Crux Untamed Tillie Cole

ONLY BOUNDLESS LOVE CAN SILENCE THE WHISPERS OF THE PAST . . .

A broken woman.

A damaged man.

A free spirit intent on saving them both.

Elysia ‘Sia’ Willis lives a solitary life. The only person in it is her big brother, Ky, vice-president of the infamous Hades Hangmen. She loves him, but she has absolutely no love for the outlaw MC he belongs to. Raised in secret by her mother, Sia grew up separated from her brother and distant father. No one knew she even existed.

After the tragic murder of her mother, Sia spiraled into a rebellion against the rules of the Hangmen. A rebellion with dire consequences that now, years later, she still can’t escape.

As she lives once again in secret, happy on her own at her secluded ranch, a devil from her past comes calling. A devil who wants to possess her once again and take her from the simple life she never wants to lose.

And he will stop at nothing to collect what he believes is his: her.

Valan ‘Hush’ Durand and Aubin ‘Cowboy’ Breaux have finally found a home in the mother chapter of the Hangmen. The notoriously private Cajun twosome have, for now, put aside what chased them from their beloved Louisiana. But as threats toward the club build, Hush and Cowboy are given a task—protect Elysia Willis at all costs. Cowboy welcomes the job of watching over the blond-haired, blue-eyed beauty.

Hush fights against it.

Scarred by events from his past and a secret that plagues his everyday life, Hush refuses to let anyone else get close. Only Cowboy knows the real him. Until a certain sister of the club’s VP begins to slowly knock down his defenses, shattering the heavily built walls that guard his damaged soul . . . with his best friend leading the charge.

As lost and open hearts begin to meld, taking each other from indescribable pain to the never-before felt relief of peace, the newly-mended threesome must first endure one more rocky path.

Only then will they finally shake free of the shackles of their pasts.

Only then will they shed the bonds that have for too long held their happiness captive.

And there is only one way to survive that path . . . together.

Dark Contemporary MFM Romance. Contains scenes of violence and sexual situations. Over 18’s only.

Christy says

4.25 stars!!!

Crux Untamed is the 6th book in Tillie Cole's Hades Hangmen series. This is one of those series I hope never ends. Tillie writes these books with so much heart, passion, and intensity. This book is a little different than the rest, as it's a MFM romance and it strays completely from the religious cult aspect and starts to delve into other things.

This story is about two best friends, brothers, and Hades Hangmen, Cowboy and Hush. Cowboy and Hush couldn't be anymore different, but they are family to each other. They've got each others backs. Their bond and history go back much deeper than most of the Hangmen's. These two brothers with their Cajun roots have intrigued me since I first met them. I didn't know how their story would work, but when Sia came into the picture, it all fell into place.

Sia is no stranger to the club life. She grew up in it. Her brother, Ky, is VP of the Hangmen. To say she is not a fan of the club... that would be an understatement. When someone from her past comes back to haunt her, Ky will do whatever needs to be done to protect her whether she likes it or not, including Cowboy and Hush to her ranch to keep an eye on things.

The brothers are under strict orders to watch over Sia, but under no circumstances are they allowed to touch her. Their attraction can't be denied, though, and soon enough the romance between them starts to bloom. I know this seems like a very unconventional love story, as it's between three people, but somehow it worked. I loved these three together and I couldn't imagine them being a twosome in any way, shape, or form.

No selfishness. No jealousy. Just love.

My favorite part of this book was that it gave me all the feels. Hush is one of the most complex and beautifully broken characters Tillie has ever written. His back story completely gutted me. I understood why he felt the way he did- unworthy. And I loved that these two worked to pull him out of that mind set.

“Don’t worry, cher, we’ll wear Hush down together. Get him seeing things our way. His walls are high, but I reckon we can smash through them if we try hard enough.”

?It wasn't just Hush that had a rough past, Sia's past was emotional as well. And Cowboy? Cowboy was the loving, sweet man who would do anything to help them both heal. He was selfless, loyal, and pretty perfect for the other two. I adored all three of these characters! ??This story broke me at times, but by the end, it healed me and put me back together like only a Tillie book can. I love this series so much and *Crux Untamed* is a fantastic addition. Intense, powerful, sexy, and emotional with flawless writing to top it off, this is a must read!

Grecia Robles says

*** 3.5 *Love Doesn't See Color* STARS ***

PopSugar Reading Challenge 2018 3. El siguiente libro de una serie que ya has comenzado

When I knew I liked them both, my biggest fear had been that I'd be drawn to one more than the other. Was my heart designed to allow only one in? But as I lay there, kissing both these men who'd so captured my soul, I realized that a heart is infinite. Love can expand and expand. My heart could hold as much as I was willing to let in.

Tuve que volver a escribir esta reseña porque cometí un error y no la guardé, esta será resumida ya que todos los feelings que me dejó al finalizar pues ya no son los mismos. Aun así voy a intentar dar mi opinión.

No es novedad que Tillie Cole me encante, es mi autora favorita y que espero sus libro con ansias y más esta serie que le tengo harto cariño y que cada vez que termino un libro nuevo de los Hangmen vuelvo a la cuenta regresiva para el siguiente.

Esta serie se ha caracteriza por ser bien dark shit and fucked up, y que si ya llegaste a este libro es porque tienes un estómago súper fuerte y eres bien hardcore

Este libro ha sido el más light de lo que va la serie o será que ya me hice insensible aunque no lo creo, no pasaron tantas escenas traumizantes, fuertes o explicita como a la que estamos acostumbrados y yo que venía bien mentalizada para soportar estas escenas y tampoco es tan pesado emocionalmente como el de Rider.

►HISTORIA

Esta historia en sí es más de sanar, curar el alma rota, quitar la oscuridad en la que están sumidos dos de los protagonistas y de cómo su felicidad no está limitada sólo en querer a una persona, sino que es igual de válido querer a dos y que los tres juntos se complementen.

Como todos los libros de esta serie trata temas controversiales y a la vez tan reales, de la parte más cruel y perversa de la humanidad, como la trata de blancas en este caso y el racismo que es uno de los temas principales como la gente puede llegar a cometer actos atroces por una idea equivoca que por su color de piel son superiores.

►PERSONAJES

Los personajes principales me gustaron Sía con esa gran valentía que a pesar de todo lo que le pasó a manos de Juan pudo seguir adelante aunque tiene heridas difíciles de curar tiene miedos y trauma profundos que gracias al amor de Cowboy y Hush pudo sanar.

Hush es el que no me gustó del todo, le faltó algo, sé que era un ser dañado que le pasaron cosas muy feas y sobre todo su enfermedad que por ser un miembro de un MC es una gran debilidad, pero aun así fue muchas veces cobarde y autocompasivo siempre la víctima y eso me cansó.

En cambio Cowboy es mi PERSONAJE FAVORITO de este libro y de lejos el mejor de los protagonistas, es un personaje tan bonito porque él no tiene un pasado traumático y trágico, él pudo haber tenido una vida de ensueño y de éxitos pero él sacrificó todo eso por Hush, abandonó su vida y sus sueño por su amigo hasta sus prácticas sexuales **él es el amigo que uno debe tener en su vida y que rara vez encuentras**

"And you, Cowboy, are the light that chases away the deepest darkness within us when it begins to creep in".

Me declaro Team Cowboy el chico me conquistó con su lado alegre, relajado, protector siempre queriendo el bienestar de los que ama y su francés cajun me terminó de enamorar sólo por él voy a dejarle las 4 estrellas

Y en cuanto a su relación como trío no me gustó, a mi me gusta que se quieran por igual entre todas las partes, pero siempre sentí que Cowboy era la tercera rueda, cuando Hush y Sia estaban juntos se olvidaban de él y es tan injusto porque si no fuera por él su relación no existiría en fin me dejó muy insatisfecha.

Yo me imaginé que el tema central de la historia sería Sía y su relación con el narco mexicano Juan García y el gran drama que se espera cuando la encuentre pues me voy a quejar porque eso fue tan apresurado (view spoiler) siempre espero que las escenas de acción sean épicas una gran matanza, gore pero nada más alejado de la realidad y me decepcionó, la escena extra tuvo todo eso que a esta batalla le faltó, si es que se le puede decir batalla

Y la volviste hacer Tillie WHY???? I'm so fucking mad Siempre esperas que la muerte del villano sea de lo más cruel, sangrienta y dolorosa QUE SUFRA EL MALDITO, pero no porque Tillie les da una muerte misericordiosa te falla Tillie te falla, tienes al psycho trio y lo desperdicias.

Aunque el libro me gustó más que el de Ky, le faltó mucho a lo que nos tiene acostumbrados, tal vez lo hizo así porque veníamos de un libro tan intenso y crudo como el de Ak pero bueno y hablando de Ak **ese hombre me fascina cada vez que salía me calentaba las venas GRRR I FUCKIN LOVE HIM**

Ahora si esperar el libro de Tanner y cruzar los deditos y rezarle a Hades para que Tillie nos dé una batalla épica, con el psycho trio en acción todos liderados por mi fuckin prez FIN.

PD: BY THE WAAAAY Viking en modo fanboy por el biker inglés fue muuy sospechoso HAHAHA... me encantó que Tillie incluyera a un british

4,5-5 stars

This was one of my most anticipated books for this month! I couldn't wait to start it since I was curious and excited to see what will happen in this one! Crux Untamed is an intense, passionate, super hot and emotional story! My heart was aching for Hush, Cowboy and Sia! This series is by far my favorite series with bikers!

"Three sets of blue eyes, all different. All who have walked different paths... All who have seen the full spectrum of life-the good, the bad, and the ugly."

This trio stole my heart, I loved each one of them apart and all together! Hush has become one of my favorite men in this series! He is tortured and sweet with Sia but in the beginning he tries to hide his feeling for her. Sia is very strong and sassy heroine! I really like her, she reminds me a lot her brother Ky! Cowboy is so different from Hush, he is fun, lighthearted and sexy all the time! They were perfect all together, I couldn't imagine them differently! Sia could give them what they needed!

"We lived a fucking strange life, but with Sia, I was sure there was at least a chance we could be something more."

For one more time Tillie Cole managed to captivate me with her words and touch me with her story and these unique characters! I love this world so much!

AleJandra says

3 MEH STARS

Este libro y yo no conectamos.

Primero BRAVO al diseñador de la portada. Sia se ve hermosa y desoladora. Me encanta que pusieron a Hush y Cowboy al fondo, y ahora que ya leí el libro, entiendo el porqué de la casa en llamas.

Me tomo meses leerlo, y aunque ya lo termine creo que nunca llegue a engancharme, siento que lo termine por pura inercia, por el cariño que le tengo a todos los demás personajes y no porque realmente me importara saber que pasaba en la historia.

Sin duda creo que es el libro mas flojo de toda la serie, a pesar de tocar varios temas fuertes, no llega a profundizar mucho en ellos, porque trata muchos temas en muy poco tiempo.

Esta tan sobrecargado, que todo se siente amontado y no llegamos a sentir las escenas más intensas. Aunque para mi el principal problema de este libro es que ya no estamos lidiando con el Culto. Creo que desde los Hades dejaron de pelear con el culto, la serie ya se ha vuelto demasiado genérica, la guerra con el cartel es un tema tan manoseado que aburre, la serie ya se volvio igual que otra docena de series de motocilcistas.

Siento que parte de la esencia de los Hades, ya se perdió.

Pero hablemos mas directamente de Crux Untamed:

SPOILER ALERT

Tenemos 3 protagonistas, Sia , Hush y Cowboy. Se conocen, se enamoran, se fukean como conejillos, pero realmente no sentí su conexión.

Las escenas eróticas son muy meh, yo venía con la idea de que Hush y Cowboy eran bisexuales, y que no lo fueran sin duda me bajo la emoción.

Ky que es uno de mis personajes favoritos, aquí se portó como un completo patán, sexista y termine odiándolo.

Lo mejor sin duda fueran las 3 líneas de Maddie.

Otra cosa que me molesta inmensamente es que siguen desarrollando con pequeños detalles lo que será la relación de Mi Little Ash con Saphy, lo cual me molesta exageradamente. No soporto que vayan a emparejar a Ash con ella.

“Whatever you do, Ash, don’t lose that sweetness you still got within you. Don’t let Hades pollute it with the kind of darkness he can bring.”

En conclusión: No disfrutar un libro de Tillie Cole, aburrirme con una de una mis series favoritas es el gran plot twist.

Este libro se va a mi lista de decepciones del 2018.

*******FIVE STARS*******

{ARC Generously Provided by Author}

"Three sets of blue eyes, all different. All who have walked different paths..." My heart beat so fast at how we were all here together. *"All who have seen the full spectrum of life—the good, the bad, and the ugly."*

The **"HADES HANGMEN"** is not only my favorite Tillie Cole and MC series, it is by far, one of my top favorite series of all time. I've said it before but it's because of my love of the *"Hades Hangmen"* that I became a blogger three years ago. Each book has been a gem for me. So many of these men have captured my heart over the years and I have to be honest I was worried about this latest book. I honestly didn't know what to make of Cowboy and Hush. They were always in the background of the previous stories and never really piqued my curiosity. My fear was that this was going to turn into an MM story somehow because of all the jokes about the two being lovers. I knew that there was going to be a ménage and I worried that the two Heroes would end up having some sexy times between them! I am happy to report that **DID NOT** happen! This actually surpassed my wildest MFM fantasies! I may have to reevaluate my ideal HEA because it appears that two men are **DEFINITELY** better than one!

A dangerous man from Sia's past has been seen in the area and it has her brother Ky and Styx on **HIGH ALERT!** She refuses to stay on the Hangmen's compound since she loathes their way of life and still harbors hatred for their deceased father who mistreated their late mother time and again. Sia's life has been filled with loneliness and her need to be loved had her choosing the wrong man to give her heart and trust to. That time with him nearly destroyed her. It's been years since she was in that living hell and the only comfort and solace she finds is living in her little ranch and being with her horses. Ky orders Cowboy and Hush to stay at the ranch with Sia to keep watch over her. He also threatens to kill them if they try to make a play for her. He doesn't seem to realize that there is some kind of attraction building between the three of them.

Out of the three, Cowboy is the one who hasn't suffered a horrific past like Sia and Hush have. He sees the two as kindred spirits. He also can't help the feelings that seem to grow with each passing day for Sia. The dynamic between the three flowed naturally. There wasn't one tiny ounce of jealousy that ever reared its ugly head in their relationship. It just felt like it was *"Right"*...that the three were made for each other. The steam level is high and when they engage in sex it always felt like it came from a place of love more than lust. It never seemed dirty or wrong, but rather natural. Hush and Cowboy were two best friends who loved

and were loved by one incredible woman. Sia, Hush, and Cowboy find the peace and tranquility with each other that they've yearned for all their lives.

Happiness always comes at a price for the Hangmen. If you've been keeping up with the series then you know there's always some bad mother f'ers who always threaten the Hangmen and their loved ones and since we've got three leading characters in this story, you better believe there are enemies coming from every direction! Let's not forget they are entangled in a forbidden romance as well!

Will Sia, Hush, and Cowboy be able to live out their lives in blissful happiness when there are so many people out there that are against their union???

Here are my overall ratings:

Heros: 5

Heroine: 5

Plot: 5

Angst: 4

Steam: +++++

Chemistry Between Heros & Heroine: 5

Wendy says

Gah...this book destroyed me... in the best of ways of course !!! It was absolutely awesome !!

I have been curious about Cowboy and Hush, my favorite cajun twosome, ever since I first met them. And I have been a bit in love with them just as long ;)

I expected their story to be great but I got so much more than I expected... Now Tillie has asked for spoilerfree reviews, so I am gonna be a bit vague and avoid any major spoilers I'm sorry (not really) but I agree that reading them without any big spoilers is much more enjoyble ;)

No worries.... I won't leave you completely hanging though....

Cowboy and Hush have been best friends for a very very long time. With the **Hades Hangmen**, they finally found a place where they feel at home... They're really close and they are known for doing everything together. Lot's of speculations about the two of them going around at the club :P

What they also have in common, is the fact that both of them have caught the eye of Sia "Elysia Willis".

Those of you who have read each and every single book, like I have, know that Sia is Ky's sister. Sia has a dark past of her own....one that keeps her safely tucked away on her little ranch. She doesn't come out to the club very often and when her past comes back with a vengeance, she chooses Cowboy and Hush to come home with her, and protect her....

Cowboy is his excited self, and can't wait to go home with the beauty, that has been on his mind for some time now... Hush feels a bit different though... He is dealing with a very heavy past and lots of secrets. He might want Sia...but that doesn't mean he is right for her...

A broken woman.

A damaged man.

A free spirit intent on saving them both

Oh how true these lines are, and oh how Cowboy made me proud trying to be the savior of two broken souls.... He was definitely the best that could have happened to both of them.

While at the ranch, these three become closer and closer. It doesn't take Sia that long, to realise she has fallen in love with both men.....and for them to return her feelings..

No selfishness. No jealousy. Just love.

But Hush never quite opens up, and when the past finally comes knocking at their door....all bets are off and they will have to fight for more than just their love for each other !!

"Kärleken ser inte färger. Bara rena hjärter"

"Love doesn't see color. Only pure hearts."

I cried so much during this book...it broke me. I want to thank Tillie for at least making sure I was put back together again before the end...

I also want to thank her for Ky ;) He has always been my favorite and he never fails to make me laugh, which I very much appreciated in this case :P

"It's the thought of those fuckers double teaming you that makes me see red..... All I see in my head whenever you three are mentioned is a conga line of pussy, cocks and assholes. It's fucking with my head!"

I highly recommend this series to anyone who doesn't mind their romance coming with a bit of darkness ;)

My reviews are posted on DirtyBooksObsession

Alison says

Pleasssee let this be Sia with both Cowboy and Hush!!

Val Shameless ?? Steamy Reads ?? says

3.5 - 3.75 Stars

I love Tillie Cole and I adore this series.

Hush and Cowboy were amazing together in this one and I really liked Sia too.

However, I must say that it was weird reading a book where one of the love interests is referred to as "Val" sometimes and another as "Sia." Obviously, Val is MY name and one of my nieces is named Sia. So...yeah.

It happens to us all at one point or another, I would imagine. There are only so many names out there and all that jazz.

Not that big a deal, I just thought it was funny.
Moving on.

This book.

I truly did enjoy it, BUT...

Not gonna lie, I didn't love this one as much as I have loved past series offerings.

I'm not sure if that had to do with the tripod of a relationship we had here (although I don't *think* that's it) or if I just felt like I didn't truly get to know the characters as much as I would have liked to.

I *do* know that we didn't get as much MC as I would have liked in this MC book.

I felt like these three characters kind of existed on their own separate little island and just weren't that attached to the MC in general. Most of the scenes occur on Sia's ranch or in flashback.

Even though Cowboy and Hush are technically MC brothers, they just didn't really have as much interaction with the Hangmen.

But it's all good.

Fans of the series will definitely enjoy this one, so long as they don't mind the aforementioned tripod.

I'm definitely looking forward to the next book. I think it's supposed to be Tanner's story.

I also hope that we get some more "check-in" time with some of our previous characters, another thing that I felt was missing from this book.

But all in all, a solid read and a solid addition to the series.

Eda # Dax Lahn's Golden Tigress # says**

**** 3.5-4 "beautiful writing, meh plot+characters" STARS ****

This one just became my least fav in the series and it has nothing to do with it being a MFM Romance.

Oh well...it happens :)

KAT ? Kitty Kats Crazy About Books ? says

MY REVIEW can also be found on my blog:

KITTY KATS CRAZY ABOUT BOOKS

"LOVE DOESN'T SEE COLOUR. ONLY PURE HEARTS..."

CRUX: is the sixth book in Author Tillie Cole's 'Hades Hangmen' series. A dark contemporary MFM romance. This picks up exactly where 'Damnable Grace' left us off.

This is Elysia 'Sia' Willis, Valan 'Hush' Durand and Aubin 'Cowboy' Breaux's story. Sia is Ky's sister which you would've already encountered in past books within this series.

PAST: Seven years ago whilst in Mexico Sia loved a man, she knew he wasn't perfect, but she'd fallen for him so hard and so fast, but he wasn't the man she thought he was, this man was pure evil, the devils incarnate. He'd ruined Sia for anyone else.

'You're mine, rosa negra. And I'm never letting you go.'

PRESENT: Sia the feisty blond is hiding out at her ranch in Austin, Texas, under a new identity, she's been safe for years, but a visit from her brother and Ky put an end to that. The Diablo Prez had gotten word out that Garcia had sent men to sniff out Sia and he was closing in. Ky explains that she would be better off at the compound under the clubs protection.

Getting restless though Sia can't wait to get back home to her ranch where her horses are Ky's not that happy

about this but she decides to take Hush and Cowboy the two men who always made her feel safe and knows they will protect her when necessary.

To say we've all been intrigued by this duo (Cowboy & Hush) is an understatement, we all wanted to know their story and wow what a story it is!! This book destroyed me, Hush's story is so gut wrenching it pulled so many emotions out of me.

Both twenty six these notoriously private Cajun twosome Hush and Cowboy have such a strong unique undeniable bond, they both come from a tiny town in the middle of nowhere, Louisiana these two have known each other since the age of sixteen, bad blood and horrific circumstances brought these two together and since then a bond like no other had been forged. Neither can live without the other.

Hush's mother was Swedish with blond hair and stunning blue eyes and his father was a black musician from Mississippi which is where Hush gets his unusual colouring from. Hush always felt like he wasn't good enough, he didn't fit in the white man's world or the black man's world, always on the outs although he's slowly making a home for himself within the mother chapter of the Hangmen.

Both realising that they are attracted to her and vice versa, Cowboy with his flirtatious ways and Hush with his broody silent scowls crawled under Sia's skin, she'd heard the rumours about them but hearing about them first hand from Cowboy made her wonder if maybe just maybe they would love her that way.

Four hands to touch me, four arms to hold me..Two hearts to make love to me and chase away the dark...

And this is where the true magic starts happening, it's done in such a beautiful way, slowly we see a love blossoming between the three of them, Hush crawls into your heart so far there is no dislodging him. I was team #Flame but #Hush stole my everything, my tears, my sighs, and in the end my love.

ONLY BOUNDLESS LOVE CAN SILENCE THE WHISPERS OF THE PAST....

This was such a crazy, epic, heartbreak, unputdownable, soul crushing read! My review won't do justice to this book because I can't put into words how much this book impacted me, such hatred for a mixed race, a man who was such a gentle soul who had been through so much in his life captured my heart, I bled alongside him, I cried for the injustice dealt by cowards hands. This author has such a way with words, every alpha character is imperfectly broken, they wear their scars on the inside, but not unscathed and flawless on the outside, because each of their skins are marred by their own battle wounds of survival..

Jemima says

Title: Crux Untamed (Hades Hangman #6)

Author: Tillie Cole

Genre: Romance, Dark

Publication Date: February 27, 2018

I can honestly say that this book is not for the faint of heart. The Hades Hangman series is a series that I can't help but enjoy. It's darker content may trigger some and Crux Untamed is no different. It contains scenes of violence and explicit sexual situations. So I'd advice you to read it only if you are over 18+.

I took me a while to review this book because this book truthfully made me really sad. Don't get me wrong, it's an addictive book but there were parts that broke my heart and the truth of the matter is, the context is real. The story may be fictional but it's based on things that have happened to others in the past and is probably still happening (Granted the subject of the matter may have sobered down a bit).

It's hard to explain the pain you, as readers, go through when you read the words in the book. It's hard to explain the joy of having someone love you regardless of your colour, caste and creed.

Tillie Cole has written a book that makes you want to welcome this unconventional with open arms. FYI, Crux Untamed is an MFM romance.

Now that I have blatantly made it quite obvious that I really enjoyed this book, I will say that it wasn't my favourite in the Hades Hangman Series. Sia, Hush and Cowboy make a beautiful trio but when it comes to the entire Hades Hangman family, there are other that will always be closer to my heart.

But nonetheless, I really hope you give this book a try.

Happy reading!

?*? Alicia ?*? says

4 Hush Baby Stars

Sia is the sister of the Hades Hangmen VP Ky. Ky has been keeping her on a small ranch in secret after rescuing her from a sextrafficking cartel boss when she was younger. Sia loves her ranch, training and looking after horses it's where she feels safest and it keeps her mind off the past.

Of course nothing stays that way for long with a Hangmen book and Sia finds herself being confronted with the very thing she was hiding from.

Then in come Hush & Cowboy to keep her safe.

So here's the thing, I loved Hush & Cowboys stories and Sia was a strong confident woman which I liked **BUT** I just wasn't feeling the three of them together. Yes the sex was hot and I can understand the chemistry but I just wasn't believing the love connection between all three, Hush & Cowboy now that'd be a love connection I would understand. This felt more like their love story to me, I adored Hush.

Saying that I still loved the story and the writing was brilliant as always, when I compare it to the earlier books in the series this one was just lacking a little intensity. I think I may have a ~~secret~~ stupid crush on the big idiot Viking after reading this, love a guy that can make me laugh. Oh, and I loved the little ode to shrek.

This is a must read if you are a fan of the Hangmen Series.

Jen says

****4.5 Stars!!!!****

I was concerned going into this instalment that I wouldn't care for the main characters in it. The readers who have followed the Hades Hangmen series know that this one is about not two people; but three! I don't mean a love triangle, I mean a ménage relationship... (not sure if that is what you call it!!) The three people involved are; Cowboy, Sia, and Hush.

In past books we have become acquainted with these characters, but there has been a lot of mystery surrounding them— especially Hush! The two most damaged souls are Hush and Sia... Cowboy seems to be the radiating light to the others darkness! When these three come together, it ends up a very beautiful three some!

Of course in any of Tillie's MC books, nothing is smooth sailing. A lot goes on throughout this action pact

book! This sixth book is full of violence, horrific events, and tears... On the flip side there are heartwarming events too! The story also includes the club loyalty, sizzling sex, and amazing friendships!

I enjoyed this like all the rest of the series; but I did find that the intensity of the couples that I usually feel was not there as much. So, I docked just a half star for that. The bottom line is that I couldn't put the book down and I am still in love with this series! I can't wait for the next book!!!

Selene says

3.75 stars

Genre: Romance

Setting: Austin, Texas

POV/s: First-person, multiple

Intimacy scenes: 5/5

This story was so *easy* to fly through! The pace was perfect and I liked the structure of the story: the first half was saturated with relationship building tension, flashbacks, and *incredible* steamy scenes while the second half was filled with action scenes, tying up loose ends, and the Hangmen settling into the idea of an impending war. Before I knew it I was already at the end and reading that final *Bonus Chapter*!

Hush's history was tragic and the emotional balance he found with Sia and Cowboy wasn't cemented until the end. I loved that Hush found closure for the areas in his past that haunted him most and it'll be interesting to see how much more of himself he reveals to his brothers as the series continues on.

☆ Favorite lines spoken by Ky?

(view spoiler)

☆ I can't wait to read Tanner's book next!

If the racist terms in this book are any indication of what to expect from Tanner's upcoming novel, then I'll be clutching my pearls while reading more of the graphic language yet to come!
