## Doing a Literature Review: Releasing the Research Imagination Christopher Hart

The ultimate guide to the "what," "how," and "why" of literature reviewing, the **Second Edition** of *the* classic text shows how the literature review will unlock the full potential of one's research with:

A thorough exploration of the literature review process from start to finish Two brand new chapters explaining the different types of review and evidence and evaluation Extended examples that show you how to apply key techniques and procedures A new "core skills" framework to help you turn your research experience into employability A critical thinking focus that will help you construct convincing arguments and improve your research decisions In combining a critical, philosophical approach with an expertly selected body of practical examples, the **Second Edition** of Chris Hart's landmark text provides both the intellectual understanding and the technical skills required to produce sophisticated, robust literature reviews of the very highest standard.

**SAGE Study Skills** are essential study guides for students of all levels. From how to write great essays and succeeding at university, to writing your undergraduate dissertation and doing postgraduate research, SAGE Study Skills help you get the best from your time at university. Visit the SAGE Study Skills hub for tips, resources and videos on study success!
