## From Reader Review Coupling Two for online ebook

### **Jessica Alcazar says**

\*\*\*Received the book for free through Goodreads First Reads.\*\*\*

I have to say, these short stories were thoroughly amusing! I don't think I've laughed so hard when reading an 'erotica' book before.

The only story that was just way to weird and out there for me was the cat story. But that's just a matter of taste, not writing.

### **~ Lei ~ Reading Is An Adventure ~ says**

Like any anthology, there were standouts and others that were good. This anthology is about couples and how they make their sexual relationship work, fulfilling each other's needs, desires and fantasies. Maybe one of these stories is you and your partner? Enjoy!

My standouts:

The Dirty Show - Selena Kitt:

Janie (Baumgartner) and Josh are celebrating their 10th anniversary in that special Baumgartner way - They've invited a number of men to come celebrate with them at an empty warehouse.(view spoiler)

Midge - Wilsin Rowe:

Marcus has had a bad day at work and has asked his wife, Jen, if her alter-ego Midge can come out to play with him when he gets home from work. (view spoiler)

A better than average anthology. Check my tags for content.

### The Flintstone Experiment

I received this from Selena Kitt in exchange for an honest review.

So here goes.

I have to say I really liked the basis for this story. So many times I have had friends come to me with the problem that their husband just doesn't understand what they want and that they don't trust them to make the right decision.

This is the problem with Rick and Laura. So Laura, decides to drag her husband to a relationship seminar weekend, without telling him that this is the last straw.

Communication is key people!!! We find out throughout this book that Rick does care and he does want to help Laura, but like all men "he isn't a fricken mindreader!!".

So I liked this story, with it's real problems and a sexy resolution. It's nice to read about "real" problems for a change and of course I love reading about relationship dynamics. This one was done really well.

3.5 stars from me.

### The Cat Lover

This one had me totally confused. I am still not sure if I understand what happened (view spoiler)

Anyway because of that confusion I give this one 2 stars. The kinky cat sex was really strange for me.

### The dirty show

Holy shit!!! wow, wish my husband would do this for me every anniversary. Dirty show really is that, a dirty show a husband and wife team put on to keep the thrill going in their relationship.

Orgy style, but only the husband is allowed to have actual sex with her.

3 stars.
