Dr Rashmit Mishra says

The Wonder Woman storyline in rebirth has still had me on the edge , while there's obvious potential to where this story is headed and how impactful it might become the fact that until this point nothing major has happened and the story still keeps going around in circle as Diana tries to find her way back home . This issue similar to previous ones still hasn't revealed anything about the main plot going on here instead we had the Diana interaction with Cheetah which was riddled with awkward exchanges between the two that sometime left me more than a bit confused .

The only saving graces for the series so far has been the art Liam Sharp & Paulo Siquera (hopefully i spelled it correctly) keep the art at it's peak and just like when the series started the art just is breathtaking and almost feel to be jumping to life . Here's hoping future issues sees Greg Rucka bring his A game to the table matching the brilliance of Liam Sharp and Paulo's art

Andrew says

Greg Rucka -gets- Wonder Woman, and he continues to show it. Every single moment of hers is just beautifully written, and I love her equal strength and kindness. Meanwhile, Sharp continues to deliver completely stunning art--perhaps the biggest standout of the whole Rebirth line so far, in the way that Capullo was for N52.

My only complaint is that this storyline only comes out once a month, and considering the Year One story is equally as amazing, a part of me wishes both could be twice-monthly, though I understand the art would probably suffer, so I'm glad that's not the case.

When its 'The lies' story arc, like this issue is, its very good!

Brandon St Mark says

A much better issue than the past couple have been.

Diana makes a promise to a friend and Steve walks into a trap.

Laura says

Oh, this one I adored!!!

I am really intrigued about this take on Barbara Ann Minerva. I liked the whole aspect of it and her curse, I think it's going to go down to Diana betraying her somehow and I'm loving it.

En este volumen ~~aún no sé como se llama en realidad~~ vemos a una ww más humana. Al ver su amiga ~~eréo que es su amiga, al menos eso he deducido~~ que quiere hacer algo que en realidad no quiere pero una fuerza mayor la obliga. Ww ayuda a su amiga y no la deja de lado, vemos como lucha con ella porque quiere ayudarla y porque le importa. Me ha gustado mucho ver esa parte más humana de ww. Lo digo porque normalmente a los superhéroes se les ve muy perfectos y no parecen humanas, y cuando sacan su parte más humana y emocional ves que son reales.

Si no tengo mal entendido ~~si sois expertos en cómics ayudadme que solo soy una principiante perdida ante este gran mucho de cómics~~ se explica el pasado y el futuro, para que luego se unan y todo tenga sentido. Esta es mi teoría y por ahora no va mal la cosa. Espero que todo tenga sentido al final porque hay cosas sueltas que me sorprenden, ~~que no comentaré para no hacer spoiler~~, que espero que nos expliquen más adelante.

Por cierto, no tengo mucha idea de si el dibujo es bueno o no, porque como ya he dicho antes soy principiante en esto de los cómics, pero creo que es bastante bueno y muy realistas. Algunas escenas me ha sorprendido de los bien dibujadas que están con un montón de detalles.

En este tomo volvemos a la zona temporal del primero, la parte "actual" frente al pasado y inicios de ww que se nos presentaba en el segundo tomo y que deduzco se irá salteando con este (cosa que me gusta).

Me ha gustado bastante este contacto con ww, creo que vemos un poco mejor como es ella, así como la aparición de un nuevo personaje, una amiga de diana que ha sido convertida en una especie de tigre(?) por medio de una maldición, por lo que aprovecha la necesidad de ayuda de ww para pedirle que le ayude a ella también a volver a ser quién era. Me he quedado con ganas de saber más sobre ella, cosa que espero que pase en el quinto tomo y me gustaría conocer la historia y el cómo ha llegado a convertirse en lo que es ahora.

Cheetah AKA Barbara . I love this it demonstrated the friend and enemy connection of this characters and , in my point of view the story is well written and the illustrations are amazing just that in some part of the dialogues lack of information or details.

John says

I am loving the fantasy feel of these books.

Olivia says

Some of the stripes storylines were a little confusing in this one. I hope they explain it in the next instalment.

Emily Dones says

I don't quite like this series. It's a bit all over the place. so I'm going to read the new 52 which is the one that inspired the movie that I loved. Because this is just confusing the hell out of me. I may return to it in the future when my I know more about Wonder Woman than I do now.

Mia says

I enjoyed the story where it deals with relationship of Wonder Woman and Cheetah, the history between them and the potential of their future are really interesting and I want to read more about them from this. I didn't enjoy the parts with Steve Trevor, I guess I just don't want him in the book, he's taking space away from Diana and Barbara-Ann

Brendan says

Great art and a sympathetic tone, this Wonder Woman series has grown on me. I'm interested in the two coin storytelling model they have adapted with Diana. The character never really interested me but I'm into this in a big way. Cheetah is a flawed soul and Diana grows as a character here in such a big way.

Bambi Hyde says

The story is moving along and I'm liking it. I liked that it had a lot of Cheetah in it because I didn't know much about her. I'm excited to see where this goes. I also like that Steve Trevor is in this too and his part of the story is pretty interesting. Can't wait until their paths cross. Mostly I want to see what their going do with Wonder Woman's timeline and backstory. Like I have so many questions. So many.
