk, but I was feeling a little off last night. Thank you for being a gentleman.”***

***“Don’t thank me,” he said, uncomfortable. “No woman should have to feel thankful a man didn’t victimize her.”***

Yes! Just YES. Ophelia was really great too. She was a rare combination of spunky and shy. She would be flirty and sassy with Luke one second and then start blushing the next. It was kind of adorable. And I loved them so much together! Their relationship was such a fun and sexy whirlwind adventure. They were barely through with introductions when they decided to go on a spontaneous road trip together. It was completely crazy but that's what made it so great! They were instantly so comfortable with each other, flirting and being playful and just generally at ease in the other's company. And it didn't take long for things to start heating up between them. But it didn't feel like the typical insta-love. It felt like they just had an instant connection and they gave each other the confidence to be themselves.

Particularly in Ophelia's case, of course. She had occasionally fantasized about the kinkier side of sex but had never met anyone she felt comfortable enough to explore that with. I thought the whole approach to this subject was done really well. They were completely open and honest with each other right up front. They talked about their likes and dislikes and discussed things they wanted to try. As a beginner, Ophelia really needed someone who would make her feel safe and comfortable and Luke absolutely did that. Although she's the "submissive" in the relationship, he made sure to let her know everything was actually on her terms and he would stop at any time if she told him to.

***“Lovely Ophelia, you blow my fucking mind.”***

***There was no polite lie in his voice. He sounded amazed. By her.***

The end is the only reasons I dropped half a star. This would've been an easy 5 stars if I were only rating it based on the road trip scenes. But once they got back from their trip, everything felt all over the place. It was still good, but the plot became a bit choppy and some things felt rushed while others felt glossed over. Also, I didn't care for Ophelia's attitude regarding a situation at the end. And too bad, because I really liked her character the rest of the time.

All in all, this was a funny, entertaining, extremely sexy book with a hint of action/suspense. It's got a little bit of everything and I had such a fun time reading it! The writing is so good and the dialogue is witty and original. The side characters are wonderful. It was so nice seeing Fox and Addison again and I can't wait to read Atlas's book. I just love this series and this writing duo and I will most definitely be reading more of their work in the future.

### **Catelin Wilde says**

Another amazing addition to the series! Luke is so swoon worthy and the perfect alpha book boyfriend!

---

### **Krissys says**

Never one to back down from a dare, Luke Larson crashes an upscale house party to steal a car. Narrowly avoiding capture by security, Luke speeds off—only to discover he's accidentally kidnapped a hot billionaire passed out drunk in the back seat.

Having inherited a fortune upon her father's death, Ophelia Covington's life is spinning out of control. Of all the possible consequences of partying, she never thought kidnapping was likely. When she learns her tough and sexy abductor didn't mean to take her at all, she's strangely disappointed.

Ophelia's irresistible curves and submissive nature fuels Luke's hunger. But when old rivals target his crew, will Ophelia become collateral damage?

Fueling his Hunger was good... a little odd in some places and I didn't quite understand the characters because their purpose and the reasons behind what they were doing didn't really mesh with the story or their reasons for doing them in the first place. I thought it was odd that this book is supposed to be BDSM divine but a guy who simply takes control while part taking in some light dominance does not equate to BDSM.

That being said Luke and Ophelia are good together although a little immature still manage to tweak a little bit of the sexy for readers, I kinda wish we as readers had gotten more strength and more vindication out of them and their actions that included their back stories. I would have enjoyed more page time with their back stories and future actions. Still worth the read still enjoyable and still fun.

## **Judy says**

Our story begins with Priya, Chloe and Ophelia getting ready to go to a party. Parties, and the best of everything used to mean something to Ophelia until her father recently died. Now her whole life has changed because her father owned a company that now she's expected to run, of which she knows nothing about. She goes to this house party, drinks a good amount and decides she's going outside to get in her SUV and falls asleep. Who knew a nap could change your life!

Luke (with his tattoos and nipple piercings) steals cars for a living. On a dare, he steals a Mercedes G500 (which apparently is a SUV) and thinks he's won the bet until he hears someone in the back seat! What in the

world did he just steal, is there a child inside, an adult? Boy, did he get more than he bargained for!

I loved this book! It was hot, sexy, funny and did I mention HOT?! Loved the story line, it was very different. It was very heart warming that even though Luke was a bad a##, he still was very kind and considerate...in addition to kinky (the best of both worlds)!!

### **1-Click Addict Support Group says**

I've gotta warn you that you will need a set of extra panties and a jug of something cool because this book will have you hot & bothered, like it did me!!

Luke & Ophelia are from totally different worlds but despite the fact that it is an "accident" that they are in each other's worlds, the pull between them is very strong. Luke, badass that he is, really tries to fight it because he knows he doesn't belong with someone like Ophelia.

As things heat up between Ophelia and Luke, he opens her up to a sexually adventurous lifestyle that she'd never known before. Once she gets a taste of it she becomes a different person. It was intriguing to see her reaction to Luke's hobby, but I also found it a bit exhilarating because of how it broadened her horizons. At first I thought Ophelia seemed a bit too trusting for this, but as I read I realized it was going to be a sensual new experience for me as well.

There's a bit of everything here but most of all the SEX!! It is deliciously HOT – so much so that it had me clenching my thighs and turning my air on to cool me down. It's a wild ride that Ophelia won't soon forget and neither will I. ~ Kara, 4.5 Hot Stars
