## Kansas Heat Jenny Penn

[#189 Siren Menage Everlasting: Erotic Cowboy Menage a Quatre Romance, M/F/M/M, BDSM] Amanda Johnson only has one thing in mind when it comes to Cody Reese. The cowboy has another, and it involves both his brothers. Haunted by their past, Knox, Jace and Cody have their reasons for minding secrets as they lure Amanda into their wicked fantasies. Wary of men thanks to her own silent demons, Amanda gives into her passion only to find her trust shattered. When things turn deadly, Amanda begins to wonder whether love will lead to her salvation, or destruction. \*\*A Siren Erotic Romance

## Charlotte Smith says

These brothers are all kinds of hot. While the story itself seemed quite complicated in some places, the book was strongly grounded in the relationship between the characters. The loss experienced by all of them made it easy to sympathize with them, and I found myself cheering for all of them as the events came to a head.

---

## StellaR says

HOLY SHIT..what did I just read?

This book was all kind of crazy, I'm having trouble identifying what I feel about it:

- \* Everyone were getting on my nerves at least once, they're all crazy shit
- \* The heroine had no self preservation whatsoever
- \* Fast paced, I dig that
- \* Ridiculously HOT! Smut to the core. Perv alert, we'll love it :D
- \* Sometimes the plot just jumped, no explanations...it's just Bam, next scene!
- \* Lack of character building
- \* The focus or center point of the story was unclear
- \* Confusing theme, most part of the book is smutty goodness all over with a touch of romance, then suddenly we got a little bit mystery and action
- \* Few scenes almost brought me to tears..go figure
- \* The ENDING????????????!!!! What the hell?

At the end..I LIKE IT, isn't it crazy? I think Ms. Penn has her own magic touch to her story, it did suck me in.

## Tala says

A little conflicted over this one. I wanted to really love it, but I didn't. It was good and a very good size for an eBook. My issues are personal opinions. It was well written and the characters really were developed and brought to life.

Knox was too cruel. I get that the author wanted there to be strife and conflict between him and Amanda, but I just think it went overboard. I would never have forgiven him for some of the things he said and did. He would only call me a whore once and never see me again. It wasn't just his hurtful words but his entire attitude. Knox had a problem falling/being love and took his confusion and pain out on Amanda. It wasn't until after the final straw for Amanda and she left that he came to accept that he wanted her. I don't there was enough remorse or groveling from Knox for Amanda to take him back.

I loved Jace. He truly loved Amanda and treated her accordingly. He was there for her emotionally and tried to build her up not down. My only issue is that he didn't beat the shit out of Know enough.

Cody is the baby brother and his personality showed it. He was all about fun and getting what he wanted. He devastates Amanda with his obsessive loyalty to another woman. Cody also says something that degrades Amanda and shows his immaturity in a public setting. He truly felt horrible for his actions, but it was more than Amanda could take. It took him awhile to admit to himself and a little longer for him to tell Amanda that he loved her.

Amanda is a woman with some self-worth issues. I felt as if she was too confrontational to hide insecurities. Sometimes, Amanda would be antagonistic to a fault and then get all hurt when the reaction she gets is appropriate. Then she takes more, of what I would consider hateful and borderline abusive, than anyone ever should from the brothers, especially Knox. Amanda does eventually leave the brothers due to their behavior, but this was after she went back and forth a few times. It took her a bit, but Amanda gets some backbone and stands up for herself.

Maybe it was a little too long. The relationship between the brothers and Amanda seemed to take a circular route and too long to develop into something loving and healthy for it got a little aggravating. It ends with more of a HFN than a HEA. It feels like the story should continue with the next book, not a conclusive ending.

ETA: more detail.

## **Red says**

I have had time to think about this book and what really bothered me about it. So here goes. I love Jenny Penn so this is really not easy for me at all....but in being honest with comparing with her other works this is how I feel.

I could not stand the h. TO be honest I thought she was a little too bitchy. I just couldn't find myself caring one way or the other. As far as the Heros go I liked Cody. His portrayal as the younger brother in my opinion was true to form. Maturity wise and all. He was very likable. Jace is more like the romantic of the three. I could see wanting to crawl up and cuddle with him. Very good emotional response from him and I loved it. Knox being the alpha of the three I expected him to be a little harder to get a long with in fact with a true alpha I expect nothing else. What I had a hard time with was him basically on multiple instances calling her a whore or flat out insinuating it, just because he thought she was trouble and didn't want to put forth any effort into seeing where a relationship would go. I can overlook a lot of stuff honestly, but the number of times and the sheer malice of some of them into trying to guilt her into leaving was just too much....

## Dar says

Hottie, hot, hot!! Wow, this story burns from the beginning and keeps it up until the last page. Knox, Jace and Cody have something for everyone but the one thing they have in common is their savage attraction to Amanda. Amanda is no shrinking violet and gives them their attitude right back!!

---

## Delta says

2.5 Stars

Those who enjoy reading about heroines and heroes with bad tempers, lots of conflict, and dubious-consent ménage sex may enjoy the *Kansas Heat* series.

There are things I like about *Kansas Heat* and things I really don't like about it, which made it difficult to rate. Only one of the four main characters in this ménage a quatre romance is very likable, in my opinion.

**Like** - Jace Reese, a cattle rancher, has some maturity and empathy that makes him good relationship material.

**Don't like** - Cody, and Knox (Jace's brothers) and Amanda Johnson are immature and all have hair trigger tempers. The vast majority of the 400+ page book is consumed with Amanda, Cody, and/or Knox goading one another into squabbles. The resulting rage then fuels their lust and usually results in Amanda being forced into bed, where the brothers use sex to control her. It is explicitly stated that Amanda really wants to be controlled and that it turns her on.

When Amanda meets the Reese brothers early in the story (first Cody, then Jace and Knox), they almost immediately expect her to submit to their sexual domination, including force; but there is no prior relationship to establish trust. Most of the time Cody and Knox are very emotionally abusive to Amanda, and that is always excused by them giving her lots of orgasms (as Cody and Knox assert during arguments)!

**Like** - As much as I did not like so much bickering, some of the sex scenes are very well written, and there are a lot of them.

**Don't like** - There is a plot about danger to Amanda because of some missing drug cartel money that makes a relatively brief appearance at the beginning and near the end of the book. The suspense plot is glaringly absent for most of the story, and I wonder if it was added as an afterthought.

I took a quick look at the sequel, *Kansas Nights*, and the characters seem equally conflict driven (annoying), so I will not be continuing with this series.

## Paige Bookdragon says

The characters were plain annoying and immature. I'm thinking they fight a lot just for the excuse of having make up sex.

If you can bear the childish stunts of these idiot, then read the book. The sex is awesome by the way.

---

### **Sarah says**

Hated the h. Same scenes over and over again, Very hot, but the plot was terrible.

---

### **Crystal says**

At the end it sounds like there's going to be a sequel? Does anyone know for sure?

---

### **Vicci says**

i really loved this book. just a little disappointed in the ending. It left the story incomplete and sounding like thier would be a second book

---

### **? BookAddict ✍️ La Crimson Femme says**

Zowza! I felt the heat. I've been a fan of Ms. Penn's every since I read about her Cattlemen books. I haven't really been into more than a m/f story until I read more of Ms. Penn's books. Amanda with 3 very tasty cowboys changed my mind. Now I know 3 is not too many.

---

### **Claudia Reinbrecht says**

3.5

Abrupt ending

Questions were left unanswered about Lydia (Why she was in a rush the one day and it never got acknowledged by the men that she attacked Amanda//She freaked about Amanda having Sharon's necklace but the book ended before she reacted to all of Sharon's room being redone

Also, said that Sharon committed suicide but in the end it revealed that she was just in a car crash

---

### **Emily says**

Knox, Jace, and Cody Reese are ready to move on with their life and find themselves a wife they can share who will be loyal, proper, and the epitome of what a good wife and mother should be. Working their way through a long list of candidates, Cody finds himself out of turn when Amanda Johnson bumps into him. Amanda had made the list at Jace's insistence, but neither Cody or Knox could figure out why.

Amanda is completely opposite of what they are looking for, with her sensual nature, her tough exterior, and

a mouth on her that won't quit Cody is completely captivated. It doesn't take much time for Cody and Jace to realize she is the one, but convincing equally hard headed Knox proves to be harder than expected. Amanda never one to face down from a challenge wont cower to Knox whose brazen dislike of her only ignites a fiery passion between the two that wont go out.

I loved this book, it looks like their could possibly be a sequel to it but not 100% sure on that. Jenny Penn is one of my favorite authors, she always has a rollercoaster of a book with alpha male vs very strong natured women. Amanda is a bit hard but you get why that is, she is a fighter and above all more vulnerable than most. A fantastic read.

Reread 11/21, still a good read. Definitely sequel quality and my review remains the same. Jace is my favorite out of the men, he is more sensitive but it can flip if he is provoked.

\*\*reread 7.8 because the sequel is out and needed to be reminded what happened, just as good this time. Although I found myself more interested in Cody this time.

---

### **Jenny says**

I wanted to reread this book before reading the next in the series. I really like Amanda but some times she acts like a real bitch but I enjoyed the chase as they say.
