## **City of Shame** A.B. Whelan

In the next installment of the Field of Elysium series, Molly must face new challenges without Victor by her side. She meets new friends and foes as she embarks on a dangerous journey inside enemy territory. Told from the dual perspective of Molly and Victor, the story will take you on a breathtaking ride.

### **PART ONE**

When life gives you no choice other than to be strong or perish, you soon learn who you really are.

Since discovering the wormhole that connects Earth to Arkana, Molly Bennett faced joy and pain, love and death, excitement and danger unlike anybody else she knew. But her biggest challenge is about to begin. She is inside the force field, lost in Terraka City with people she doesn't know. Life is more dangerous under Taronno's tyranny than she and her Arkanian friends anticipated. Time is running out, and she must figure out whom to trust, how to stay safe, and how to get back to her beloved Victor.

Victor Sorren's life changed the moment Molly showed up on Arkana. His love for her came easy, but admitting it to her took every bit of courage he had. Obstacles always threatened to tear them apart, but together they overcame all of them. Now, Molly is gone, and Victor doesn't know how to deal with his worry and loneliness. Going after her would mean certain death, but this is the price he is willing to pay to see her again.

The race against time has begun. Will Molly be able to find her way back to Victor before it's too late?

### **PART TWO**

We do anything for the ones we love...

Since Molly Elizabeth Bennett has been living in exile bereft of all memory of her past, she only knows the world to be an unfair and brutal place. Inside Terraka City, where control, violence, and humiliation keep people in abject fear, her faith in humanity has faltered. But just like the forest after a fire, she also rises from the ashes.

Meanwhile, Victor Sorren embarks on a hazardous rescue mission with Little Pete and Annabella to find his beloved Molly, unaware that she doesn't remember him. For a mixed-blood Motley Terraka City, where only purebred species have the right to live, is a dangerous place to be. Yet the three friends follow Molly's footsteps even though they jeopardize their own lives with each step.

Four friends. Scattered in four different places. All of their lives in peril. The Imperial Guards are hunting them. The Emperor is wanting them dead. They just want to find each other and leave this city of shame. But with the stakes so high, wishful thinking may not be enough to save them.

Will they all be strong enough to survive this deadly mission into Terraka territory?

A.B. Whelan's third book of the romantic fantasy Fields of Elysium series is another highly imaginative tale, a fast-paced story about the power of love and human nature.
