Eric's Inferno: A Rescue Four Novel #1 Tiffany Patterson

The men of Rescue Four are known for two things: for being the best the Williamsport Fire Department has to offer and for their rugged sex appeal. Rescue Four's reputation is carried like a badge of honor among all the men, including Eric 'Harvard' Kim. Eric is the unofficial leader of the Rescue Four squad and with his quiet yet appealing demeanor he definitely lives up to his squad's playboy ways with the women. That is, until a certain bar owner catches his eye. Eric is hit with a desire so intense and overwhelming he can do little about it except submit to the inferno his desire sparks.

Angela Moore is having the time of her life, having opened her neighborhood bar, Charlie's, a year and a half ago. Neatly positioned between two fire stations, Charlie's is a frequent stop for the firefighters in her city and the women who love to chase after them. Growing up the daughter of a firefighter and the younger sister of one, Angela thought she was immune to their charms, until she finds herself in the cross hairs of Eric's. With eyes as dark as sin and a body built for pleasure, Angela finds herself opening up to Eric unlike anyone she ever has before. Just when the couple think they've made it, tragedy strikes and Eric's job presents them with the biggest hurdle they'll face together, leaving them wondering if one will even survive.

Angela comes from a long line of fighter fighters, her brother and late father served. She's a bar owner/ chef who loves to cook and make the people around her happy with food. Eric's aka Harvard is a former financial analyst who gives it up to live his dream of becoming a fighter while disappointing his Korean parents.

Angela is still trying to deal with the loss of both of her parents while Eric is just trying to be a good fire fighter. After one date they both begin to fall in love.

This is such a sweet story where you could see the evolution and chemistry between the two characters. I especially enjoyed Angela's character who was sweet, strong and vulnerable. It was great that she was complex and wasn't made to be angry or insecure. Eric was a great alpha male without being abusive and overwhelming. I also enjoyed the fact that there wasn't a big emphasis on their race instead the author had the characters share their culture. Eric learns about Black haircare while Angela learns about his Korean culture.

I highly recommend this story and look forward to reading more about these firefighters.

3.5??

I love the swagger of a hot firefighter and Eric definitely fit the bill. I have always gravitated towards stories whether on TV or in books about first responders. Perhaps my husband being a police officer has something to do with it! This is my first Tiffany Patterson book and I thoroughly enjoyed Eric and Angela's love story. It was sexy, funny and had a lot of heart. Eric was all alpha male and Angela or "Angel" was sweet and fun, but no pushover. The story developed naturally and the cultural differences that were addressed I could definitely see happening in real life. It was a good read from beginning to end.

2.75 Stars. I did not connect with any of the characters in this story, nor was I able to become vested in the protagonists as a couple in love. Eric 'Harvard' Kim, is a Japanese American fire fighter who is nicknamed 'Harvard' because he has earned a financial business degree from Harvard and for a time was a successful financier with a lucrative firm. This made his parents happy. He even dated some Asian women which made his parents even happier. He then left the business world to become a firefighter and started listening to hip hop and rap and dating women of ethnic groups other than Asian. This was really frowned upon by his

parents. Eric's love interest, Angela Moore is a Black female, bar owner, exercise instructor and member of a family of firefighters. A large part of the book is devoted to firefighting exercises and the introduction of the firefighters who will be featured in other books in this series. The author states rather than showing the attraction and love as it develops between Eric and Angela then she arbitrarily introduces and resolves the conflict with his parents and the people that Eric and Angela briefly dated. I almost gave up on this story.

Sizzling

The relationship that developed between Eric and Angela was sizzling. I loved how they were shy but learned to let their personalities shine through. I loved how Eric stood up and protected her against his parents, well specifically his mom. The supporting characters were a hoot, and they made me feel like I was getting a real glimpse into firefighter house and their after hour hangout. I loved Angela and her overall spirit, character, and personality. I love the chemistry between the characters. Having natural hair, I loved how he wanted to learn and to help her with wash day. I enjoyed so many things about this book, but the shower scene declaration just took me over. Had me saying "Dayum!" and "you go boy!"... he claimed and declared with no hesitation. Another good story by this author.

Its been a while since I've read a book by this author not because I didn't like her stories but because there were just so many to read and it was hard to keep up but I'm glad I took the time to read this one. I wasn't too sure how I felt about the main character Eric at first because he was quiet and seemed like the brooding type but once he started interacting with his Angel all bets were off. The prologue leads you to believe the story isn't going to end well but you'll have to keep reading to see how it all turns out. I'm definitely going to keep up with the stories from this author from now on.

I have read all the books written by this author and enjoyed them all. This story for was a 3.5 for me. Its a sweet romance between Eric and Angela. There was something missing for me. I loved that the story was centred around the couple. I read this story with Kindle Unlimited.

Definitely worth a read!

Wonderful story! Review to come!

Erin says

There was a lot to really love about this book but there were just too many errors for me to really ignore. Was there no editor to find common grammar errors? "Me" is an objective pronoun, not "I." I could overlook this once, maybe twice if I'm generous, but there were at least five instances of this in the book. Also, she used the word "analyzation." This bugged me for a long time and I had to look it up. I'm still not sure if there is a consensus on if this is an actual word. Why not just use analysis?

Aside from these errors, I did really like the book. I like the quiet hero and the vivacious heroine.

Hot!!!

Eric and Angel.....sigh.

I love his swagger; you definitely nailed it, Ms. Patterson!. Eric has the firefighter swag down pat and Angela is his perfect counterpart. Her sweetness to his strong, silent demeanor.

I loved the parents on both side playing such a huge part in their relationship; dealing with his parents not liking his job and Angela still grieving over the death of her parents. Eric was there to help her grieve and she was there to help him repair his relationship with his parents.

Heartwarming, sexy story and I can't wait for more from Rescue Four team

Rosie J. says

Though Angela's in the initial stages of romance with a very staid man named Marshall and wants to see where it may lead, she's definitely attracted to Firefighter Eric Kim. They're both looking for each other and it's only a matter of time before Eric makes his move. A fulfillment of a bet accelerates his plans and he takes that opportunity to ask her out. Angela says yes and they embark on a sweet romance. In turn, Angela avoids the call of the other man she was dating. Marshall eventually catches up with her and out of anger says some things she doesn't like which she later shares with Eric. Against her explicit request, Eric later has a *Come to Jesus talk* with her former beau and it's all settled.

Angela has rules when it comes to sex and she initially comes off as virginal (it's how I saw her), shy yet coquettish and I was unsure of her age. Her rules felt very school girlish -- not of a woman pushing 30 and it's soon revealed that she'd only had sex while in a committed relationship. Knowing this--I was surprised when these characters never had a discussion on labeling their relationship, given her self-declaration. Also, the importance she placed on having the approval of her parents on her choice of partner felt juvenile.

Eric and Angela eventually settle into a spicy and comfortable relationship without the usual distractions from past lovers. One note that felt false to me is when (view spoiler) promotion ceremony. It wasn't

believable (view spoiler) and his choices.

I loved learning more about the inner workings of a fire and exactly how dangerous they can be. The last chapter of this book is truly heartbreakingly sad and I'm going to end my review here. You'll just have to read it for yourself. Now I'm going to read other stories written by this author.

? Hot and Heavy

This is such an awesome and wonderful story!!! Eric and Angela were made for each other and their coming together was beautiful. Eric took one look at Angela and realized she was different and he didn't fight the feeling! Eric is a firefighter and his job is dangerous. He bounced from one woman to another until he saw Angela.

Angela was attracted to Eric just as quickly. They more they interacted the stronger the feelings became. Angela owned her own bar and home and was a people person. She grew up knowing about firefighters and their playboy ways. Then she met Eric and her view was changed.

Their love affair begins and it is straight 5 ALARM HOT!!! Buy the book to find out how and what happens next. A doggone great book Ms. Patterson!!

It is awesome!

One thing I enjoyed about Eric and Angela story is they didn't allow doubt it other people influence their relationship. It's hard to find books like that. All I want to know is when does Sean, Don, Corey and Carter get a story. I loved this one. I dying to know will the other guys get their story.

Firefighters, need I say more?

4 Star Kindle Unlimited Read

I think what I enjoyed most is that this is a multicultural story. Of course that is followed by a tale of everlasting love. This truly is a sweet story. Only now, I'm wishing the author has plans on giving the other playboy firefighters their story. After all, who doesn't like a HEA for some hot sexy firefighters.

OMG, OMG, my heart stopped!

My nerves were on edge at the suspense in the book. The "will he or won't he" had my nerves on edge. This book was well plotted with lots of drama and suspense. I just love the comradery between the firefighters of Rescue Four. I can see future books being written about the other firefighters.

I just love the love between Angela and Eric. One very seldom reads a book with the male main interest exercising self control. I loved him for that. Angela was the one pushing her love interest on Eric. She was totally enthralled by him and succumbed to his wooing. Eric knew early on that she was the one he wanted as his wife.

This was a sweet love story with two people adjusting their lives to make room for each other in their busy schedule and to deal with any challenges thrown their way. This was a very enjoyable read.
