Great second time around. Love the Hero. He is amazing. Little ow drama from the villain, but didn't last long and wasn't anyone who had ever been with the H. Great read.

excellent series

It really liked the original trilogy and enjoyed this book. At times, however, I felt it was a bit too long with repetitive scenes. The guy is CRAZY paranoid and obsessive, I get it! Only because he is cute about it, does it not annoy the crap out of me. It just needed to get on with it. There was so much drama around a damn holiday that I got frustrated. All that being said, I really liked their story and would read the entire series again. And I appreciate being given a great and funny epilogue!

a great series ... some really funny bits & some serious issues addressed, a nice mix ... magic chemistry between Kat & Colt - a great end to the story

first read jun 2015 and read again now in prep for book 5. can't help but love it Kat is the epitome of b.r.a.t. and Lyon is so over the top that you laugh from first word to last. such a fun read

This was the best book out of the whole series I was laughing out loud so many times while I read this I am soooooo sad the series is over I would love it if the author would continue the story and just let it be all about the Lyon kids there is just sooo much potential for this series to continue in a new way PLEASEEEEEEE

The last book in the Lyon's series ties everything together and finishes the series off nicely. I especially liked the epilogue.

THIS BOOK WAS AMAZING!

This book is by far my favorite in this series. Why? Well that's easy, they felt real.

In this book the two MCs are really a couple and they have a crazy dynamic that works.

He is just too much! He is a big daddy bear and he is protective and loving. THE MOST ALPHA HERO EVER! He is doing everything to protect his girls and I loved it.

However it was the last few chapters that made it feel amazing for me. They have such a normal relationship and do normal things. It's sweet!

I would totally love to read more like this.

Awesome.

5 stars and I will reread this one for sure.

Kat and Colt are settling in to marriage and preparing to have their baby. Story is told from both perspectives and mainly is about Colt and his trying to protect Kat as well as going overboard on protecting their baby. Now that the baby has arrived, Catie bear is the light of their lives. However danger lurks and Kat doesn't listen to Colt, thinking he is just over the top putting them both in danger.

I am mixed on this one. After the pregnancy rundown from the other books, the heart of the story really began. I liked this portion quite a bit. Colt did puzzle me a couple of times with his treatment of Kat though so was a bit put off by that. Dragged in some places but overall good story.

This is the fourth book in the Lyon series. Jordan Silver writes a crazy, possessive alpha male like no other. Colton Lyon is a tough no nonsense biker but when it comes to the love of his life, Katarina he can be a real sweetheart. Colton & Kat are now married & expecting their first child, a girl & he is freaking out at the prospect of having a daughter. He barely survives Kat's pregnancy without driving her completely nuts but in the end they get their beautiful daughter, Caitlyn. People may think he's too over protective but Colton just wants to keep his family safe especially with everything Kat has been through in her life. It's Caitie's first Christmas & Colton is determined to make it extra special for his daughter even if someone else is trying to f***k things up.

4.5 SMOKING HOT ATARS

I LOVE me some Colton Lyon!!!!

First of all this book is somewhat divided into 2 parts. The first part is going through Kat's pregnancy and birth and the life with a little one. Let me say this: I laughed my ass off!!!! So, here is Colton, Mr. Bad Ass alpha biker man who is a control freak and frankly just full of shit. Here he thinks he can call the shot with her pregnancy and tell Kat what to do... like be in labor for 2 hours!!! He is so over protective and one of those that reads every single baby book that he is so beyond paranoid you can not help but laugh at his craziness or fuckery as Colton would say. His shenanigans were so over the top I just got the giggles and thought of this poor alpha not being able to control everything... or so he thought.. He did a good job when it came to it and protected his family (beyond overly when it needed). After Caiti is born Colton goes into papa bear mode and is determined for her to have the best first xmas ever... and that's where the 2nd part of the book picks up. No more laughing for this go around its more of a mystery to who the secret woman is with amnesia (conveniently) is who Kat hit with her car in her own driveway. Utterly suspicious and Colton won't rest... lots of fuckery going on and the 2nd part is just slightly intense.

Now lets not forget how raunchy, vulgar and nasty Mr. Lyon can get with his woman in the sac... OMG!!!! Definitely a panty drencher... And there are lots.. and I mean lots of scenes. With those 2 nymphos the hotness just continues.

All of the usual secondary characters are there and lets not forget Colton's mom, Elena... she's up to her usual hen pack debauchery in order to get to her grandchild. All in all I absolutely loved this book and hope to read more about the Lyon in the future.

I really enjoyed this series and this last book was my favorite of them all. Jordan Silver is an auto buy for me now. I discovered her a few months ago and although I still have a few more left out there to read, I've pretty much devoured everything she'd got out there in a short amount of time. I just really love her writing style with her over the top sexy possessive crazy guys that always seem to have the hugest cocks on the planet and take no shit off anyone. Her books aren't full of meaning and touching moments.. they are just full out sexy fun. I know what I'm getting when I open one of her stories..whether it be a short novella, something a little longer, or a series. She's never failed to entertain me. Sure, there's been one here and there that were a little on the "really??" side....but no matter what, I'll keep reading what she put's out there. Thanks Jordan for another fun ride.. I'd love to see spin off series from this one with the kids grown up. Lots of potential there!

I am so sorry! I know i rated the other books a 3 stars because i did like them, but looking back and finishing this last book it is just too much.

It feels like the Bermuda Triangle. It is the same, and the same and the same...it is constant! I dont know how many times she repeats the same thing, the same words, the same lines...for the love of all that is holly... I thought it was only the first books, and that somehow it was going to redeem itself, because to be honest it wasnt that bad...but this book just sealed it! It was not good at all. Again, the Bermuda Triangle series shouldve been called.

Elena says

This one was way better than the others... I just wish that instead of the issues and repeating the same things over and over again, the epilogue would have been longer. I would have appreciated more watching Colton dealing with his family. As for Kat.... seriously this chick was a walking contradiction.... she feels that Lyon is too over protective and never has enough common sense to keep herself safe... but what the hell it was a good book
