**Demons are people too!**

**Read for Halloween 2017 Reading Challenge - Demon category**

**Series:** I believe so

**Sexy times:** Yea, in fact this is the book where the peen width is compared to the width of a woman's wrist. So that's a thing.

**Plan on reading more by the author:** I do!

**Synopsis**

Zane is a hunter...of the paranormal sort, not the four-legged little beastie sort. Oh, and he just happens to be a demon himself. Right now, he's hot on the trail of Jana, half demon firestarter (right now I can hear Prodigy's Firestarter on my mental playlist. Love it!) that she is.

And cue the perfect set up for a little demon on demon action.

Anyhoo, she's got some cray internal dialogue about not telling Zane why she has killed people or started fires and this gets repeated ad nauseum.

And another anyhoo, I'm over that part. Moving forward. Zane ends up believing she is not the bad person everyone has made her out to be - gee I wonder if his little Zane is doing all the talking now? Course, it's the size of Jana's wrist so maybe that's a not-so-little Zane. So, off he goes with her on an adventure to find out who is killing paranormals and why.

There's layers here, people, and I'm not doing them any justice. Some of the reviews say it's hard to keep track of all of the players and while there are many, many, many characters, if you listen closely or rather read closely, you got this. This is really an interesting suspense with plenty of romance. And the story is GOOD. For reals.

**Heroine:** Jana. Well, she's not my favorite. She keeps slinking off and hiding something...I still don't know what...well, I do, but it was ridic. Eventually, she gets off her "I can't tell him kick" and she's all in.

**Heroes:** Zane. Demon on a scale of 8 out of 10. Super magic man. With a big wiener, apparently. But then again, don't all demons have big old weens? Am I ween focused today? I must be. I blame the wrist bit.

**Why it did or didn't work for me:** It worked just fine. I enjoyed listening to this and I enjoyed the wide

cast of characters although they may not have all been necessary to the story, they sure did give me a good time. Go into this knowing you have to pay attention. I'm just saying.

Signed,

*Just call me your big demon...hehehe*

Intrigue, personal agendas, a firestarter, a demon, an FBI agent, a clandestine organization, an emerging romance and the usual cast of the Night Watch Agency come together in this third book in Eden's Night Watch series. As is typical with Eden's books, this can be read as a stand alone or as part of the series. Eden seamlessly brings in characters and situations from previous books giving just enough information as is necessary to make sure the reader isn't lost but without interrupting the flow of the story. And an involved and busy story it is, making for a quick read with some surprises along the way. I couldn't put it down and even better I wasn't able to anticipate most of the surprises.

Jana, the female lead, is quite the little actress. She is also an ignitor on the run from the police, the FBI and now the Night Watch Agency. And when he catches up to her, she has the serious hots for the hero of the story.

Kane, the hero, is a sexy hybrid demon bounty hunter for the Agency who was introduced in the first book of the series and reappeared as a secondary character in the second book where he faced and killed an ignitor. Here he takes the lead, again facing an ignitor but this time, as much as she deceives him, he can't help being attracted to her and his body wakes up whenever she is near.

For those familiar with this series, the sex in this may seem a little tame when compared with the first two books. There is a shower scene, a containment cell scene and oral sex. I'd rate this somewhere between steamy and hot or a 2.5 on a scale from 1-4.

There was continuing interaction between some secondary characters here which began in earnest in the second book, which I hope is foreshadowing for the basis of a future book. I thoroughly enjoyed this and hope there will be many more books in this series.

Review posted on Got Fiction?

This is a re-read for me, and I just can't say enough good things about the **Night Watch** series. Night Watch is not your normal bail bond company, and Zane is not your average bounty hunter. Night Watch hunts the paranormals and others in New Orleans, and Zane isn't human, not by a long shot.

He's closing in on his bounty, but the house he's at suddenly bursts into flames. When he hears a scream he rushes in and finds a beautiful woman huddling in the middle of the fire. He saves her, and there's just something about her, a certain fragility. He doesn't want to leave her.

Jana is an ignitor-a firestarter. She set the fire at the house to kill Zane's bounty, but also to attract Zane's attention. She's good and playing weak and helpless, and Zane can't resist helping her. But when he finds out she's not an innocent victim, he can't let her go.

Zane might be a big bad demon, and a bounty hunter, but there's a lot he doesn't know about what's going on in his city. Jana knows the score. She's trying to save Zane, even if it doesn't seem like it. She's also trying to stay alive, and that isn't going to be easy, even with Zane and Night Watch's help.

This series is what hooked me on Cynthia Eden's writing. I miss Paranormal Romance like this. The plot is well thought out and well developed. The characters are interesting and intriguing. The world is so easy to slip into that you don't feel like you need a class on the rules. Each book can be read out of order or as a standalone, but why would you want to? ;)

My favorite line in this book, "She could rescue herself. In the fairy tales, she wasn't the trapped princess. She was the fire-breathing dragon, and she'd burn anyone who got in her way."

Good story line, lots going on. I enjoyed Jana and Zane both individually and together. I liked the idea of having a supernatural that can remove powers and "give" them to someone else. That was different. I liked that Jana embraced her fire and realized it was an integral part of her. It was nice Dee and Erin made appearances.

I think the most disappointing thing is I was hoping Pak and Tony would have their own stories too. The way this ended I felt the setup was there. I looked at the next (and last) book, but nope, neither are listed as a character (in fact, I'm not sure how the Night Watch universe plays into it from reading the blurb).

Oh Zane, why did I wait so long to read your story? The chemistry between Jana and Zane is scorching and Cynthia Eden picked the perfect woman for him. He wouldn't have been happy with anyone 'normal' and Jana Carter was anything but with her unique Ignitor abilities. This was a really fast-paced book! Only wish I'd read it sooner :)

I had a hard time getting into this story. Although I really enjoyed the first two books in this series and I like Zane, his relationship with Jana bothered me. Throughout the book, Jana is hiding things about herself and how she feels while Zane (the demon) seems to be willing to make an effort. I understand that each couple gets their own storyline, however I would have liked to see more crossover from the couples of the first two books.

## Jess the Romanceaholic says

First off, I have to say, you know I'm a Cynthia Eden fangirl, because I shelled out danged near \$10 for this book on kindle. I don't do that for just anyone lol I usually have a strict limit of \$6.99 for a kindle book (on principal lol), but for CE, I'll make an exception.

I'm glad that I did.

I've loved Zane since the first Night Watch story. I mean, how can you NOT?? Deliciously sexy, honorable, alpha, demon hybrid? \*fans self\* Whoooo..

I'm trying not to have any spoilers (what?? I can do it! Really!), so I'll just leave the synopsis up to others or the book blurb :)

What worked for me:

\*The length. OF THE BOOK! Gah. Get your minds out of the gutter! lol There was a time when it slowed down in the middle and I honestly thought the book was wrapping up only to discover \*BAM\* book was only half over :D I love when that happens, because it's almost like two books in one.

\*The whole bit with the witch at the compound and the powers thing... that I really wish I could say more about but dangit I'm not gonna spoil y'all with this one. Really. I'm not..... dangit.

\*Zane. Just. Zane \*dreamy sigh\* And the shower. And that he was the ONE PERSON she never had to worry about hurting with her fire (what?! that's not a spoiler -- that was in previous books!)

\*The chemistry was hottttt between the hero and heroine. I loved that our heroine wasn't all squeaky-clean innocent, and I loved that even while Zane was trying to fight his attraction to his bounty, he was falling in way more than just lust with her.

\*That scene in the basement. Oh good lord I do love me a dangerous man.

What didn't work for me:

\*I was quite sad at some of the deaths in the book :( I know, I know, that's on purpose, but one of the victims, I was really hoping would get a HEA :(

\*I didn't feel like everything was quite as resolved at the end as I typically like.. And not just in a hey-I-bet-I-know-who-the-next-book-is-about way either. I don't really know how to explain it -- I can't really put my finger on it to be honest -- something just felt.. unresolved.

So, overall? 4 3/4 Stars, but you can totally round up to 5 if you want :)

quickie review:

Zane is a hunter for Night Watch, an organization that tracks down the criminals the normal police force can't handle. Zane is also a Demon hybrid. He is sent to hunt down the Ignitor, Jana, who is wanted by local law enforcement and the FBI for setting deadly fires in New Orleans. But Zane discovers that all is not as it seems and the fire between them burns hot. While trying to discover the truth behind Jana's past though they discover the odious Project Perseus, a group set up to take out all paranormals period. Can Zane convince Jana to stop running and can they take out Perseus before Perseus takes them out?

Eternal Flame was a sizzling read, just as good as the first book in the series. Eden gives you kick-ass action and nail biting suspense coupled with smokin' romance and strong lead characters in the well-written world of Night Watch. And the side characters are extremely likable and intriguing as well!

Jana is the perfect balance of tough & sweet for a heroine and Zane is all alpha hero.

A definite Night Watch favorite, Eternal Flame is a real page-turner that I flew through!

### **The Book Junkie Reads . . . says**

Sexy hybrid demon beast Zane Wynter can do with few others can. He has skills that he lets no one see or even feel. Jana becomes a target for him to take down, but then she becomes much more. There are other forces and mysteries playing the game here. Who can be trusted becomes a game that could cost one or both of them their life.

Now I need to know where the story is for Katerina and Tony. There is something there. I just can feel it.

### **Hbeebti says**

Loved it! This one was my favorite so far. Zane was a great hero with his own tortured past. I knew his book would be great. I really hope that Tony gets a book soon.
