Sundown K.C. Kendricks

When a pragmatic cop meets an irresistible shapeshifter, there's bound to be trouble. *Amber Heat Wave Winner* KC Kendricks delivers two tales of otherworldly attraction with a new slant on a popular urban legend brimming with action, humor, and lots of romance.

Previously available only in electronic format, these stories of Gay Erotic Romance have now been combined for a paperback edition! Included are the tales...

The Back Stairs

Fallon Roxbury has a nose for trouble, and the uncanny ability for landing in the middle of it the moment he finds it. While investigating the gruesome murder of a young male prostitute in the red-light district, Fallon gets a whiff of something strange. Forensics has unidentified hairs. Very unidentified hairs, like nothing in any of the textbooks. Following a tip from a person of interest, Fallon meets Sundown, an apparent hustler who apparently knows a lot more than he will admit.

Getting personally involved with Sundown breaks every rule in the police manual, and in Fallon's own personal code. But Sundown is like a drug, and Fallon can't stop at taking only one hit. Yet when Sundown is forced to reveal the truth about the murder, Fallon's world is turned upside down, and he's left with only two options—check himself in for psychiatric evaluation, or accept a new reality with a strange shift.

Shapeshifters, that is...

Beneath Dark Stars

Fallon Roxbury, seasoned detective and special police consultant, knows that appearances can be deceiving. Trained to gather the clues and arrive at logical conclusions, he fits the puzzle pieces of a situation together to find the truth. But there's nothing reasonable in Fallon's attraction to the sexy, secretive shapeshifter called Sundown.

Sundown has studied people all his life. Having his very own human male is all he ever wanted. In Fallon, he's found a man he can trust with his secrets and reveal his true nature. Keeping Fallon happy is a joyful exercise into which Sundown puts his heart and soul—when he's not teasing Fallon's police partner by leaving strange footprints at crime scenes, that is.

Fallon's new case ties into an old one. At a dead end, he knows it's time to ask Sundown for a little help. With his special abilities, Sundown can get into places Fallon can't. All Fallon has to do is figure out a way to prove what he already knows. But what's a cop to do when the truth takes a shift that's stranger than fiction?
