## J says

For its time, it may have been something. Now reading it, it feels a bit. . .dated. Driving down some of freeways in LA and walking down some side streets on Melrose, I've seen better work. Even some in Tuscon, AZ was better. Choice pieces well it's alright

A sequel of sorts to Subway Art and Style wars (documentary), the book documents the thoughts of graffiti writers from across the world. It illustrates the different styles and motivations of street artists from around the world.
