SO beautiful. There are so many skilled manga artists out there, but Kaori Yuki always stands out. This was the first artbook I bought and I find myself fascinated by the beauty of her work again and again.

**The Art of Angel Sanctuary** is a lovely collection which shows all the different facets of the original series - artworks depicting the characters' comical sides, beautiful but also grotesque illustrations that mirror the twisted side of the story. Kaori Yuki has a very distinct style that, while not always exactly what I would consider my ideal cup of tea, stuns with its intricate details and originality.

In addition to the coloured illustrations, there are also several of the black and white chapter covers. But not only does this artbook feature **Angel Sanctuary** illustrations, but also has some pages dedicated to illustrations from other works such as **Neji**, **Sareki Oukoku** and **The Cain Saga** - the latter which sadly I have never read.

This is a gorgeous artbook and a great treat to any who enjoy either her art or stories!

I wish I could use pastels half as good as Kaori Yuki -I love the picture of Setsuna wearing the suit with his wings sticking out looking all sad!
