I'm not sure if this is the one I read or not...but I read one of the omnibus books with 3 novels in it.

Lynne Tull says

The continuing adventures of James Qwilleran and his two Siamese cats, Koko and Yum Yum. Love this mystery series!...for anyone liking cats and a Horatio Alger story. This is my fourth time through the series. It is a fast read and pure escapism, but it will make you smile. I am now on my 5th reading of these stories! What I have learned about Ms. Braun...she likes to make the villain a sympathetic character and then turn them into the villain. I can't believe I overlooked this through the first four readings of these books, but I did. I am not sure I like this; however, this is a murder mystery and the reader does have to have a guilty party! I still love Qwill, Koko, and Yum Yum. Also, will still let you know when you need to stop reading this series, because Ms. Braun decides to end the series in a not too pleasant way for the reader of 'soft' mysteries!
