Calling all young equestrians and Cat (in the Hat) fanciers! In this latest installment of the Cat in the Hat's Learning Library, the Cat introduces Sally and Nick—and beginning readers—to all things horsey. At his Super-Tremendous-Stupendous Horse Show, the Cat explains how horses and people have worked together since ancient times; the difference between fillies, foals, yearlings, mares, colts, dams, sires, and stallions; horse anatomy from nose to tail; the work of a farrier, Western vs English riding; and much, much more—including fun facts about 13 of the most popular horse breeds! Fans of the new PBS Kids preschool science show the *Cat in the Hat Knows a Lot About That!* (which is based on The Cat in the Hat's Learning Library) will whinny with glee over this new addition to the series!

## **Audra says**

Much more informative than you'd expect a Cat in the Hat book to be.  
We have read this many, many times.

## **Emerson and Theodore says**

Another from the PBS "Cat in the hat knows a lot about that" series. This book is extremely detailed about horses: breeds, body parts (and on a horse there are a lot of names for all the joints and bones if you didn't know), equipment, etc. Emerson liked it.
