Un final muy precipitado que intenta asemejarse quizás demasiado a Evangelion? No está del todo mal, pero parece que lo han hecho todo con prisas y no terminan de explicar casi nada de la trama principal. Al menos todas las historias de los personajes quedan bien atadas y es suficientemente interesante como para leerse los 6 tomos. Puedo suponer que en la serie de TV todo se explicará un poco mejor al tener más longitud para desarrollar la historia, porque aquí no deja de ser todo precipitado, desde el principio y el punto de partida, hasta todo lo que acontece en el final.

This is more of a comment on the whole series.

I liked the issues raised about different topics, like religion or the way in which we cast ourselves in front of others.

On the other hand. The fact that this manga was an adaptation from the anime and not the other way around is very clear, as sometimes it's difficult to follow the story if you haven't seen the anime.

Contrary to the above 5 stars, this volume really deserves much more.

I don't know exactly what it is, but very rarely am really genuinely moved by something I have read/watched, but this was one of those.

So, I didn't know exactly where they were going to take this, as it was a lot different from the anime(IIRC) and I must say that this little series is MUCH better than the anime, and I love the anime! Firstly, I would like to give extremely mad props to the artist of this, as he is the first manga artist I have ever seen really capture that gritty "world is ending, time to go save it" feel, while not looking super-hero-y or unrealistically lighthearted. I've got to say, I really thought that Renton and Dominic were complete badasses in this last volume. Two guys who had been enemies and were now both fighting on the same side to save the girls they loved(and also the world, but you know.) That entire scene was amazing, and when Dominic died, I did shed some tears(and did again later in the epilogue when Anemone visited his grave!).

Now, that middle bit with the Coralians(?) tricking Renton and whatnot was also written extremely well. I was on the edge of my seat for the entire thing, but that part onward, especially so!

After Eureka and Renton get out of the Core, shit got sad. I cried. Like about 1/10th as much as I do when I watch Guilty Crown or Shuffle!(As you can guess, I get fairly emotionally attached to characters because I prefer them to real people!)

I really wish they would continue the series. Like. I would pay the artist/story guy to do more. By my damn self.

Amazing read, really.

....Whoa.

All I can say is whoa. Sad, kind of gross, romantic, climactic... All can be summed up in that. Whooaaa.
