She is my obsession. But someone else is obsessed with me...

I'm used to being in charge. With money comes power, and I have plenty of both.

But one person doesn't bow down to me. She challenges me at every turn and drives me insane with longing.

She's my assistant, Grace Copeland, and she wants something that, by rights, is mine.

But others are also after what is mine. And I'm willing to do whatever's necessary to protect what—and who—belongs to me.

Including Grace.

*A SIX PART SERIAL with dual points of view, lots of bad words, the creative use of glass walled rooms, and a beach house that holds a whole lot of secrets. There are all sorts of cliffs in these books, some even include actual rocks. **You have been warned.***

## Dali says

*Absorbingly intriguing and seductive. The plot thickens and my addiction level has skyrocketed.*

*"She was fire and fun and warmth and life. I'd had none of those things for so long that I was starving."*

I'm so glad I could read these almost completely at once! I don't think I could've stood the suspense and scorching heat between these two! As with the previous installments in this serial, part four picks off where the last one left off, now told from Blake's point of view.

*"Her knowing eyes sparkled with their witchy secrets. Witches didn't scare me. But Grace Copeland's power over me fucking terrified me."*

In every volume I fall a bit more for the acerbic and ruthless man who's used to being in complete control, except when it comes to Grace. With her, he is so passed obsessed he can't even see he's irrevocably in love. He's cruising on The-Nile as if it were right in his back yard and I'm loving it because we also get to see there's a vulnerability under all that control.

*"Because she couldn't want to just be with me. That wasn't possible. There always had to be a set-up going on. A long con. That had been true in the past, hadn't it?"*

With each chip that falls from the ice fortress that surrounds Blake's heart the mystery around him and Grace's grandmother's house keeps getting more interesting. I seriously can't figure out where the authors are going with this, but I'm certainly enjoying the ride. Blake has drawn blood from intruders at the Marblehead house and suspects just about everyone around him including his supposedly best friend.

*I smiled, helpless not to. That was the gift she gave me. No matter how fraught or fucked up our situation was, she gave me back the light. "You inspire me to new heights."*

To recap up to now there's Blake's long time passion and obsession, the incendiary attraction between them and an enigma waiting to be solved. Puzzle pieces are given, a picture is forming but there are still a lot of questions to be answered, new ones that have cropped up and of course there's a maddening cliffhanger. I'm loving it!

This is the fourth volume of six in The Boss serial. It is a short read, told from the hero's point of view with a cliffhanger. It is strongly advised that these be read in order.

## Elizabeth Neal says

Cari and Taryn, you're killing me! You two have become the queens of cliffhangers and I eagerly anticipate each new volume so I can find out what happened. Then you end on another cliffhanger, causing me to read and repeat. LOL Each of you need to start preparing those guest rooms as I'm taking turns camping out with both of you to save my sanity as I wait for each new volume.\*smirk\*

I was finally able to breathe a sigh of relief upon learning Blake was okay. As the hero, I knew he wouldn't be mortally wounded, but still. So Blake thwarts the intentions of the men that broke into Grace's, err Blake's house, wounding one of the men. He also finds what he feels is a piece of evidence as to the identity of at least one of the perpetrators. He's understandably upset and doesn't want to believe it, yet what other reason could there possibly be for the item being there.

Once the police arrive, Blake and Grace are questioned and one officer gets a little too personal when asking how exactly they were indisposed when the break-in occurred. Psst...I'm torn between thinking she's nosey or jealous, but I'm going with both. \*wink\* Blake tries to answer tactfully, yet Grace (I loved her for this moment alone) answered bluntly. It was awesome! LOL

Afterwards, Blake informs Grace she can't stay there, not only because she inadvertently tells him she feels they've been in the house before, but also because she is in all actuality trespassing. Though Blake doesn't mention that last part. Smart man.

Of course, Grace has nowhere else to go and no job to bring in income to afford her own place. \*shakes fist at Blake.\* Before Blake knows it, he hears himself tell Grace she's going home with him. The home he's never taken another woman to, yet he's taking Grace there. That's a big deal and he knows it. Plus, it's Grace.

They aren't there long before they're \*ahem\* comforting each other. Woah baby, was it hot. There's also some actual connecting happening on an emotional level and yes, that scares Blake and he intentionally hurts Grace to push her away. \*takes back earlier smart man comment.\* This leads to some tense times at the house as they settle into a somewhat comfortable routine. Grace knows she needs to find new accommodations quickly and petitions for her old job back. Yes, she initially took the job under false pretenses, but she actually liked it and was very good at it. Blake knows she was good at it too, as no one kept him as organized as she did. Grace is very persuasive \*snicker\* in her negotiations and while not agreeing to the rehire, Blake doesn't stop anything once Grace starts her return to the company in motion.

Things get further strained between them though as Blake's Mom and her current boy toy make an unexpected visit. Oh boy. Blake arrives home to Grace making a meal for the four of them and gets a little twitchy as they refer to Grace as his girlfriend and that she's perfect for him. Grace tries to nicely correct the assumption, but Blake does what he does so well and hurts Grace yet again. Ugh! But we also have a now clearer vision as to Blake's childhood and the circumstances that shaped him into the man he has become. You can't help but feel sorry for what he went through, though you want to throttle him for continually hurting Grace. Especially since we know he cares about her and has for awhile.

There's also the fact that Blake is now suspicious of every man in his circle that appears to have any sort of injury. He knows that he needs to find out what happened so he decides to throw a party at his house. \*gasp\* Yes, a party that he's willingly throwing, albeit with ulterior motives. Of course, Grace helps him with the preparations, but he knows something is a little off with her and the fact that they're essentially living together still gives him the willies. LOL But I think it's because he likes it, as opposed to him being against it.

The day of the party arrives, but Grace doesn't. Wait, what? See what I mean about my earlier statement that they're killing me? \*head desk\* Grace went out for a lunch meeting and hasn't returned. Blake knows she wouldn't bail on him, yet he's also starting to piece things together in regards to her art. Yes, she's still working on it and he's just realized where she's doing it. But now they need to find Grace and Blake won't settle for anything less.

I highly recommend this serial and anxiously await each release. I do recommend you read them in order, otherwise everything won't come together for you as it should.

For goodness sake! I cannot believe Taryn & Cari could do such a thing! Who am I kidding-they've done it now 4 books in a row with The Boss...

Blake is to die for! But Grace is an angel. Together they are on fire! He can't/won't believe she could be more than the other women he's dated - he's done more for her than any other woman, stuff he wouldn't even offer and had never offered! She has a control over Blake that even he cannot believe - again doing things for her that he had never done for anyone else - he invited her to live at his place because her's was broken into...and really wasn't hers! I don't even think he fully realizes how much he needs and wants her in his life.

The Boss: Book Four is not a cliff hanger....it's a full on cliff! Feels like there is so much more to come for Blake and Grace - and I feel like there is something else out there that I can't quite put my finger on.

So excited for Book Five! (In the meantime, I will have time to go back and re-read 1-4! :D

## Guilty Pleasures Book Reviews says

Kitty's review posted at Guilty Pleasures Book Reviews

Well, we still do not know who exactly was shot or exactly what they are after in Marblehead. But, we do know that Blake Carson has feeling for Grace Copeland that he cannot face, refuses to admit and just can't stop. Maybe it's time for him to face his new reality ... Grace is under his skin, in his life and probably his forever. But, where is Grace?

So the mystery continues and we still have no idea how Blake and Grace's past are coming into play here. He's mentioned being with her grandmother and what an influence she was on him but she never bothered questioning him about it. That, in itself, disappointed and frustrated me since that would have been the natural progression of the conversation that they were having but it was just glossed over. It was a perfect opening to starting the end of this serial and it wasn't taken. But, there are other things going on that are also keeping the mystery alive and I am sure that all the pieces will start falling in place. But, first, we have to figure out where Grace is and why she is not answering her phone.

I am enjoying The Boss but Volume 4 fell a little short for me. As I said, there were openings for us to understand where the story is leading us and it was not taken. Blake is being a real jerk about what he is hiding, not explaining why he bought the house and his motives behind everything.

Don't get me wrong, he's hot, he's mysterious and he knows how to pleasure a woman. He doesn't trust anyone and I could understand why ... he doesn't trust himself to be honest why would others be honest with him?

"And you also don't play fair."*

***"No. Because I'm not playing."***

How is it that these books just keep getting better and better? The mystery, the sizzling hot romance, and now this suspense of who done it has been added? Oh man!

Every time I think I have something figured out, a new book comes out and I'm once more left with more questions. I'll keep this short and sweet: READ. THIS. SERIES.

Now if you'll excuse me, I'm off to drink myself stupid until the next installment comes out because C'MON!!!!

Oh I wish I had the rest of this series now. These two authors have me sucked into this world with Blake and Grace and they keep giving me just enough to get my fix for the moment.

Just when Grace opens up to Blake, intruders interrupt their reunion. Blake finds something in the house that makes home begin to wonder who his real friends are. We are also introduced to Blake's mom and her boyfriend. I dislike this guy about as much as Blake does.

Now that Grace has shown Blake that she's been squatting in the servant quarters of her grandmother's house she finds that she has nowhere to live. Things have changed between them and she finds herself staying with Blake for a few days. She try's to convince him into giving her her old job back, sexual favors included. Instead Blake decides to have a party, but Grace doesn't show...where is she??? I really need the next installment now! I'm so addicted this series.

Blake Carson continues to be obsessed with his former assistant, Grace Copeland. As if that isn't enough to stress the controlling billionaire, his past haunts him, unknown people threaten him and what's his, and he has suspicions at every turn. This is the fourth part of a six part sexy serial that is fun with mystery.

### **Moon Love says**

I can't believe how long has passed since I read Vol. 3. I feel like kicking myself because it's so good! Every volume peels back the layers of mystery surrounding both Blake and Grace, but still somehow manages to leave a lot untold.

Vol.4 immediately started off with a bang. I like Blake had some suspicions about who might have been their unexpected midnight visitors but it seems like there's a new suspect every couple of pages!

And while Blake and Grace are still dealing with their inability to stay away from each other, it seems like the tables have turned and Grace is being the more mysterious of the two. I'm not sure if it's since this volume was told entirely from Blake's point of view, but this installment ended on a major cliffhanger and with only two parts left, I know I will not be waiting very long to read them!
