Generations M.L. Briers

**** Don't miss this brand new 50,000 word novel in the His Mate series****

Celine, matriarch to a family of witches, had finally twisted enough arms to get them all to agree to holiday together in the mountains. Little did she know that shifter wolves resided there, and the consequences that would bring for her family. It wasn't even Spring and yet mating was in the air.

Dane thought he'd seen everything, but nothing could prepare him for the sight of five witches rolling into town. His brothers wouldn't be best pleased, especially the alpha, Scott, and he'd tried to warn the wicked witches off, but they hadn't listened. Now the fur was really about to fly as mates found mates, and wooing was the order of the day.

Witches, wolves, and an unholy Vampire are about to get the shock of their lives as the normally quiet and peaceful mountain range becomes the battleground between the sexes, and species.

Leslie says

Adorable

Astra says

Just my personal opinion

It would have gotten 4 stars. I tried to look past the errors in the book, but there were so many I couldn't ignore them, it is an editors nightmare. The ending was too abrupt. Other than that it was a decent book.

Kathy Chappell says

A Complete Mish-Mash

Witches and wolves sounds like a good premise for a book. But this one has too many characters, and too many stories going on at the same time. It was just too hard trying to keep everybody straight with their own mates. Finally, after 15 chapters, I skipped to the last chapter to get the ending. I just couldn't go on any longer. I have read a lot of books, but this was one of the worse written ever. This writer usually does a better job, but this time his\her editor let one slip by. Putting five mating couples together in one book is just too much!

Sheila Dudley says

For the love of family

I liked that all 5 witches met their mates. There was an issue with editing which I don't usually mind but it got to the point of being annoying. It is the only reason I took off a star. Alright with that warning, the story itself was great. Gran was a hoot and loved the interplay between the sisters. It was nice that Mom found her chance to be free to move to the next phase of her life. I do so love this author.

Janet Denise Ross says

A LITTLE MAGIC MIXED WITH FATE!

4 STARS this Paranormal Romance is a great little group of 3 romance stories that are funny, tender and surprising. Get a full of wolf shifters who find out their mates are witches. I really enjoyed these short stories.

WARNING 16 & Up SEXUAL CONTENT: Yes

Ruby says

I usually like her books

This book was a good story of she only wrote one story.

She wrote from 8 to 10 different POVs. It was so confusing and felt like everything but the kitchen sink has a voice... This should have been 4 or 5 different chapters. That should have been labelled so the reader could keep up with the POV..... Disappointed.....

Yuen says

Fair read

I enjoyed all the shenanigans but I think I would have liked individual stories better. I think the brothers were interesting and would have liked more back story. I still liked the book though.

Annie says

Loved it

Five witches, five wolves and a vampire. Loved this story! A fun and funny multi generational story. A family of witches head to the mountains at the insistence of the matriarch, for some family bonding. Of course grandma neglected to check the area for pack before booking. Everyone finds a mate, except for the vampire. The witches have a spell for that. Abi and Luke were my favorite. I loved Luke!

Charlotte says

Contains sexual content.

5 witches go on a vacation in the mountains. Grandma, mom, and 3 adult daughters. Now, all five of these ladies are not afraid to say what's on their mind or give you a zap if they feel you need it. When they get to their rented cabin, they are treated by Dane who is a wolf shifter sent by his pack to see who is near their pack lands. Well, witches do NOT particularly like shifters and Dane is not at all happy to find out one of those snarky, stubborn witches is his mate.

This book has me laughing from start to finish with the antics of this family. These siblings are super funny, grab is hilarious! I loved the story and will be reading the next one. This is a great opener for a new series. I think any adult reader would enjoy this book! RECOMMENDED

Kay says

Light, amusing, totally readable, messy story, but I did smile a lot

Too many key characters all at once, 5 witches and a pack, not enough details to really get to know the characters cos far too much ground to cover to get this story told. Mad as it sounds, for a werewolves and witches based story, this one wasn't very credible. I'm hoping the next one builds on these characters and any new ones are given proper space and coverage.

Lots of fun moments, so it did make me smile, which is why I'm going to give book 2 a go.

Linda Johnston says

Celine is the head of witches with 3 generations. She gets them to go to the mountains for a vacation. They don't know there is a pack of werewolves in the mountain till they get there. Dane starts acting strange and they realized that all 5 of the is mates to the wolves and one vampire. They try to run away before they get claimed

Cindy says

Witches and Wolves

First off, this book was really funny and a joy to read. What a concept! Witches mating with wolves! BUT the writing was atrocious! There were run on sentences, choppy sentences, words used in the wrong context (main instead of mane), etc. Did anyone proofread this book???? I think that the writer is creative but please, get your books proofread!!!!

Simply Chaotic says

3.5 I liked The shenanigans, it made me laugh. I really liked the sisters. Really would have liked to see the mates separate. We don't get to know the guys. At least we hear from the gran and the mom some about the girls but I would have liked to get to know them individually and as mates. That took away from the story; There were grammar issues sometimes I had to figure out what they were supposed to be. Also, there were times we jumped to another person not part of the mates and I was like wait who is Janet? Because when this person spoke it didn't let you even know who it was one minute the group is talking then this Janet speaks I was thinking did she mean Jessica? But then we learn someone else is there now. I would have actually liked to have seen the mates woo them not just fall together. To rushed.

Cynthia L says

Boring

Almost no plot line. Lots of growling but no character building. All the men and women are interchangeable. Could have been cute with the interactions, but sadly disappointed.

Peg says

5+ stars

I thoroughly enjoyed this book. Imagine a family of 5 witches on a vacation together in the mountains, technically to practice the craft. Not realizing they rented a house on pack land. The grandmother, her daughter and 3 granddaughters; 1 vampire; and of course 4 pack wolves and their alpha. Yep, you can't go wrong with those odds. I laughed, and fell in love with all the characters in this book. I can't wait to read the rest of this series. I totally recommend this series.
