Lisa Miller says

Great way to start each day during Lent: a few words from Pope Francis, a brief reflection, and a very short prayer. It only took about 5 minutes out of my morning routine and it left me with such a positive feeling and a much deeper understanding of our new Pope's consistent message of love, hope, humility and mercy. Today I am happy to celebrate Easter, but I am also just a bit sad that this lovely little book is ending.
