## Margaret says

This box set is a collection of stories about a family of dragon shifter Princes and the realm they rule.

A box set of dragon shifter stories

### Dragon Desire

Lennox makes a wish to unseat his brother Wilder but the Pixie who grants the wish is planning rebellion.

She arranges for his fated mate to get a job at the palace then meet Lennox but there is a morality clause which will dethrone Lennox causing his brothers to fight and allow the rebellion to take place. Can they stop the rebellion and the loss of life it will cause.

### Chosen Mate

While out for her run Bryn when she encounters Keppler one of the Dragon Princes she thinks responsible for the death of her parents and the exiling of her and her three brothers. He recognizes her but realizes she is also his mate. He knows he must find out who murdered her parents before there can be a happy future for them. All his think that Bryn and her brothers are planning to attack the palace so Keppler digs deeper.

### Bound to the Alpha

Kennedy is working in her father's jewellery shop when Dragon Sifter prince Owen Parker comes to buy a gift for a friend's daughter and is attracted to her. Later her father has a go at her for being friendly with a dragon after both the assistant from the shop and pack mate Rocco tell him exaggerated version of what happen. Rocco has been trying to get Kennedy into a relationship with him and is acting like a stalker phoning and following her. Owen surprises her in the car park after work and they realize that they are mates. Then everything goes to pieces and causes a split between them.

### Secret Mates

After Penny breaks up with Ryland he refuses to let her get her belongings from the apartment, Tells her family she is a drug addict and gets her fire from her job. Sitting in the park depressed and not knowing what to do next she meets Violet who talks her into taking an excursion to somewhere called Hollows. There she encounter Reef one of the Dragon Princes who wants to find out how humans are getting into the Hollows.

### Protecting His Mate

When Dragon Prince Wilder fails to keep a third appointment with Cassia St James the fires her from their business contract she goes looking for him. Wilder is surprised by the beautiful woman at his door who appears human but is a sorceress and is unaware of it. They are draw to each other but how will she react when he tells her of her origins. He is also faced with a crisis when it is noticed that the Hollows is shrinking in size.

### Series Epilogue

Amid the rebuilding of the Hollow the Princes make the decision to step down and let it become a democracy but what will happen when they announce it to the residents .

### **Lets dance like its 1889**

So the last of the princes have found their mates of course Wilders had to be a stubborn one. The Hallows was closing in on them and only a stupid prophesy could show them the way. Or could it, this is a complicated exciting story though the stubborn part became quite boring really, but it ended well but you need to read it to make your own judgment. So Wilder and Cassia and daughter Twila, Reef and his mortal wife Penny with Jason their son, Owen and Kennedy, Kepler and Bryn and lastly Lennox and Gia five princes and their princesses what next was a great twist to the story and that is why I recommend these 5books to lovers of paranormal stories all with a twist lol

5 brothers, dragon shifters, fight for the rulership of Hollow Earth, the only place where magical beings can still be who they really are - without hiding.

Intrigue and greed seem to rule these dragons until they each meet their respective mate and find that that mate is more important than anything else in the world.

I had read the first stories already before when they had been published first, but reading them now, one after another and with a conclusion to round the overall story up - makes this an excellent read and a good choice should you have enough time at hand to read through it all.

An entertaining boxed set with the addition of tying loose ends.

Dragon Desires

Be careful what you wish for....

This was a very exciting read that was unpredictable. I was hooked from the very beginning.

Chosen Mate

This is a must read and have from Juniper Hart's work.

Fantastic characters supported by a great plot.

Bound to the Alpha

Wonderful forbidden romance.

The mystery helped the story move faster. Juniper Hart has done a great job with character building, setting up for what will happen next.

Secret Mates

Who could love a beast?

That is the question to ask and if someone would take so much emotion baggage.

This is a suspenseful read with witty dialogue. It contains great character whom have been featured and past books as well.

I received an advanced copy of this book and am voluntarily leaving an unbiased , honest review.

### **Diana Lindoff says**

I received an advance review copy of this book from the author, and she's done it again. Juniper Hart has created a world of magical creatures. Her characters possess human emotions and failures of love, hate, vengeance, fear, greed and hope leaving us with a fate influenced love story and believable characters.

Five dragon brother princes rule the Immortals from the inside hollow earth. Millennia ago the dragons and lycans fought a vicious war to see who would rule the Hollows. The dragons won and the lycans have never forgotten nor forgiven the dragons, even though they rule.

This story follows each brother as they meet their fated mate and everyone trying to prevent their mating.

Warning, if you're uncomfortable with lots of HEA, you might not want to read.

Five stars for an enjoyable story of the ups and downs of love even true, fated love.

### **Rachel Benham says**

For the 5 Parker Dragon Princes of the Hollow, life was anything but a fairy tale, but they all, one by one, found their mates and found happiness. When oldest brother Wilder finally finds his mate, Cassie, she is the key to saving the Hollows. They all agree, after spending time topside and with the other creatures of the Hollow that maybe it was time they gave up their rule. Cassie gives Reef a pleasant surprise when she transforms his former "mortal" wife Penny into an immortal vampire. When they announce that they are giving up the monarchy, the people of the Hollow refuse to let them.. Though they have had their differences, they know that the brothers did everything they did for them and to better their lives. It was a great series of books and one I am sure that I will read again.

### **Debra Richardson says**

Dragon Desire – This paranormal romance is quite a compelling read. It has a little bit of everything - Dragons, Fairies, Pixies, Vampires, Werewolves, Magic, and Sorcery. It is a fast paced read that had me hooked from the beginning. The plot and characters are well-developed; the storyline is consistent and moves at a brisk pace. Surprises, twists and turns, intrigue, fate, and suspense add to the thrills of this story.

Chosen Mate – This is the 2nd book in the 'Hallow Earth Dragons' series and it is quite the read! It is fast pace, with danger around every corner, and action-packed. A well written paranormal romance that is very exciting with characters that are strong and stubborn. The chemistry between them is potent and undeniable.

This book is an on the edge of your seat read, and I look forward to the next book in the series.

**Bound to the Alpha** – This book is an emotional uphill battle for the characters Owen and Kennedy. Loveable characters with instant powerful and intense chemistry. It is well-written, full of drama and manipulation with bits of humor thrown in and a whole lot of excitement. Another amazing book in the ‘Hallow earth Dragons’ series.

**Secret Mates** – Another riveting book in the ‘Hallow Earth Dragons’ series and it is really enjoyable. The storyline is well-developed and exciting; the main plot is very compelling, intriguing and emotionally deep. It is an engaging page turner that is well-written, funny, and witty with a number of ups and downs. Amazing characters; enjoyable read; definitely recommended.

**Protecting His Mate** – The final book in the ‘Hallow Earth Dragons’ series and very enjoyable. I was waiting for this book and I was not disappointed. Wilder and Cassia together make one amazing powerful couple, who brings out the best in each other. Their chemistry is instant, undeniable and intense. The storyline is exciting, well developed, and well written. The end of this series is beautiful and will leave you smiling. The books in this series are compelling fast pace addictive reads and are definitely recommended.

#### **DRAGON DESIRE:**

Prince Lennox is a dragon doing business his older brother and the King had him do. For many years he has chaffed under his older brother;s rule. He feels as if the King is high on power. Then we meet a small fairy named Gia who is befriended by Allegra, and Gia isn;t sure what she is. Allegra helps Gia out in the bar where she works and then takes her on as a friend. One night Allegra takes Gia to a party at the palace where all the Princes will be. When King Lennox sees Gia he is touched by something so deep and shocking that he seeks her out. When he realizes she is his mate and there is one major obstacle standing in their way life becomes dangerous and bleak.

Fantastic story! Hopefully we;ll hear about the other Princes.

#### **CHOSEN MATE:**

Keppler Parker is one of the princes of the Hollows. He;s the surfer and he lives on the sunside. He owns lots of businesses and enjoys being in the sun. His older brother, Wylder, finds him at the beach surfing. He tells him to be at a special meeting in two hours. In the meantime, the vision of a female keeps implanting in his mind. Bryn is a female dragon who's family at one time ruled in the Hollows. Her parents were killed in a burning and her and her brothers were exiled to Greenland. As her brothers died, they put the onus of her meting out punishment and revenge for not only their parent;s death but theirs. Bryn is a thief who is excellent at what she does and has gotten a good set of people on her side. Until two of them decide to back stab her. Keppler finally figures out who the woman he keeps seeing in his mind;s eye is and goes to her. He promises to help her find who murdered her parents. When she asks him why he looks at her and said, it;s it obvious....we;re mates. Thus begins an adventure that is something that winds back and forth as they look for the real murderer of her parents.

WOW! I love this series!!! Fantastic action and a story of love being discovered.

Great and fantastic read!!

#### **BOUND TO THE ALPHA:**

Another brother dragon this time Owen. He;s out shopping for a gift for his niece. He wanders into a jewelry store where the owner;s daughter and lycan, Kennedy, is working. The two of them seem drawn to each other. Owen waits for her after her shift and the two become aware that they are mates. Unfortunately, the lycans still are of the mind set that the dragons are no good and not to be associated with. Kennedy and Owen decide to meet discreetly. Again unfortunately discreetly isn;t a term that exists at least in the Hollows. Rocco is the rejected suitor of Kennedy and a lycan. He starts to work behind the scenes to sabotage the relationship between not only Kennedy and Owen but Kennedy and her father. Once things start to slide down the dark side, it picks up speed like a train.

WOW! This story is enthralling and will keep you reading till the last page as you witness an almost Romeo and Juliet story.

#### **SECRET MATES:**

Reef is in charge of the Hollow Authority and has discovered that his older brother, Wylder, has been doing his job without telling him anything. Someone is bringing humans into the Hollows and he needs to find out who. Penny has been in a relationship with a coworker for three years but knows that it;s been over for a while. When she breaks up with him, he does his best to make her life a misery. Sitting on a bench in a park after a bad confrontation with not only her sister but her parents, Violet convinces her to go with a group into a fantastic place. They get through and then Reef shows up and after the others in the group try to escape, he takes Penny. He hides her after Wylder puts a bounty on her head. Then Violet returns and takes Penny. Now it;s time for Reef to step up and face reality,

Fantastic story in the Secret Hollow series.

#### **PROTECTING HIS MATE:**

Wilder the eldest is always too focused on doing the right thing. To say he;s rigid is an understatement. Then Atom brings information to him about the Hollow;s walls are moving in. He ignores it until he hears from the only seismologist in the Hollows. When he meets the realtor he;s put off for months, he realizes she is a sorceress. Then he learns of her mother who is in a nursing home being treated for dementia. Then he realizes she is his mate and with that realization he comes to accept that the concept of the Great Shift can be just as real too. Now what does he do? What can he do? How does he keep his mate safe and can he?

This is a fantastic series to read and the last story just pulls it all together.

##### **Dragon's Desire:**

Chosen Mate: I LOVED IT!!! I am really excited to see how this series turns out. Bryn is looking for revenge for her parents! Keppler finds his mate in Bryn. With many obstacles in their path can they find the love and peace they both want?

Bound to the Alpha: A short and sweet addition to the series. It was fun to read!

Secret Mates: Grabbed Me from the Start! This was a gripping tale that pulled me in from the start. Penny is the shy(ish), quiet(ish) pushover. But everyone has their breaking points. When she realizes that her

boyfriend really isn't for her, she dumps him to her own shock as well as his. After she feels like she is at rock bottom, she ends up in The Hollow and finds herself with a bounty on her head. The book pages just flew by as I ate them up. I am looking forward to the next in the series for sure. It is time Wilder got a dose of his own medicine!!!

Protecting His Mate: Wilder's story was awesome! A great final chapter to the series. Cassia, I really love that name and what a sparky girl to go with it! The Big Shift brought BIG Changes to the Hollow.

Series Epilogue: Seeing a little from each dragon brother and his mate is an extra scoop of awesome over this fantastic series! It was really great to see them all come together in the end and with a crazyyyy development in the Hollow!

I was gifted an ARC in return of an honest review. I also read most of the series as individual ARC books!

### **Kay says**

What a pleasure it was to read all five books in the series without having to wait for any. And the final epilogue tied up all the threads very nicely. For five dragon princes who each find their fated mate you would think repetitive but it's not. Each story is different journey to find true love and still has the brothers meeting as only dragon brothers would. The Hollows is extremely well described and if mortals could travel there I'd be at the front of the line. As for the brothers, well they're a lusty bunch and certainly make their mates happy. There is sadness and peril, sun and shadows, growth and maturing, and overall, strong HEAs. What more could you want!

Hollow Earth Dragons by Juniper Hart

It's always great to find a good series to read – the interlocking story-lines that give you glimpses of past and future leads always keeps me entertained. This collection is fully entertaining and compelling enough that you keep reading until the end.

Having the brothers together is wonderful, but nowhere near as fantastic as each individual story, culminating in an amazing epilogue.

Suitable for all adult (due to content) readers who enjoy a brilliantly staged paranormal romance collection, with the added depth of a history and legend making prologue.

Great work, Ms Hart, I hope to see more in a similar genre soon.

---

### **Anastasia Chase says**

This was fun to read. This story follows 5 dragon brother princes as they rule the immortals from inside

hollow earth. The lycans are the dragons' natural enemy, and have been fighting with them ever since. This story follows not only the conflicts in this age long war, but the fated mates each of the brothers find along the way. You'll fall in love with all 5 of the hunky dragons.

5 stars!

### **Ann Holden says**

Dragon Desire:

Gia is such a sweet girl, a fairy and a total doormat. It is good to see her grow into a stronger person. Lennox? Well, he's a dragon prince. He makes a wish for himself but also to make life better for others. Be careful what you wish for. I couldn't put this book down. It's a wonderful, sometimes sweet story.

Chosen Mate:

This is a story about a dragon prince named Keppler and a young woman named Bryn. The story is well written and crafted into a very interesting tale with great characters.

Bound to the Alpha:

This is the third book in this series about the dragon princes. Owen and Kennedy are an interesting couple. Kennedy is spoiled, but is she really? Their relationship is forbidden by her father, but how do you reject your mate? This story is well written.

Secret Mates:

This is a story about a dragon prince named Reef and a young woman named Penny. This is the fourth brother we get to know. All that's left is Wilder's story. I am really looking forward to reading it. The story is well written and crafted into a very interesting tale with great characters.

Protecting His Mate:

This is the fifth story of the dragon princes featuring Wilder. It is definitely my favorite. We get to see what makes him tick and Cassia is the key.

The Legend of the Hollow Earth Dragons is the complete collection and includes an epilogue to tie up all the loose ends.

Wonderful writing by Juniper Hart!

Hollow Earth Dragons by Juniper Hart

This series set as a smorgasbord of paranormal elements from magic to whatever your heart desires and alpha men that know how to take care of a lady and save the day as well. Three of my favorite stories are Bound to The Alpha, Dragon Desire, and Chosen mate but the other three are equally fascinating to read as well.

Bound To The Alpha

Kennedy is a the Lycan princess of whose father is the alpha and owner of several jewelry stores that will come to her when he steps down. Owen is one of the dragon princes who happens into her store for a gift and

sets eyes upon her. It is a chance meeting with ever lasting repercussions because Owen is in awe of Kennedy and she is of him but their is only one problem, her father forbids the union because of his dislike of dragons. Fated as the love may be they will have an uphill battle on their hands for their union.

#### Dragon Desire

Lennox and Gia are a perfect match if only the powers that be stay at bay. Lennox was a womanizer before Gia but one look one kiss and he knew she was his. Can these two have their happily ever after or will other forces keep them apart?

#### Chosen Mate

Plans are meant to be broken and hers were because of betrayal. When her team betrays her she comes under the scrutiny of Keppler. The chemistry between them was off the charts and it brought about a big change for Bryn. Now at a crossroad what is she to do? Will the forbidden love get in the way of things?
