This is the first book I've read by this author and I thought it was good. Juniper's mom has arranged her mating but Juniper's having none of that. Before taking off on her own, Juniper agrees to go on a date she had the Paranormal Dating Agency set up for her. She meets Noah and Shane. They have instant attraction and some sizzling chemistry. Could they possibly be each other's mates? There's some steamy action and a twist in this story that kept my attention. I'm looking forward to reading more by this author.

I voluntarily reviewed an Advance Reader Copy of this book. This is my honest review.

Claimed by her Tigers by Ever Coming

Juniper's mother had always impressed upon her that she needed a mate and her mother wasn't above pushing her agenda on her daughter. It was always stay within the hyena cackle's and never go outside your shift. The thing is Juniper saw no problem with staying single and if she wanted a mate it would be who she loved and not who was chosen for her. Defying her mother wasn't why she set up a date with the Paranormal Dating agency or maybe it was a last-ditch effort to prove her mother wrong. Juniper was all about choosing her own path. Now fleeing from her mother's arrangements and her own feelings Juniper was going to have to come to some decisions and soon. When two handsome tiger shifters are placed into her path the story explodes into so much excited action and shall I say heat you won't want to stop reading. I loved it.

Kaz says

Well the author certainly doesn't pull her punches. A very sexy, and what seems to be, a highly realistic back plot. It is easy to imagine how parents try to interfere in their children's lives and the children rebelling. But who is right in the end?

From start to finish the author holds you in her grip inserting a little drama, with a great twist, and quite a bit of raunchiness to keep you from putting the book down.

The characters were well thought out and evolved just as you come to expect with the shifter genre. It was fantastic to see that the author didn't shy away from involving all of the ménage; rather than avoiding the MM interaction which many authors do.

A brilliant read which left me wanting to read more by Ever.

I voluntarily read an ARC of this book.

ARC - I voluntarily offered to review this book with no obligations and my opinions are honest!

I always love reading the books in the PDA universe.
This addition did not disappoint.
Juniper was ready to give Gerri a try.
At the last minute, her mother gives her the bad news so Juniper decided to skip town.
One little problem, her dates are waiting by her front door.
What is Juniper to do?
Go on a date w/ these 2 hot alphas of course! Duh!
How lucky for Juniper that Shane + Noah are her mates?
I love the banter between the three of them.
A lot of humor, sassiness, and hotness
Loved the storytelling + the characters!

Crystal says

Juniper is supposed to have a blind date but gets a call from her mother and plans on canceling. Little does she know her dates are already waiting on her. You don't cancel when you go through the Paranormal Dating Agency. Shane and Noah have been together for years waiting on their other to join them. Tired of waiting on fate they decide to try the PDA and get set up on a date with Juniper.
Meddling mothers mean well, but sometimes they just need to not be so pushy!! But if it wasn't for them life could be boring. Loved this book and the characters. Juniper and Shane are so funny and Noah seems to take it all in stride.

Two Crazy Ladies Love Romance says

Juniper Hiti just called to cancel her blind date arranged by the Paranormal Dating Agency, but Gerri Wilder is not taking any of that, and even if she was it's a tad too late for that now. y calls to her Mother has other plans and told her she has a contract that has been signed. Juniper is angry and has two choices one is to do as her Mother wants or the other is to run.
But as she tries to tell the Agency to cancel her date, there is a knock on her door. And the men are not taking the hint, so what can a girl do, she figures it's just one night, what could go wrong.
She soon discovers that one night with her sexy tigers is not enough, but there are still a few things that need to be fixed. A cute fast story and the characters are totally lovable.

This was good but different with the MMF scenario

I guess I didn't think about what MMF meant. That is was as little different from what I was expecting. The other ménage ones I read weren't that way. It was good and I did enjoy the twists and turns in this story. Shane, Noah and Juniper are all great characters and watching them figure it out was cool. The steamy

scenes were not what I am used to but still good. I like how theory all seem to look out for each other. If this sounds good to you, then try it for yourself and see.

Tamara says

This was a great quick read filled with humor and sass. Juniper is a hyena shifter looking for the perfect mate. When her mother gets impatient and makes a marriage contract, Juniper calls on Gerri and the Paranormal Dating Agency. She jokes that she'll take two and Gerri delivers with the sexy Noah and Shane, tiger shifters who are after their third so they can finally mate. The dialogue between the three had me laughing and I could easily picture it all unfolding in my head. The chemistry between them all is explosive and as the drama unfolds you'll be hooked and won't expect the twist at the end.

Ana says

Juniper has been living far from her cackle, well far from her mother mostly, she is expected as all female Hyenas are to mate a hyena to have baby hyenas and although she's a grown woman, her mother is hell bent on selling her to a male of her choosing. Juniper only sees one solution to her problem, calling Gerri Wilde as an excuse to hold off her mother's plans, so she can make a hasty escape. What she wasn't counting on was running into the two sexiest cats she had ever seen while trying to get out of town before said cats showed up and her mother's mating intervention changed her life forever. She doesn't want to mate, but goddess these 2 tigers Noah and Shane really have her changing her mind... A Hyena and 2 Tigers, now that is a so hot combination never heard of, but this trio finds ways to make it work in their favor and manage to leave their parents in shock.

Never doubt the power of Gerri.

Claimed by the Tigers is a delightfully red hot quick read that gets the blood pumping. The characters are strong and compelling drawing readers in and refusing to let go while the romance is full of heat and

suspense ensuring that readers want to know the whole story and there is a couple of unexpected twists that surprise the characters as well as the readers. The story has some sizzling sex scenes that burn up the pages and have readers panting for more.

This is the first book that I have read by Ever Coming and I am pleased to say that it won't be the last as I found the story to blistering hot and charming, which quite a pleasing combination.

Beth Schafer says

Like the others in this world this book can be read as a standalone. When Juniper reaches out to the PDA she never knew she would be meeting her mates, yes plural but feels like she has to cancel to get out of the mess her mother has created when she takes matters into her own hands.

This fast-paced story will leave you laughing out loud. I liked the humor and the surprise twist at the end. This could have used another round of editing, but it wasn't too distracting.

I voluntarily read an ARC of this book and am giving my honest review.

Can hyenas and tigers mix?

Juniper is a plus size model and a hyena shifter. Her mother has been bugging her to get mated for years now. She gets a brilliant idea to call Gerri Wilder at PDA. She has a date scheduled but then tries to cancel. Her mother signed a contract to mate her with someone, but she doesn't know who. So she is going to run. But before she gets gone, her dates are at her door.

Shane and Noah are mates but are waiting for their third because Shane had a vision when he was younger. When Juniper stands them up at the restaurant they go to her apartment. They are both tiger shifters.

There is drama in the story caused by her mother involving the contract. This book is a very fast love at first sight kind of book. Not much of Gerri being involved but still an enjoyable read.

Emily Pennington says

Juniper's mother decided that Juniper needed to find her mate – and do it now. So she arranged things for her daughter without her input. The Paranormal Dating Agency was happy to oblige Juniper's request, and she was set up for a date with two tiger shifters, Noah and Parker. But now, she has to escape or be caught up in something she doesn't want. Unfortunately for her, Noah and Parker have other ideas!

This was an enjoyable and humorous story. I loved the characters – they were perfect together and very likable. I definitely recommend this fun book! I voluntarily read a review copy of this book and my comments reflect my honest opinion.

Pam Louis says

Juniper is a model and Hyena shifter. Her mother is determined to mate her off to the highest bidder. Determined to thwart her mother's plan she puts in an application with Gerri Wilder's paranormal dating agency only find out her mother's plan are a done deal. It's time to run only her dates are at her door. Noah and Shane are two tiger shifters who have been looking for their third and one look at juniper they know they have found her.

The story was spicy, fun and fast paste. I loved the characters if your into 3 some then this one should heat you up.

Little warning their is a little guy on guy stuff.

Voluntarily reviewed a copy and it's a spicy fun read.
