## A Season in Gemini Victoria Danann

Garland St. Germaine had way too much fun celebrating graduation from Dartmouth with her sorority sisters. They had, apparently, managed to singlehandedly revive Dartmouth's reputation as the rowdy Ivy League institution. As a result, Garland's father had given her a choice of accompanying him on a three month business trip to Austin, Texas or finding a substitute for the lavish lifestyle her allowance provided. After several tantrums unworthy of a college graduate, she left Park Avenue wearing sunglasses and a huff, and got on the company plane bound for the Yellow Rose Country Club and Resort. She was sure there had to be more to life than an adult version of being grounded.

Brant Fornight had made up his mind that he wasn't interested in the life his dad's motorcycle club could offer him. He wasn't overly interested in money, especially not if it came with the risk of a prison sentence. He thought of himself as a simple guy even though he often pondered some of the great philosophical questions while he worked as a mechanic. He liked working with mechanical things and hadn't needed a formal education to do that. The Sons of Sanctuary had topped off the natural born talent by mentoring and letting him work on their vehicles.

After high school, he drifted from one Austin repair shop to the next, accidentally improving his resume with each move that earned a better title and more money. When he was twenty-four, he took a job as Head Mechanic at the Yellow Rose Country Club and Resort. It never occurred to him to wonder if there was more to life.

## **From Reader Review A Season in Gemini for online ebook**

### **Epiphany says**

This book is the first book in a new series for Ms Danann. It is a step away from her paranormal series Black Swan Knights. This book does not have vampires, werewolves, witch's or demons. However it does have a hot, sexy, gorgeous couple with a zest for life and each other. I loved this story line and did not stop reading until I came to the very last word in the book. I can't wait for the next part of this new series. Victoria Danann has out done herself and proved not only is she a fabulous author but she has the talent to cover different genres.

### **Terri says**

I wasn't sure if I would like this genre, but Victoria's view on this world made me a fan!

Ms. Danann hits a home run with her first at bat into contemporary romance. She has a way of drawing the reader into the story so you feel as if you are right there observing (or maybe even being part of) what is going on. Garland could be the poster girl for spoiled rich kid; Brant is just trying to live his life outside of his Dad's motorcycle club. When these two meet their lives change in ways neither could have thought possible.

There is a cliffie; but have no fear book 2 in the Sons of Sanctuary will be out soon!

Loved Loved Loved this back story! I wanted more of these two. Great set up to the MC stories to come. Can't wait to read about the two princes. Love the addition of this genre to Ms Danaan's paranormal work.

This book made me laugh, cry, made me want to throw it at the wall and while giving everyone in the book a hug. This book showed that sometimes reality is what you make of it! I look forward to the next book in the series because I want to see how everyone is doing as life changes for them all and they figure out how to put one foot in front of the other and make hard decisions! Victoria is one of the few writers who can draw her readers in and get them emotionally invested in what is going on in the book!

### **Janine - The World Was Hers for the Reading says**

A Season in Gemini is a break from Victoria Danann's typical genre of PNR, but was just as well written as usual, with fantastic characters that leave you wanting more!

It is an introduction to her new Sons Of Sanctuary MC series. It is a great summer love story of Garland, a just graduated from college socialite from a well to do family and Brant, a small town mechanic and son of a biker. While it seems like these two are world's apart, their fates collide in spectacular fashion with sparks flying!

Please note, while this book can be read alone, it does tease of the story to come in TWO PRINCES: The Biker and The Billionaire (Sons of Sanctuary MC Book 1).

A Season In Gemini (Intro to Sons of Sanctuary) - This story really shows both sides of the fence so to speak. One woman that comes from corporate money and one man that comes from dirty money who wants nothing to do with it. Garland is a woman who gets what she wants when she wants it until her father puts a halt to it and giving her an ultimatum. Brant is a man who gets what he wants but gets it honestly instead of following in his father's footsteps. When Garland and Brant come face to face they both want each other. Garland sees a bad boy that she knows her father will hate and Brant see a spoiled woman but as they keep bumping into each other the friendship grows and they learn a lot about each other. This story is filled with so many surprises and sucked me in straight from the first page. Victoria Dannan, as always, brought me into

her world and she hasn't let go yet.

I just loved this. Driving to my Dad's house. I talked the whole 45 min drive about this book. My husband just kept grinning. He loves it when I get really excited about a new book.. It was a beautiful 80 degree day here. There were a ton of "Bikes" out. I noticed at one stop light. In my rear view mirror I saw a young women rubbing the abs of her biker man. I just had to smile! Not giving away any spoilers but you will see something similar to this in the book. This book took me back to my twenties. It is so exciting to read a new book by a favorite Author. I Love a sexy Biker story. This has all the elements that we look for in a great romance. Please do yourself a favor & get your copy now. It is so good I have already read it 2 times. It really is a fabulous read... From a Forever fan... Pam James

### **Nelta says**

I have been an avid reader of Ms. Danann's paranormal romance series and when she decided to test the waters of romance with a motorcycle club influence, I was excited! I found myself reminiscing of summer romances in the past, where the weather was hot and the romance was even hotter. Stepping inside this book filled my head with notions of black leather, air hitting my face as I wrapped my arms around the hunk and my legs around the rumbling beast as we fly down the highway with not a care in the world.... The main characters in this book are well written and lovable and some you may find yourself disliking. I sooooo look forward to the next book in the Sons of Sanctuary series.  
Bravo, Ms. Danann!

Touchy but no feely...

This was a short prequel to Two Princes (Sons of Sanctuary MC). It is the back story that lets the readers know how there came to be two princes who were unaware of each other's existence. I enjoyed the story and I'm greedy for more, it was just enough for me to whet my whistle. I have sooo many questions now. I also have a strong opinion about a certain someone who failed my badass biker chick aptitude test. I'm looking forward to more Sons of Sanctuary and will be moving directly into Two Princes now.

**Rebecca Goss says**

This reads rather like a fairy tale. The reader begs for a happy ending for this unlikely couple. The continuing books will hopefully tell us more.

I wasn't sure what to expect when I heard Victoria Danann was trying out a contemporary romance story. I genuinely enjoy everything she has written. She introduced me to a whole new side of her work and I enjoyed this just as much. I found this to be a delicate romance with high emotions. This has me very interested in seeing what's to come in Two Princes.
