Dual Abduction Eve Langlais

They both wanted her. The question was, could they share her?

Abducted by alien slavers, along with her group of teenage misfits, Louisa doesn't think her week can get any stranger until two big purple warriors arrive to the rescue—and then fight over who gets to keep her. Not interested in a winner, she clobbers them, but when they regain consciousness, they're even more determined to claim her.

Best friends, Brax and Xarn, share everything; loot, jobs, trouble, until they come across a luscious human that stirs their possessive side. Their battle over who gets to keep her ends in a tie due to matching concussions, but what's a bruise or two when it comes to winning her as a mate. When she keeps denying them both, they put aside their rivalry to team up and claim the one they want.

I love this series! How can you not, right? Two gorgeous, purple, aliens who are funny, silly and deadly.
sigh

As always the characters all have their own quirks. I love Eve's characters because they are always just a little "off".

I'm not going to give any spoilers, but if you liked the first two books in the series, get this one. I have to admit I liked this one better than Intentional Abduction.

Can't wait for the next one.

wonderful, funny and very steamy. Who better to rescue a gal than two hot purple hunky aliens. this is a must read. this is such a wonderful series. So looking forward to the next book.

This story was abso-positive-lutely frukxing fantastic! Langlais' vivid, larger than life descriptions made it easy for me to travel the galaxy on this suspenseful, hotter than Hades journey with her loveable characters. The fast paced, action intensive plot held my attention, keeping me on the edge of my seat. Langlais also continues to develop her alien culture, highlighting family ties and interactions that were so very real. Everything combined for a phenomenal whole that I didn't dare put down.

Our introduction to Louisa is absolutely priceless. I mean, I can't deny that I wouldn't do the same thing in her situation, but I couldn't stifle my giggles. I also felt as if I had a good sense of who she was after her opening ordeal. Her indecision and confusion throughout, especially with respect to her men, made her easy to identify with, while also highlighting the interpersonal relationships in the tale. Langlais also develops Brax and Xarn in such a manner that I really got to know the inseparable duo, while also getting a peak at who they are as individuals. This complexity of characters really took the tale to an entirely new level for me.

Hot sex & a suspenseful plot: What more can a gal ask for? Except maybe this double dose of purple leading men.

meh. trying too hard to be funny. no meat to the story at all, well other than the obvious of course.

Coyora Dokusho says

I liked it! I was very amused and it's pleasant to read something not grinding my teeth in outrage.

Ah almost forgot, CONTINUITY ERRORS!!!! TYPOS!!!! Specifically renown instead of renowned, multiple times, multiple books >.<

Bueno, me gustó menos que el anterior, Louisa es un tanto insopportable y los chicos Xanx y Branx un duo de idiotas que realmente no lograron tener química los tres. Me quedé con ganas de un poco de acción por la búsqueda de las chicas huérfanas y luego el rescate de Louisa, no se, podrían haberse esmerado un poco más. En cuanto a lo demás, no me dio tanta gracia como con las protas anteriores :/

Rinny Rainwind says

This is book 3 in the alien adduction series. This is the story of two sword brothers who find a group of females who have been captured from earth. They are sent on a mission to rescue them but they do not know that they are females they think it's a treasure. They both fall for the same female and try to make her decide which one she wants of them. She decide she wants them both and we see what happens after that. This so far is the funniest book in the series I love this series.

Winter Bayne says

Re-read, just for the humor alone....priceless.

Vanessa theJeepDiva says

There are so many things that I absolutely loved about Dual Abduction. First of all I love the Eve. Her characters are always fun to read. Her books always have a great blend of humor and very sexy romance. I have enjoyed reading Xarn and Brax's antics from the moment they were introduced. Louisa did not disappoint in the least. She is witty and brave and exactly what the Dual Terrors (Dual Goofs) needed. Brax and Xarn and their reactions to the teen girls are quite amusing. The girls keep the guys on their toes.

Louisa a teacher and caregiver to a home for orphaned (delinquent hell spawned demons) teens. She is just a bit perplexed when she and her charges are abducted by aliens. Little does she know that the abductions don't stop there. Her girls are her number one priority. She has to get all of them back to Earth. There are just a few problems with going home; the biggest is the two purple hotties that are her rescuers. They seem to want to keep her and Louisa can't seem to find any problems with that, except shouldn't she choose just one of them.

Brax and Xarn try from the moment they meet Louisa to get her attention. They want her. It just takes them a while to figure out that neither one can have her. They must share. The guys seduction of Louisa is hot! They are willing to do anything to make her happy. They are willing to do anything to keep her. I loved reading this side of my favorite aliens from this series.

Readers are given tiny peeks into the lives of Tren and Megan, and Alyia and Jaro. I loved the little peeks into their lives since they found their happily ever after. Tren and Megan's baby is in need of a nanny, thus readers are given a peek of the next hero in Eve's incredible Alien Abduction series. As always when I finish a book from this series, I can't wait for the next on to come out!

Favorite quote, conversation between Brax and Louisa.

“You are not a whore.”

“Really? What do you call a woman who sleeps with two guys?”

“Ours.”

Ava says

It was a real Dual abduction/rescue non mission.

So calling those Dual Terror as idiot, it was quite suit. But those purples guys made the fun in this book.

So this series of book would remain kinda in the family tradition. One after another purple from the lineage will made lavender heir.

Ceri says

This is a short book with purple men. It was definately hot, hot book, but whenever the purple came up, I would pause. I guess that is alien love??

Kelly says

As is the norm with me when I read an Eve Langlais book, I found myself thoroughly enchanted by both the sassy heroine and her sometimes clueless (but always hunky) heroes. Louisa's desire to protect her underage charges and her willingness to throw herself headlong into battle against creatures that are straight out of a sci-fi movie made me grin. Brax and Xarn coming to blows over who's going to get to keep her was hilarious. And then there's the sex. Brax and Xarn know how to show a lady a good time -- both on their own and together. *thumbs up* to that!

One of the things that makes this series so fun is how unapologetically bloodthirsty everyone is. Louisa isn't afraid to attack her captors. Brax and Xarn *like* fighting their way out of trouble. Tren, Jaro, and their respective mates aren't happy unless they're kicking someone's butt. Heck, even Louisa's delinquent charges are nearly as violent as those hunky purple alien mercenaries that we've come to know and love over the course of these books. Those girls are menaces. In a good way.

The setup for book 4 has me itching to jump into it. I just love the way we're given a little snippet of what to expect. It makes the wait to read it so delicious. In fact, it pretty much makes me really want to slink over to Amazon and buy it right now. Well played, Eve Langlais. Well played.

Sassy, sexy, and full of enough purple aliens to satisfy even me, I want more. MOAR.

This is a light hearted, tongue in cheek enjoyable read worth your time.

Louise is a guardian for a group of very troubled teenagers who are on a bus trip when they are abducted by aliens who plan to sell them at a slave auction.

When the terrible two, cousins Brax and Xarn stumble across the girls and Louise the fun begins.

This is a really funny read with two crazy purple alien cousins squabbling over the same woman until they agree to share her. Unfortunately they forget to explain this to Louise.

In the meantime, they crash land, lose the girls, trudge across some strange planet to find the girls only to find the girls are surviving well on their own.

Then they get rescued by Brax and Xarn's family, what a hoot that was, only for Louise to be kidnapped. As I said fun from start to finish.

If you like your aliens hot with over the top sassy women who are their equals this series is for you. Read it to find out what the fun is all about.

Niina says

Louisa isn't having the best of days, abducted by aliens while on a field trip with her delinquent orphan girls kind of sucks, but not without resources she discovers the small green aliens aren't as tough as they look, so

the girls arm themselves for a takeover.

Brax and Xarn have been best friends since they were born and brothers in swords since they could hold them up. There is nothing these two mercenaries won't share, except when they take a job and find Louisa, then all bets are off and it's every alien for themselves as they set to seduce Louisa and make her choose which one she wants to take to bed.

But she's denying both men, scared she'll break their friendship, and also they are purple aliens! But what's an earth girl to do when she's tag teamed by two hunky alien men who suddenly seem to think three isn't a crowd after all...

"Watch out universe, because if you thought the purple warriors, Brax and Xarn, were a menace to the galaxy before, then hang on tight, because hopelessly in love, they're more deadly - and hilarious - than ever."

More! I absolutely have to have more! This series is undeniably addictive - it's witty, funny, sexy, entertaining, well written and hot! That's enough adjectives? Not nearly, but I'll refrain myself. Dual Abduction continues where Accidental Abduction and Intentional Abduction left off - Brax and Xarn the joking duo of extremely hot and dangerous purple alien hunks are about to meet their mate and her herd of delinquent teenage girls freshly abducted from earth and itching to get back. Of course that being a big no-no, they instead settle in the warriors' ship and wreak havoc on the furniture and on their minds and this is a delicious cue for frustration, embarrassment and earthly dating tips to get Louisa to come over to the Team Alien.

Dual Abduction made me laugh out loud, cringe at embarrassment and blush at the sexual endeavors. Who knew aliens had voyeuristic sides? Langlais knows how to write hot sex, and not just that, but built to it with sexual tension hot enough to fuel few spaces crafts! Dual Abduction being twice as hot with the bad boy hunks setting after our heroine's heart, teasing her, tempting her and showing her pleasure despite her virtuous attempts to steer clear of the best friends. That, girls, makes for a sizzling hot delicious read!

I have come to love science fiction romance, when I was younger I read lots of Star Wars novels, and now that I'm all into Romance, these two are so married! Dual Abduction is mainly about the romance, but I loved all the science fiction, the umm... well, molesting showers, space crafts, alien planets and vegetation, the non-humanoid aliens, the odd customs, the odd gestures and the weird cultures! I loved how eccentric and unabashed Brax and Xarn were and how they contracted with the slightly reserved and religious Louisa, who had a tough streak a mile wide, due to her teacher job.

I won't go on and on about how great this novel is (though I want to squee and gush!) but I will demand you buy the series! ;) If you have any interest in sci-fi romance then you must pick out these three books Accidental Abduction, Intentional Abduction and Dual Abduction because - trust me on this - you want to read them back to back and you will be annoyed if you can't start the next one right away. Ten dollars so well spent! ;)

Want my reviews on all these bad boys? Here they are - all 5 STAR mind you. ;) Accidental Abduction, Intentional Abduction and Dual Abduction!
