Unforgettable Sun Kathryn Andrews

Matt Hale

I've never really been included. I've never felt like I truly belonged. But then again, how could I? Living on this island, I've seen and heard too many things. Lies. Secrets. Lies I've been forced to tell and secrets I've been forced to keep. They keep me locked to myself. They're the reason I stand on the edge of the horizon and watch from afar. Other people's lives have evolved, but not mine. It's exactly the same. Day after day, the sun rises, and every time its rays penetrate my skin, I'm reminded that no matter how desperately I don't want to be, I'm trapped. I want to live. I want to breathe. I just want to be . . . free.

Elle Summers

If I had my way, I would have walked off the catwalk and straight out of the public eye years ago. Never-ending contracts and obligations have kept me prisoner until recently. Now it is fear that has me trapped and running from my life. I'm now hiding in a tiny beach cottage in my mother's hometown, praying no one will find me. No one understands. The demands, lack of control, threats ... I just want it all gone. I want to escape. When do I finally get to be me? Free.

Megan ~The Never Ending Book Basket says

I am an ending person. That's my favorite part of a book because I love that end result. It's honestly why I love reading series so much, because if I get a phenomenal ending, an ending that just leaves me breathless and so totally in love with what I've just experienced, it makes me love that series and that ending book even more.

Unforgettable Sun was an extraordinary ending to The Hale Brothers Series by Kathryn Andrews. I don't think I could've asked for anything better, and while I am so sad this series is ending, I could not have asked for a more perfect book to close out this series of unforgettable books.

This last book and Matt and Elle's story just reiterated once again why I love this outstanding series, and why it is assuredly one of my all-time favorites. Each book that I've read in this series has completely blown me away with the level of emotion and feeling that flows from the page, the extraordinary characters I met that I won't ever forget, and their thoughtfully developed stories that pulled me in every single time I read them.

Matt and Elle's story in Unforgettable Sun is simply unforgettable. I've been dying to get my hands on Matt's story since I met him in Drops of Rain, and I was completely enamored by him in this book. Then to top it all off I got Elle's character, and she is just one of the most authentic and endearing characters I think I've had the chance to read.

I adored them both, and reading their story and experiencing all that they go through was nothing short of amazing.

Matt's character has always intrigued me, so I was beyond ready to get into his head and learn more about him. I was just enraptured by him throughout this entire book. Knowing his thoughts and feelings, and experiencing what he'd been through just made me care for and love his character more. It also broke my heart at times to read that darkness he faced, and reading his struggle made me want to reach in and make it better for him. But seeing how Matt handled that struggle, how he attempted to overcome it and fight through it just made him so remarkable to read.

Elle was a character that I just instantly connected to. She felt so real to me, and Kathryn Andrews creates her in such a way that just makes her come to life. Elle just screamed authenticity, and I found her character to be so relatable and easy to love. I also could not get enough of how strong she was, because like Matt she faces some pretty heavy things, but through it all she gives it her all to be exactly who she wants to be. I just loved how Elle faced and persevered through everything, and there was just such a vibrant beauty to her both inside and out.

Matt and Elle have a serious connection that sparks off of the page, and you will feel that the instant they meet. That connection builds and grows immensely over the course of their story, and it just heightens and solidifies everything they are feeling and experiencing together. You will feel the enormity and pull of their connection when you read their story. It will pull you in like a moth to a flame, and there's no way you won't feel that amazing and spark filled connection they share.

Both of these characters have past and present darkness that they're facing, but getting to know Matt's past

and what was haunting him just left me speechless. I had always wanted to know what was haunting Matt, and what led him to being the way that he was. What he goes through and what he had to experience just hurt my heart and made me so angry for him because of what he faced day in and day out. Reading Matt expose his past, being that vulnerable, and then in turn actually attempting to overcome it just left me in awe of him, and when you find out all he's gone through I guarantee you'll feel the exact same way.

There is so much wondrous fight in this book. Matt is fighting the darkness from his past that haunts him every day. Elle is fighting the negativity that surrounds and permeates her world, while also fighting against a very real kind of danger. Matt is also fighting against the feelings he just knows to be true, and Elle is fighting to help him realize that what they're feeling, what they could have is something exceptional. Something unforgettable. Reading all that fight just demonstrates the sheer tenacity of these characters, and that determination just defines this book and them in the most amazing way.

I love me some Hale Brothers. A lot. I've loved every book in this series because I've loved each of those brothers for the dynamic and distinctive people they are. Unforgettable Sun really just illuminates the depth of love these brothers have for one another. Those boys stole my little heart, and I think each of them are always going to have a little piece of it because they're just that spectacular and heart melting. They really are the best and this book gives you another little fabulous taste of them all.

Kathryn Andrews knows how to create a story with so many varied and thoughtfully crafted emotions and feelings. They flow throughout each of her books, and just make them the magnificent things that they are. When I read Matt and Elle's story I not only had the chance to step into their dynamic heads, I got to feel and experience and live everything they were. You feel their heartbreak, their pain, and their hurt. You also feel all their vulnerability, but you also get to experience their hope and fight and just all the amazing things that make them who they are. Having that kind of a connection and the chance to experience what they do with that level of emotion was extraordinary, and it just made me connect to Matt and Elle even more because of their fantastically layered and emotional story.

This book is all about being free. Being free of the past and the darkness it entails, free of other people and expectations, and just being free to be who you are. Being free to follow that sun, that light, and that happiness. Matt and Elle are both seeking that feeling of freeness, and the journey you go on with them as they push to be free is nothing short of wonderful. Kathryn Andrews adds that theme of being free into this story in such meaningful and beautiful ways, and I promise you are going to be enthralled by their journey and fight to be free.

Now I'm not telling you how this book ends, but just know that the ending for this book, for this series was everything I wanted and needed it to be and more. It will satisfy you, it will blow you away, and it will do everything in its power to make your heart oh so happy. Matt and Elle's story is one helluva journey, and it provides the most superb ending to a phenomenal series.

Unforgettable Sun and Matt and Elle's story exemplified everything that makes a book exceptional for me. Their story gave me the opportunity to feel with them, connect with them, hurt with them, and love them for everything they were and were trying to do. I wouldn't trade that experience in for the world because it allowed me the chance to truly connect to two authentic characters and their utterly breathtaking story.

Every book in this series has given me so many things. This series gave me the chance to spend time with 3 dynamic and captivating brothers with some seriously dark and twisty pasts, as they fought for that light they so truly deserved. It also gave me three beautifully written stories that exemplified what it means to give it your all in order to end up exactly where you need to be. This series gave me 3 unique, mesmerizing, and

meaning filled reading experiences that gave me it all.

This series gave me everything. Unforgettable Sun gave me everything. Matt and Elle gave me everything.

This book is just another shining example of Kathryn Andrews' phenomenal writing and storytelling, and as much as I wish this wasn't the end, what she gave me within each of these books is something I will truly never forget.

4.5 Stars..

I loved this story! I can honestly say that Matt Hale is my favorite of the Hale brothers. Matty's story is quite special. Your heart breaks for him, but it's such a beautiful story that held me captive until the end. Of course we know about Matt from the prior 2 books in this series, but we don't know much. He's the quiet shy boy. We experienced Beau and Drew's emotional stories, but I had no clue really what to expect from Matt's story.

Matt's story is one of growth, healing and forgiveness. To discover all that this young man had to shoulder as a boy was heartbreaking. He witnessed and experienced things no child should have to observe. In Unforgettable Son, this quiet boy, is now a young man. He continues to be quiet, and you feel a sense of loneliness and truly a broken man. I wanted to know his story and struggles, but most of all I wanted this man to be healed.

Elle Summers is a successful supermodel. Her life appears perfect on the outside along with her flawless appearance. But life is not how it appears. Elle is struggling with just being herself and not the fake person everyone loves. Elle escapes her model life and a possible stalker by renting a place on the beach.

Matt and Elle's paths cross which brings up old memories of an encounter they had when they were younger. I loved how Kathryn Andrews intertwined these two young troubled lives. Matt is living with past secrets that continually haunt him. Elle is a scared young woman, living a life orchestrated by others, including a crazy mother. While both are trying to get rid of the darkness in their lives, they find light in each other.

The storytelling in Unforgettable Sun is amazing. It's emotionally charged and pushes all the right buttons to make you feel. You not only get complete insight into Matt, but also a full connection to Elle. The chemistry between Matt and Elle fuels this story. The passion between the two brings out a sexiness in Matt that I never saw coming, but I loved! It's beautifully written, touching and definitely an unforgettable read.

I LOVE LOVE LOVE this series

When Matt's book finally came out I was excited

Out of the Hale brother's Matt was the one that I knew nothing about until reading his book... Beau and Drew's stories are strongly mixed together and Matt was just the younger brother in the story.

The book begins with a flash back and then you meet Elle... Elle is a model who is going through a rough patch in her life... her mother is a monster and she is dealing with something that scares her... so she leaves and finds herself at her aunts door step... In the beginning she is weak and a slave to what she has been taught... a prisoner in her fear.. dealing with health issues... oneday she slams into Matt..

Matt is a loner... who keeps to himself... you get to know what he has been going through.. he is so sad its heartbreaking... he loves his brothers but because they are older... and left him at a young age.. he has dealt with a lot of things alone... but he is still such a good guy... I just wanted to reach out and hug him so many times...

Matt and Elle.. relationship..

HEART BREAKING

These two are two broken souls that find each other and need each other but don't know how to be with each other... Matt.. a few times brought tears to my eyes.. the weight he has been baring at his age I couldn't imagine... but Elle snuck into his heart giving him hope..

Follow the Sun

I am finding it hard to put into words how I feel about this book.. I tend to get attached to characters.. and their stories.. we become friends n my mind... so when a series can capture me and keep me attached in all the books and then ends.. I feel like the friendship is over...

Matt and Elle's story was so well written... it mad me happy... sad... cry... heart skippin beats.. you name it.. it was an emotional roller coaster... I loved it... LOVED IT... I am sad to see these brothers go... but I loved the happy endings...

How I felt in the end...

Book 3 in the very brilliant Hale Brothers series. Although each book focuses on one brothers journey, it is important to read the series in order.

Elle Summers's is at the top of her game. An in demand Supermodel, she should be enjoying the life she leads in New York City. When letters start arriving, threatening her life, she starts to question her choices, the relationship she has with her pushy mom and whether this is her true calling in life. Controlled by those around her. She is told how to look, how to act and what to eat, so when the threats come closer to home, she decides to make a decision for herself; leaving her life behind to escape the dangers that close in. With a bag, her guitar and her cat, she makes the long journey to the only place she can think of, Anna Maria Island and her estranged Aunt, Ella.

Matt Hale lives his life in self imposed solitude. The youngest of three brothers, he has always felt different. Not only is he 7 years their junior but he also has a different father; the unwanted product of an affair. He shouldn't know this, and has kept it to himself since overhearing a conversation when he was 14. It is yet another secret he carries on his shoulders, and one that makes him feel the root of the horrific abuse that his family endured from their terrifying father. When you are told that you are a mistake so often, it sticks. Matt has no desire to form relationships when all they do is hurt you, especially when you are so unworthy of them anyway.

A chance meeting between these two damaged souls ignite dormant feelings for them both. Two lonely people who need to find their other half and who need to follow the sun and leave the darkness behind them.

WOW, I love this series and both Drops of Rain and Starless Nights featured in my best books of 2014. However, let me tell you now that Kathryn Andrews really has saved the best till last in my opinion.

This book is the culmination of the desperately sad story arc that has woven throughout each book. Each Hale brother has been effected by the rain of terror that was their childhood. Drew and Beau have managed to battle their demons and find their way out of the darkness that held them back, but I always knew though that the biggest battle would be Matt's. The deep psychological damage that was done at an early age has imprinted his soul, and the guilt and secrets he carries are a heavy burden for him to carry. Elle awakens feelings that he doesn't recognise. She fills a hole in his heart that he was resigned to except as his life. In turn he gives her a strength and fight that she didn't know she was capable of. It is a beautiful journey to read and has a breathtaking sincerity about it.

Both Drew and Beau will always hold a special place in my heart but Matt absolutely stole it. He is without doubt one of favourite characters EVER! The depth of character, the light and shade and the spirit that Kathryn Andrews has given him will grip you. The atmosphere that she has created for all the Hale brothers is tangible. Making this series one of the most emotional breathtaking reads you will ever pick up.

I asked for EPIC and she gave it to me it.

So with a heavy heart, I bid the Hales a farewell. This is one of my favourite series EVER! If I had to pick my favourite book of the 3 it would definitely this one. It is a breathtaking, but above all else, it is without doubt - unforgettable!

5 UNFORGETTABLE STARS

Wow, just wow... Kathryn Andrews you really blew me away with this beautiful story and ending to this fabulous series. You not only create beautiful, heartwarming stories, but you create characters and lives that we want to be a part of. Everything about this series is so real. It felt so real to me. You impressed me from Drops of Rain, Starless Nights and now Unforgettable Sun.

Every detail of this family is untold in the final book of the Hale Brothers Series. I'm really sad to see this series end. I really felt like I was a part of these people's lives. Kathryn's writing style is so beautiful, real and honest, that her characters are like your best friends.

I laughed; I cried and loved my way through this whole series. Matt, especially has a soft spot in my heart.

Matt Hale is one complex hero with many inner demons to deal with. Always the loner, always the one who felt left out and didn't belong. The quiet one and the one hardest on himself for all he has been through. He wants to forget his past but it keeps haunting him. He is surrounded by his own darkness until he understands what it means to "Follow the Sun".

Elle Summers is a super model and she is struggling with more than one thing in her life – It all seems a little fake. She wants to be herself, but feels that she can't - until her relationship with Matt develops. What a beautiful, complex, scared young woman she is – just trying to live her life the way she wants to. Not the way her mother wants it. Are there too many obstacles in her way? Can she really move on?

With so much going on in Elle's life, she just needs to get away. But will it help her heal? Will she be able to start over?

There are a lot of secrets that come to the surface and the drama unfolds one piece at a time.

Matt is just trying to make the most of his life on the Island. As an adult, he just wants to go about his business not bothering anyone.

Elle and Matt have this chemistry and bond that is there from the moment of their first kiss. OMG the feels in this book. Kathryn Andrews, you have a way of making me feel things for your characters.

This love story is not one simple ride. It has its fair share of bumps. It is trying and scary for both of them with everything they have going on. Truths are revealed, drama unfolds and all the things you wondered about from DoR and SN come to light as well as Elle's story.

This story was so emotional for me. Matt was so emotional. I felt for him and what he had to deal with from his past. My heart broke for him – it ached for him, but it also cheered for him when he realizes that he is better than his past.

"I like it when you smile," I say to him.

"Well, that's what happens when I kiss you. Can't help it. Want more smiles? Keep the kisses coming."

He is such a beautiful, torn up soul. He just needs to believe that he can be loved. Elle shows him this – it is with some resistance, but they get there. This is what I love so much about Kathryn's writing. How she brings her characters together.

It was breathtaking – this story – these characters, just beautiful.

Unforgettable Sun is a moving and touching read that left me racing through the pages for more. I'm really sad that it is over.

This series, these brothers – was just beautiful watching them finding themselves in their own stories was amazing.

I am so looking forward to what's coming next Ms Kathryn Andrews. Love your work.

You know that bittersweet moment when one of your favorite series' ends? It's wrapped up in a gorgeous little package, with all of the t's crossed and i's dotted, but your heart still hurts? That's me tonight. I'm not ready to let the Hale Brothers go. I. Just. Can't. Do it! As far as conclusions to a series go though, Unforgettable Sun was top of the line. It was emotional in the best and worst (not bad, just a bit painful) sort of ways, and it was everything I hoped it would be. Andrews absolutely did not disappoint.

I couldn't wait to start Matt's story. You fall in love with his character in the previous books, because he was so young and went through so much in his short years. Unforgettable Sun fast-forwards over time a bit, and you'll see him as an utterly broken man. It's heartbreaking, and you'll feel for him from the get go. If there's one thing above all else that Kathryn Andrews is amazing at (there are PLENTY of others though. She's a rock star), her ability to make you not only connect, but truly love her characters is it. You feel Matt's pain, isolation, and internal conflict. You're there with him as he tries to make the right decisions, and you'll feel it from the top of your head to the tips of your toes. Although most of the emotion will be right in your heart – demolishing it, mending it, and feeling the outpouring of love from Elle. I love that Andrews doesn't place an easy, plain heroine with Matt. Elle has her own issues and secrets, but she also feels...out of sort. Not in the right place. Unhappy with life. However you want to say it, but you see what I mean. Seeing these two sort their individual problems, with no shortage of hesitation and frustration but with the support and love of

one another is hopeful and so very beautiful. I just fell in love with these two together, as well as apart. They go through many trying times, but handle it exactly as you'd hope they would.

As always, Andrews is so classy, so eloquent, and her writing is flawless. In each story, she brings something new to the table but it always has that Kathryn feel. Unforgettable Sun is no different. She's so great at telling a story in a way that blends emotion, humor, and passion perfectly. She doesn't need an abundance of cuss words or overly detailed sex scenes. She can suck you in and leave you biting your nails from just the emotion on the pages.

And and and...we get to see Drew and Beau! Especially Beau. *Insert happy dance here!* Ah, my sweet, romantic Hale Brothers. I just love them so. You really dive much deeper into what Matt and Beau's relationship specifically entails. They really make for the most wonderful family, and their love and acceptance of one another shines through.

Overall, as sad as it makes me for it to be over, it ended perfectly. It all comes full circle, and questions that you may have had from book one or two will be answered. It's a whirlwind romance that will take your breath away. I'm so in love with Matt, Elle, and the entire family, and can't wait to see parts of their lives popping up in future books. I'm just not ready to let go. Good thing books can always be reread, so the Hale Brothers are here to stay. Whew.

Whoever reads this book must know this. If one of you ever meet someone similar to Matt I have DIBS!!!!

Damn it, because of Matt my boyfriend is suffering and he doesn't even know why because I couldn't say out loud that I cheat him all the time with Matt, in my dreams... Well even though Elle was a perfect match for him I still believe I would be a better much more perfect match... I know I sound crazy but that happens when you are parting with something you loved dearly.

I wish there were people like Elle and Matt. I really wish from my heart that Kathryn got inspired these characters from someone real (not their life but character). I wish I was more like them.

I am terrible at writing reviews there isn't any talented bone in my body but I can say this was an amazing journey. I hate when something this beautiful is over. It's worst than a breakup... I will carry Drew Beau and Matt with me (mostly Matt he was my favourite).

Ps: My expectations from Kathryn Andrews is really high... I pray to god every night that she surpass it and write me a new boyfriend. Amen :) READ THIS BOOK DAMN IT!!!!

Unforgettable Sun (Hale Brothers #3) by Kathryn Andrews
4.5 stars!!

“My heart was breaking because no one ever chose me. My life was and is a ground hog’s day of loneliness.”

To say that I have loved this series would be a severe understatement, I love it when I take a chance on a new author and they deliver. When I read the first book in this series I fell in love with Kathryn Andrews’ writing and three books later, I am still in love. All of these books have been emotional reads but I always knew that Matty’s book was going to be hard. Drew’s book killed me, Beau’s book damn near destroyed me and Matty’s is no different.

Matty Hale was always the quiet one, he hardly spoke, kept himself hidden and away from everybody. He had an incredible bond with his brother Beau and he would be the only one that Matty would open up for. I often wondered why Matty was the way he was, there had to be more to it than met the eye and knowing what kind of life Drew and Beau had endured you just knew that it wasn’t going to be pretty.

Abuse does not have to be physical, I think that mental abuse is often worse as the long term effects can be permanent and far more damaging and what Matty went through at the hands of his father was inexcusable. The head of the Hale family has been on my hit list for two books already and my opinion of him hasn’t changed in this book, I am just glad that he is not in their life anymore and his reign of torture is finally over for all of them.

Matty Hale, the young man that carries a wealth of burdens on his shoulders, family secrets that eat away at him daily and that are so bad they give him constant nightmares. A child having done and seen things no child should ever be exposed to all at the hands of a man who should have had his best interests at heart, a man who should have loved and nurtured him but a man who in fact used him as a means to an end. He was the bastard child, a result of an affair and something that his “dad” would never let him forget.

Matty had his escape mechanisms and I am so glad that he found the one friendship he did, a couple that took him under their wing and had a huge influence in the wonderful man that Matty was to become. While they had managed to set him on his way in life, they could do nothing for the guilt and self loathing that Matty carried.

“Every part of me inside is shattered. My soul is crying. My heart is bleeding. I was already a shell of a man before. I can’t fathom what will remain of me after this.”

However, there is a new girl in town, a girl escaping her own demons and a girl that Matty once shared a Summer with. Even though not many words were shared the fact that Matty never turned her away was a huge accomplishment in itself. Now their paths are to cross again, will she be the one to get Matty to open up and realise that what he shoulders is not his fault, will Matty be able to finally forgive and forget and live the life that he was destined to?

“She calms me. She steadies me. She saves me.”

Elle Summers is a super model with a multitude of problems, none more so than a stalker that is invading her thoughts and property at any given opportunity and an overbearing mother that is using her daughter to climb the social ladders and uses her daughter for fame and fortune under the guise of being her manager. When the stalker situation reaches a scary head, Elle scurries away to the only place she had ever felt safe a place where she hoped that no-one would ever find her, she goes to her Aunts on the Island.

“...there is only one way to be loved, truly loved, and that’s unconditionally...you are under my skin, in every breath that I take and permanently branded on my heart...I want to be bear you. I burn for you...”

Unforgettable Sun is one emotional read, you cannot help but be moved by Matty’s story and the fact that what he shoulders has a huge impact for all the Hale brothers. But this is a book about letting go of the past and living for the future. A story about finding love when you least expect it and letting yourself believe that you can be loved and you can love in return. We have two people both running, one from the past and one from the present, but together these two can run a marathon, they just have to let each other in.

“There are no do-overs in life. You get one chance and that’s it...it’s time to bury the ghosts and follow the sun.”

This was a fantastic read, one that I couldn’t put down. Once again another Hale brother has left me emotionally distraught but also with that feeling of hope. Children are more resilient than we think and I was so glad that Matty had the inner strength and the support of others to make him realise that he was an amazing person. He was a wonderful character who had a heart of gold and after reading his story it was hard to believe that he didn’t carry more permanent scars.

“Yeah, I’d follow that sun just about anywhere.”

Once again an amazing read from Kathryn Andrews, this is one of my all time favourite series and I cannot recommend it highly enough. If you haven’t met the Hale brothers you seriously need to.

This was the story for my soul. Matt and Elle were both trapped in lonely life dictated by others . Matt as unwanted child and Elle as a ticket to glorious life to her mother.

Broken,emotionally unable to open they found each other and fall in love.

I loved how family always takes care for Matt even if he thinks that is unworthy to be loved and after the big secret got out ,he is still "Little Dude". After Olivia ,I was thrilled to see how outstanding Elle became and how she put her self in the first place.

The whole trilogy of Hale brothers was emocionally and heartbreaking read but to me was also a view of how you can stand up and fight for your life,love and family.

Absolute amazing trip!

This was an enjoyable read.

It was good to see how Matt turned out, and the relationship between him and his brothers was nice.

I liked Elle, and I felt really sorry for her for what she was going through.

This was another good read in the series, which had a few twists that I didn't see coming.

Will definately be reading more from this author in the future.

You know when you've finished a book that was truly special and will stay with you for an eternity, because you've been glued to the same spot, reading away for hours. When you do finally close the book, those hours melt and feel like seconds, and you wonder if you should just start reading it all over again. To say that I loved this book would be an understatement. The story is engaging, the characters are beautiful and the book is a perfect finale to what is a fantastic series. Kathryn Andrews is a magician, and her words are her magic. Really, who doesn't want a little magic in their lives. 5 spellbinding stars.

Kelly 'Perusing Princesses blog' says

5 mesmerising, bright and beautiful stars, I mean...stars. See what I did there. ;)

I knew Matt's story was going to be emotional. The quiet boy who carries the weight of the world on his young shoulders is harbouring a lot of pain and many hidden secrets. He was always different, the boy who longed to belong, while watching his Brothers endure the violent wrath and hatred of their Father, as they fought to protect him, the baby of the family, the bastard son who was a mistake. Unwanted. Ignored.

Behind the quiet and distant exterior, Matt is now a man making the best of things on the Island he calls home, but it's not until a beautiful face from Summers past comes stumbling back into his life that Matt has to face, head on, his biggest fear of all... opening up to the possibilities of something more. Keeping his distance and a lid on the past just got complicated, when for the first time he has the desire to let someone in.

Elle Summers is a supermodel with a huge problem. Well... make that three. None more so than the stalker that haunts her every waking moment, and a superficial Mother who regards it as a perk, part of the job at being one of the most beautiful and respected faces in the world, but Elle feels nothing. Her world is about to implode and running back to her Aunt Ella's on the Floridian Island where she spent one of the best summer's of her life is the only place she wants to be right now.

Renting a cottage by the sea is just what the doctor ordered, seeing him again is an added bonus, but allowing Matty into her heart was not something she had planned.

Two people running; he from the past, she from the present, but together, can they find their way home?

Unforgettable Sun is a beautifully profound, emotional and stunning read that had me flipping pages into the early hours. Matthew Hale is such a complex character, with so many demons you can't help but still feel angry at the injustices of what he, Drew and Beau were subjected to by their deranged Father. Whereas Drew and Beau were older and closer in age, Matt always felt alone. The only one who really protected him was Beau, and even then he was still a child himself.

Matt has secrets about their Father, something so big, that it could destroy everything, and the guilt is eating him up inside. This is where the real angsty emotion kicks in because Matt has such a sweet soul, and you just want to hold him. Whereas his Brothers are strong and have taken real strides in overcoming their past horrors, Matt hasn't. He holds that weight, and denies himself freedom. Choosing to stay numb.

Elle may be a successful supermodel but her smile for the camera is fake. Deep within lies a tumult of loneliness and despair. She is sick of living in the shadow of her jealous attention-seeking Mother and just wants go back to basics, and find herself.

This is where Elle and Matt really work. They come together when both least expect it but need it the most. Watching them succumb and open up was a beautiful thing to behold. To watch them dance around together in fear and uncertainty but in perfect synchronised harmony is the only way I can describe it. Unforgettable Sun took my breath away and robbed me of my heart. I am in irrevocable love with this series, and the Hale Brothers, but Matt just took this princess' crown.

Follow the sun, feel the warm air on your skin, let it in, and it will set you free.

Read this series!!!!

Carla says

5 Huge and Heart warming stars for Unforgettable Sun, the third book in the Hale Brothers series, by Kathryn Andrews!

I fell in love with Kathryn's writing when my friend, Stephanie, asked me to read and review her debut

novel, Drops of Rain. That love only increased with the 2nd book, Starless Nights along with this final installment.

Matt is the youngest of the Hale brothers, and his story is one of despair as well as inspiration. Matt has carried a horrible secret for most of his life, and that secret has led him to believe that he only deserves a life of loneliness and desperation. However, this all changes when Elle Summers makes a reappearance in his life. How best to describe Elle? She is simply beautiful. She possesses both inner and outer beauty. Elle has been used and criticized by her mother for years. When she finally reaches her breaking point, Elle returns to the only place she has ever felt at peace, her aunt's home on Anna Maria Island, Florida. As a child, she thought Matt Hale was cute, but when she sees him years later, she realizes what an incredibly handsome and sexy man he has become. She and Matt share an instant attraction, and after spending some time together, that attraction turns to love. Do they automatically find their happily ever after? Heck No!! Matt is still struggling with the secrets from the past. To sum up Matt's situation perfectly, I need only to use a quote from the book made by Leila to Elle. She says that "Matt has to let go of his past, so he can find his future".

I swear this has to be one of the most beautiful and touching series that I have ever read! In each book, Kathryn will break your heart only to end up putting it back together in the end, If you haven't read these books, do yourself a favor and one click them now!

**On a side note, this book touched me in a special way. You see Elle has an illness, and with each new symptom that was revealed, she sounded more and more like me. Imagine my surprise when it is finally revealed that Elle suffers from Rheumatoid Arthritis! I have lived with this terrible disease for over ten years now, and with the way Kathryn described not only the symptoms but some of the medications that are used to treat it as well, it is obvious that she either knows someone who suffers from this disease or she did a heck of a lot of research on it! Thank you, Kathryn, for shedding some much needed light on a disease that few people understand. :)
