I don't think this woman could ever disappoint me! What a great, true, sweet, loving short story. Laura had me at book 1 and there's nothing like being taken hook, line and sinker by a wonderful author and beautiful vampires.

Thank you for this free read! You are so good to us, in so many ways! <3

Great little free read on her website, to enhance my love of Alexander!

Awesome free read from Laura Wright, very hot! I loved revisiting Alexander and Sarah and can't wait for more from this fantastic series!

PepperP0t says

This extreme short is a few intimate scenes from Alexander and Sara's marriage. When Sara wants something Alex doesn't her anger gives him time to think it over very carefully. But she forgot he has gifts. The outing is about them and doesn't further the overall arc.

I've never read the series before but I wanted to have a taste of the author's writing style so I read this free read over at her website, and what a delicious read it was! Now I've considered reading the first book in "The mark of the Vampire" series.

*PS. Balas is really a weird word for child xD

"Mates: True and Eternal" by Laura Wright. A short story (book 2.6) in the Mark of the Vampire series.

Amanda says

Such a great author...she never disappoints me. I have loved her since Book 1 in the Mark of the Vampire series...

I like this one only cos it's a brief visit we get from the couple I love. The beginning was hilarious to me. I could so see Alexander ticked off in the state that Sara left him in.

But from middle to end, I just was not feeling it. It didn't feel like Alex and Sara to me.

I absolutely LOVE when an author gives mini views into our characters lives after the fact. I feel connected to them, as if they're family. Thank you, Laura, again.

Loved it! Love the series. Can't wait until the next book comes out in August. Go read this short story on Laura's website. It's free and it's freakin' sizzling hot!!!

Wendy *Sebella Blue* Mitchell says

A short, sexy read that starts with Alex Roman being left chained to a wall by his true mate Sara. In what started out as an erotic tryst, Sara storms out leaving Alex hanging...literally. Alex is refusing to even consider the possibility of having children because of his miserable childhood.

Well, writer lady has done it again. This is just a truly wonderful slice of life in the continuing story of the Roman brothers from the Mark of the Vampire series. Liked it, dated it, loved it, became engaged, wedding is set for next spring. Laura is just amazing.
