Touch of Eden

Jessie M.

Touch of Eden Jessie M.

I'm Joshua... 25 years old and full of myself.

I hang out with my like minded pals, obsessed with sex and hooking as many girls as I can...

Until one day, one fateful day, I go too far and commit a dreadful sin.

My whole life collapses around me. I don't want to be me anymore.

I start to change and the next thing I know my whole world stops spinning when I fall in love.

But she says she doesn't want me. Because of who and what I am and my track record...

You see she knows me. She knows me better than anyone else because she just so happens to be my best friend... This is my story. Our story.

Explicit sex scenes and language... 18+ advised.

Sarah says

Erotic romance told from a British male point of view. Not my favorite kindle freebie but interesting. Two storylines were also unnecessary--just focusing on Eden and getting more in depth would have been better.

Tracy says

Hmmm Joshua, it was weird for me to read this book from a male POV, and inside Joshuas head was a bit freaky.... Women, sex, gym, women, sex.....yep thats all he thought about! I did not like the fact he referred to women as fish and reeling them in....sounds sexist to me....but then maybe thats because hes male and im female ha!

But then Joshua seems to have a change in personality.... Eden, his female bff suddenly became more important to him and Joshua grew up....a hell of a lot!

I didnt love this book but i didnt not like it either, i wanted to know what happened throughout the story and i thought the ending was sweet too!

Katlyn Womack says

This book was yet another amazing addition to the wonderful works of Jessica Miles. It is the sixth or seventh book I have read by her. There are so many great ones, I have lost proper count. And, once again, I loved it!

This one is a bit different than the others in that it is completely from the man's perspective. Most of her books are two sided or mostly from the female's view. This gave us a look into the sex-crazed male psyche.

At first Josh is a total horn-dog. He is 100% about his next "fishing trip". The fish of course being women. He and his two guy pals are constantly on the prowl for their next lay. But all of a sudden, that changes in a way he never sees coming. Who he ends up with is anyone's guess throughout the first half of the book as he interacts with so many different females and one of them will completely throw you off. She is so much like the characters in some of Jessica's other books that you will feel for sure that she will be the one. But I was pleasantly surprised in the end. When all was said and done, I actually found myself liking Josh. He turned out to be quite a good guy after all.

I had a huge smile on my face when I read "The End". It was a very satisfying ending which is hard to come by. A lot of the time I feel like I need more, but I didn't with this book. I was very pleased.

I look forward to Jessica's next piece of art. I am constantly checking to see if she has put anything new out. It has become part of my day-to-day routine.

I hope you like it as much as I do. Check out her other books too. She really is an amazing author!

Jacqueline's Reads says

FREEBIE!!!

Dena says

Its based on POV of a man who tries to win over women. Overall, I could not get into the book and was set more for Englands taste. I did not find it intriguing

Contessa says

3.5 Stars. I was a little worried about this one. It had several bad reviews. I can honestly say that they were wrong. This is a fast read love story. There were parts that went on and on, but in a whole, this story was OK.

Clair McKane says

Couldn't get into it

Sweets Books says

It was good better then I thought it would be. Josh & Eden make a cute couple and you can tell Josh does care deeply for Eden. Her it was like a on-off again type love vibe I got from her towards Josh.

The ending was cute but it kinda of just ENDED and your left going BUT what about this or that you know. Some things were kinda just left unanswered but not enough to really draw attention to. But you are kinda curious. I think if nothing else a epilogue would of been nice just like maybe a year into the future cause that's the most unanswered question but its a good read would I recommend yes it's quick I finished in 5hrs happy reading everyone

Lauren - SERIESous Books says

I actually got this book from Kindle for free near the end of August. The cover and plot premise intrigued me enough to pick it up despite it only being 130 pages long. The page number is an important thing to note because I tend to avoid novellas whenever possible (unless they are a part of a series as a side-story/bridging story) because I find I don't like how quickly the plot progresses and I find I just end up unsatisfied.

After reading this book, I am a bit unsatisfied. I felt like it had started a little too slowly and then it ended rather suddenly (read: no epilogue). I just couldn't get into this book and when I finally did, it ended.

Josh was a hard character to like. At first, I thought he was a complete moron when it came to the English language; and then I realized that this book was set in the UK and not the United States like I assumed. Once I sorted that out it went a lot better. But Josh's character itself was hard to get a firm grasp on. The book is only told from his POV and as a girl, I find it hard to connect with a guy's mind at times. I'm all for the reformed playboy characters (they are my guilty pleasure) but I didn't find anything redeemable about him (though he got a bit better near the end).

Overall, I felt like the plot was missing a few dots in the flow. You can really divide the plot into two sets: the romance and Josh's everyday life. The romance happens quickly and rather unexpectedly. It was literally a BAM moment and he knew he was always in love with Eden. I really didn't get it so that threw me for a bit. Though I really did like the two of them together and I wish we got to see more of that in the book. The rest of the plot again just felt like it was lacking something. I think part of the problem was everything just starts and ends so quickly that there is a lot that doesn't reach its full potential. I also kept expecting some twists and turns but they never came so that left me disappointed.

Conclusion:

As a free book, this was a good book. Nothing overly fantastic but I enjoyed reading it. I just wish it was a bit longer and had a more developed plot because all the dots were there, they just needed to be strung together. Would I pay the \$3 on Amazon that it is listed at now? Probably not.

Jenny Miller says

While it was a different experience, reading a 'romance' from the perspective of the man, this book fell short for me. I didn't see a man discovering true feelings, or love blossoming - what I saw was a fickle man-whore. Nothing he said or any of his actions gave me that happy feeling that you get from a good romance. If it wasn't free at the time, I would not have read it, and I won't be reading it again.

Janell Wheeler says

Normally I fall into books, but not this one. It was ok. I enjoyed the ending and it had it's funny moments but for some reason I just never got into the story. It was a pleasant read and it was set in England which made it interesting with the spelling of words and some us of other terms I'm not totally familiar with but enjoyed none the less. The story just seemed to go so slow then all of a sudden it was fast and then over. Not a bad read, don't get me wrong I enjoyed it, I just didn't love it.

Stacy Lewis says

I had to make myself finish the book hoping it would get better. Joshua was just a lil too egotistical for me. Then it started to get good and then bam..it ended. Glad I got the book free.

Vickie* says**

3/5 stars

Despite the pretty low ratings the book got, I took a chance on this book. mmmmm, well I'm not unhappy that I read, but I would have lived if I didn't read this book.

Josh is a player. He knows this, embraces it, flaunts it. He's aware that he's hot, he's cocky. Usually when reading books about players, I only get a gist of their man whore past, I'm ok with that **TOTALLY OK WITH THAT**.

What I don't like is reading about his very present man slut ways.

The first half of the book is basically his lifestyle as a young hugh hefner. He manages to sleep with the girl that works out at the gym he works at. He slept with his father's girlfriend (13 years older than josh). I am a romantic, lovey dovey, person when I read. So reading about Josh sleeping with these 2 women IN DETAIL was awful for me

then **BAM** he had an instant attraction to his best female friend, Eden. He changed his ways pretty fast. Stopped drinking, sleeping around, partying... short story so fast connections.

Eden has also wanted Josh for a while now, but knows that he sleeps around so she just kept her feelings to

herself, to save her from heart break.

But they do get together pretty fast, that I was confused... They got to their "i love you's" real quick, that sometimes I had no idea if Eden still meant it as a friend, or i LOVE LOVE LOVE you as a lover

the climax of the story wasn't too big. (view spoiler)

I liked the second half of the book better than the first half, that's for sure. I didn't need to read about his sexcapades with women who were not his ummm.... true love. Eden.

*no cheating in this story between Eden and Josh
