**It's Getting Scot in Here** Suzanne Enoch

**The first in a wickedly seductive new Scottish historical romance series from *New York Times* bestselling author Suzanne Enoch!**

Marry or lose their estate; that's the devil's bargain he and his brothers must follow. But wild Highlander Niall MacTaggart's stubborn oldest brother wants nothing to do with marrying the sophisticated, pinky-out Lady Amelia-Rose his mother has chosen for him, even to save their land. Niall's only goal is to soften up the London socialite, and show his brother the warm beauty behind the shiny, polished front. But what Niall doesn't expect to find is the woman of his dreams...

### **Sara Reads (mostly) LOTS of Romance says**

Aaagh I love Suzanne Enoch!! Her books are so fun!! Excited to read this one

---

### **Tanya Sridhar says**

That title makes it impossible for me to take this book seriously.

But I know this author is widely loved! And my first ever book by her for an ARC so yay!

P.S - I am digging that cover.

---

### **Nicole says**

I received this novel from net galley and the publisher. Thank you!

I have read some of Ms. Enoch's novels and I enjoyed this one as well. Lady Amelia-Rose Baxter puts on a facade to society, when she really is outspoken and enjoys reading. Her parents agree to a betrothal to Coll MacTaggart, a Highlander. Amelia-Rose enjoys London and has no plans on leaving. However, she feels she must obey her parents. Things change when she meets Niall MacTaggart, her supposed betrothed's brother. Niall and his brothers are forced to return to London based a document signed by both their parents. I did like the backstory and how it is incorporated into this story. It gives another perspective to it. Niall is stubborn, tall, shears sheep, gets into fights....in other words a Highlander that does not want to be in London. He is immediately interested in Amelia-Rose. As they spend time together, feelings between them grow, but with her being betrothed to his brother as well saving the Scottish estate, and her parents wanting her to have a title, their relationship seems hopeless. Amelia-Rose needs to decide what she wants, to which Niall gives her a choice...the only one who asks her what she wants. A great read for a new series! I cannot wait to read the next novel!

---

### **Debby "Piene Raven" says**

A fan of Suzanne Enoch, I thought the story was delightful and entertaining..

Amelia-Rose Baxter's parents want nothing more from their daughter in that she makes a match that comes with a tilte to elevate them in society. Very outspoken, she's determined to stay true to herself and marry someone who will accept her for with all her shortcomings. Unfortunately they would need to reside in and love all of London.

In strolls rugged Highlander Niall MacTaggart and his brothers...One betrothed to Ameila-Rose. Coll, the eldest must marry or lose the ancestral estate but Niall becomes infatuated with Ameila-Rose and eventually takes her as his own when she is released from her marriage agreement with Coll.

Niall tempts to court Amelia-Rose, despite her reservations but succumbs to his charm. Her family opposes Niall, and tries to pawn her off to someone with a title and no money. Determine to keep her for himself, Niall plans an elopement and Amelia-Rose agrees although the results would cause a scandal for her and her family.

Again, this was a nice story that I truly enjoyed reading. Although there were some parts that dragged a little, it had its share of conflicts. Some parts were very predictable but the story was still good. I also did not care much for the over use of the Scottish brogue at times. It became a bit overboard. Regardless of those drawbacks, it was still a delightful and entertaining story.

This ARC was provided by NetGalley and St. Martin's Press in return for a fair and honest review. All opinions in this review are my own.

4-Stars

### **Sophie says**

I love Suzanne Enoch! I already read her Lessons in Love and With This Ring series and adore them both! For a long time they were the only two series translated in my language...

When I saw this book on NetGalley and saw who wrote it, I immediately requested it. I was so excited when I got approved!

And I have to say I love this kind of book when a main character wants to help get another main character with a third person and then in the process, he/she falls for the other person. Some sort of matchmaking or something.

Niall knew since the beginning that he liked Amelia-Rose but he also knew that acting on his feelings is wrong. So he "helped" his brother by accompanying Amelia to events.

Amelia lived with a very strict mother. She knew that her mother wanted a title to be worth more in the eyes of Society and that she can't risk falling in love with a handsome Scot no matter what. It bothered her that he didn't have a title because he was the third son. Through the story, she realizes what she wanted and is ready to risk it all...

I love reading about Scots. Ah, the kilts, the dialect! Unfortunately, I can't rate it more than 4 stars because

a) the story mentioned like every three pages how "impossibly green" Niall's eyes were. I got it the first time, thanks

b) the heroine sounded like a doormat in the first half of the book. She was always mentioning that Niall's without a title and therefore not a match for her. Obviously, her mother's saying was a huge impact but honestly, even though she was a spitfire to everyone around her, she just couldn't stand up to her own mother.

At first, I thought both her parents are the same but at the end, I got the feeling that his father is much more

down-to-earth than the mother.

I'm also so excited for Coll's book – I think it would be great!

## **One chapter more says**

I am having a difficult time writing this review as usually I like to start with a little summary of the book but... This story was so complex that I am unable to tell you anything and don't say too much. Does it make sense? So if you want to know what the book is about - let me just say... A shenanigan like you've never seen before.

Even though I found myself lost in the beginning (trying to figure out which brother is which) I did love this story! This was a type of a book that shows us that appearances can be deceptive and we cannot judge book by its cover. A beautiful story of how promised marriages not always work and how speaking one's mind can take you out of the uncomfortable situation.

This fast paced plot kept me engaged from the very first to the very last page. Handsome Highlanders feeling out of place on English ground, speaking their minds was absolutely hilarious to observe and to follow. I think I needed this story in my life to actually appreciate what I have but also to understand that true love could easily be found between the enemies (maybe I'm exaggerating, but you know what I mean?) .

It was my first book that I read by this author but I already cannot wait to see the stories of other two brothers (whose names I can't really recall at the moment- it's been a week since I read this book). What their stories will bring to my life? Will Francesca have her boys back in her life?

## **Carey says**

4 Stars!! I love a good Historical Scottish Romance! This was a great read! I love the main characters, Niall & Lady Amelia-Rose! They were perfect together. I felt bad for Amelia-Rose & the way her parents & the oldest MacTaggart brother, Coll, treated her! I thought it was funny how she said what she was thinking even if she got in trouble! The MacTaggart brothers and how they argued, fought or just talked to each other were funny & I loved their 'friend' Rory too!! The only thing I didn't like was how their mother just left Scotland, and them, with the baby sister when they were just kids. How could a mother leave, never visit or write to her sons?! That was the only part I found hard to believe & I wish it was different. Other than that, it was a great read & I highly recommend it!

\*I received this book at no charge from the publisher.\*

## **Suzanne says**

I received an Advanced Readers Copy of It'S Getting Scot In Here by Suzanne Enoch from Goodreads Giveaways.

Loved the book. It's Getting Scot In Here is the first book in a new series about Scottish historical romance. Scottish Highlanders meet London society. Thrilling romance.

The book tells the story of Scottish Highlander Niall MacTaggart and London Socialite Amelia-Rose Baxter.

Can't wait to read Aden and Coll's story. I hope to hear more about Angus MacTaggart and Francesca Oswell MacTaggart.

---

## **MissCherry says**

En It's getting Scot in Here, Suzanne Enoch da comienzo a esta nueva serie protagonizada por los hermanos MacTaggart y he de decir que es un muy buen comienzo.

La vida de Niall y sus dos hermanos da un vuelco cuando reciben una carta de su madre en la cual les informa que su hermana pequeña, Eloise, se ha prometido y por lo tanto los tres tienen de plazo límite hasta la boda para casarse con una novia inglesa. De no hacerlo se les retirará su asignación mensual y por lo tanto acabaran arruinados, ellos y todos los arrendatarios del clan Ross. Todo esto se debe a un acuerdo firmado entre ambos progenitores antes de que la madre abandonase las Highlands con su hija pequeña para instalarse permanentemente en Londres. Los hermanos viajan a la ciudad inglesa con el claro propósito de "escaquearse" del compromiso y convencer a su madre de que desista en su alocado plan. Pero Francesca es una mujer de armas tomar y ya lo ha organizado todo. El mayor de los hermanos, Coll deberá casarse con una mujer elegida por ella, así lo estipula el acuerdo, y Niall y Aden con cualquier inglesa que ellos elijan.

Aquí entra en escena Amelia-Rose, nuestra protagonista, cuyos padres han acordado con Francesca el matrimonio entre ella y Coll. Pero el primer encuentro dejará bien claro que el mayor de los MacTaggert no está por la labor, es un bruto maleducado que desprecia a Amy nada más conocerla. En cambio su hermano menor, Niall, es todo lo que Amelia-Rose busca en un marido...todo menos el pequeño problema de que Niall carece de título y los Baxter no van a consentir que su hija se case con un don nadie. Y aquí empiezan los problemas...

Hace bastante tiempo que no leía a Enoch, al leer la sinopsis de este libro me picó la curiosidad y no pude evitar darle una oportunidad. La novela es muy tierna, como decía al principio es un muy buen comienzo de serie, nos presenta la situación en la que se han visto envueltos los hermanos MacTaggert a la vez que nos cuenta la historia de amor de Niall y Amelia-Rose. Los dos protas me han gustado muchísimo. De ella me ha encantado ver ese cambio, esa progresión de madurez, de ser una jovencita que no consigue ver del todo más allá de los designios de sus padres a ser una mujer de ideas propias, que elige su destino pensando en sí misma por encima de todo. Él es muy dulce, supongo que también porque se supone que al ser ambos más jóvenes que el resto de personajes la autora ha querido marcar bastante la diferencia, es refrescante dar con protagonistas así tan alejados de los cánones que suelen predominar en los personajes escoceses de histórica. It's getting Scot in here se divide en 18 capítulos, cada uno de ellos bastante extenso, ya sabéis que me suelen gustar más las novelas con muchos capítulos cortos, pero no ha sido hasta los dos últimos capítulos que no se me ha hecho pesado, creo que porque sobretodo el último capítulo me ha resultado más un epílogo que otra cosa y ya había poco que aportar a la historia.

En definitiva, una nueva serie a la que me he enganchado y de la que estoy deseando recibir nuevas noticias, porque algo curioso de este libro es que al ser el primero y ser tan introductorio no ha habido lugar a dejar entrever nada de la siguiente historia ¿Será de Coll? ¿Será de Aden? Ains, la espera se hará larga.

---

### **Laura says**

I'm happy that there is a new series from Suzanne Enoch. The premise is interesting with three sons being coerced into a reunion with their mother, who abandoned them, taking only their sister with her, for a life back in London.

I know more will be unveiled, but I am having a hard time seeing how the boys will be forgiving of their mother's leaving. Seventeen years is a long time to stay away from your sons just to give your daughter a civilized life.

Onto the romance between Amelia-Rose Baxter, whose parents dream is for her to marry for a title, and the youngest MacTaggert son, rugged Highlander Niall.

This was a romance that blossomed quickly and you knew Niall was going to see things through to win a life with the willful, Amelia-Rose. I loved these two together and I enjoyed that they were determined to be together no matter what it who stood between them. I look forward to the next book in the series.

---

### **Ambur says**

Oh boy! I absolutely loved IT'S GETTING SCOT IN HERE! Niall and Amelia-Rose were perfect! I loved them both so much and I loved them together even more! I loved how dramatic this story was, how swoony it was, and I absolutely adored all of the romance!!! It was sooooooooo good!!! I can't wait to see Niall's brother, Coll and Aden, find love too!

Full review to come!

---

### **Keri says**

Won this sweet ARC. New start of a new series. I really liked it and on pins and needles on who's book is next and might Jane get a story? She turned out to be a strong character that I would love to know more about.

---

### **Niki says**

3.5 stars rounded up

When a seventeen year old agreement between their estranged parents comes to light the three MacTaggert brothers, Coll, Aden, and Niall, must journey from the Scottish Highlands to the London home of the English mother they don't even remember. In order to ensure continued use of their mother's funds, which support their estate, Aldriss Park, and all of its dependents, they must play by Francesca's rules. The daughter of an English viscount herself, Francesca has determined that her sons will marry English women and at least one of them will marry a lady of her choosing, although she also determines that this will be Coll, the eldest and titled Viscount Glendarril, heir to the Earl of Aldriss. Naturally the brothers balk at being dictated to, by a stranger no less, but they must do what is necessary for their people, so they determine to go through with quick marriages and leave the ladies in London. This arrangement worked for their father, so it will do for his sons; whatever gets them back to the Highlands as quickly as possible and away from the hell that is London.

Miss Amelia-Rose Baxter is no simpering miss, she's quite the opposite in fact and her quick wit and sharp tongue often get her into trouble with potential suitors. This one is no exception when she quickly judges the highlanders to be slow and stupid brutes. When she almost immediately angers Coll, Niall steps in to save face with her before Francesca can find out. As he covers for his brother, Niall finds himself having not so proper thoughts about his brother's betrothed. Amelia-Rose and her family, especially her mother, are determined to have a title, so Niall would never do, even if Francesca would agree to substitute him for his brother. Niall has always been the peacemaker of the trio and especially with so much at stake now, he knows he must step in when Coll makes himself scarce. But as Niall winds up filling in more and more for Coll and getting to know Amelia-Rose, he begins to wonder how he'll ever step aside and let his brother have her. These two have a ton of issues to overcome, some created by their own behavior, and it's clear their happy ending will be hard won indeed.

These two meet with preconceived notions of what the other should be and both are fed up with their mother's machinations. For me Amelia-Rose's sharp wit just came off as rudeness much of the time. She is determined that Niall and his brother are barbarians and is surprised by the simplest courtesies. She may be thrilled to be able to be herself and not hide her quick wit with Niall, but she is consistent in trying to change and mold Niall into her expectation of a proper gentleman. Amelia-Rose complains of being manipulated by her mother and yet she engages in the same sort of manipulation with Niall and his brother. She also claims to want someone who she can converse with about important topics but really she's mostly concerned with having freedom from her overbearing mother while still being able to enjoy London society. Even admitting her attraction to Niall, she still doesn't think he's good enough for her since he's still a

highlander with no title, plus she hates the Highlands and knows she could never be happy there, even though she's never actually been there.

I absolutely hated Francesca and her constant attempts to shirk any responsibility for the situation she put them all in. She was nothing but rude and high-handed to her sons, the had the gall to be offended when they didn't react well to her scheming. She takes no responsibility for their seventeen year separation and lack of communication even though she's the one who instigated it, then she doesn't understand why her sons won't call her mother, and somehow thinks she should get credit for trying to have a relationship with them now. Nevermind that this relationship comes about through manipulation. Much of this for me was just a farce of unlikable female characters, right down to the chaperone. Of course, Francesca improved a bit towards the end, like most of the characters, but it was a bit too late for me to develop any liking for her.

I have so many mixed feelings about this book. I finally got into it about four chapters from the end, but by then it was like Amelia-Rose had done a total 180 from her behavior and thinking for the first half of the book; not exactly believable perhaps, but it made me like her more. I was much more a fan of the three brothers and their antics and banter, as well as their loyalty toward each other.

Even with all the things that annoyed me with this one, I found the three brothers to be delightfully charming and will look forward to the others' stories. This book was humerus and well-written, though it took me a long time to get into it. This was my first from this author, but the quality of this writing, even if it some of the characters weren't my favorite, makes me want to read the rest of the series.

I voluntarily read and reviewed an advanced copy of this book. Thank you! All thoughts and opinions are my own.

---

### **Julie (Jewls Book Blog) says**

Niall and Amelia-Rose were a perfect match. I loved their banter and watching Amelia-Rose come out of her shell. She blossomed under Niall's protectively nurturing personality. He was a fixer and it was rather cute how much he tried to help her, and his family, while ignoring his own needs and wants, but where there's a will...there's always a way!

This is the first book to a new series and I think it's off to a good start! Of course, a sexy Scot is always a good thing and we are introduced to three brawny ones, so there's plenty of potential stories! ;p Niall and Amelia's romance was quick, cute, and had some heat, and I liked how they connected. Overall, the plot had a few predictable moments and I thought the characters were great! The story was funny enough to keep me entertained and had just enough drama to keep the momentum rolling.

I voluntarily read and reviewed an advanced reader copy of this book. All thoughts and opinions are my own.
