Redlynn of Volkzene, member of the Sisterhood of Red, is heartbroken to discover another girl kidnapped and her best friend slain by werewolves. Defying the head of her order, she sets out to kill the beast she believes responsible. The King of the Weres-- But there are worse things in Wolvenglen Forest than the wolves.

Adrian, reluctant heir to the throne of Wolvenglen, and his band of wolf brothers are bound to protect the humans; especially the Sisterhood. Finding Redlynn unconscious in his woods, awakens in him a passion he's never before experienced and a protective instinct that has him ready to turn on his own men. Problem is, a female is the last thing Adrian needs complicating his life.

But all is not as it seems in Wolvenglen Forest and to save the missing girls before time runs out, Redlynn and Adrian must move past their inner demons and learn to trust each other. In the search for vengeance however, sometimes you must give up what you desire most.

It might be no surprise but I love alternate takes on fairy tales. As I read the prolog I immediately loved the twist on the classic story. I was hooked.

I really enjoyed this book. The character development was great, each character had their own voice, and own personality. The details were great, and I found it really easy to imagine what Red's world looked like. This was a beautifully crafted story that I think everyone will love! There were so many tiny details in this book that connects it with the original story, it just makes it that much deeper and symbolic.

I loved the line "What beautiful eyes you have" it was one of my favorite scenes, because it pulled the classic fairytale and this new take together even more. I can not wait to read the next installment of this series.

LOVED IT! I haven't read a red riding hood retelling before so this might be a little biased. The only thing I'm somewhat disappointed at was the sex scene. Yes, the sex scene. I expected it to be more detailed than what it was. I mean, it is an adult paranormal romance right? I did enjoy all the action and the mystery behind the Sister's disappearance. I liked that Adrian wasn't overly possessive and dominant. He was that sweet teddy bear alpha. I especially liked that it had a happily ever after! oh and that twist at the end when they finally figure out who it was that was causing all the problems! I couldn't believe it! D; Can't wait to read the other books in the series.

Totally recommend this book to everyone!

Evelyn Dotson says

A beginning of a new series...nine prophecies were foretold about the land of Fairelle. The first one to be fulfilled is with the werewolves. Redlynn, or Red lives in a village where the Sisterhood lives to protect the villagers from the wolves. At present, five females have been taken by the wolves and one left dead. Red is out for vengeance, but the lead Sister Lilith forbade her to enter the woods or be banished. She does not listen and heads out. She knows the Sisterhood is not like it used to be. They used to go hunting each night killing off werewolves but they do not do that anymore and their numbers are dwindling.

Once she leaves she discovers the wolves. She manages to kill and injure two of them. She is severely injured as well. She awakens to find herself at a castle with a man named Aiden. He is taken by her beauty. They resist the attraction for one another. They all know who she is but she does not know who they are. She

has the birthmark foretold about in the prophecy. When she discovers his secret what will she do? Will he lose her? What of the missing women? It cannot be the wolves so who is it? What is the prophecy and will it be fulfilled? Please come along for a new series that will hold and keep your attention. It is action packed and a fast-paced read~ Rebekah Ganiere has outdone herself once again! I am on to the next book in the series for I want to discover what each curse is and how it affects everyone!

C.J. Burright says

How much did I love Red the Were Hunter by Rebekah Ganiere? Well, let's see. We've got a tough as nails heroine who has lost everyone she loves and is bent on killing the werewolves that not only stole innocent girls from the village she's sworn to protect, but murdered her BFF. Red totes a sword and a bow. Awesome. I loved that it's the women (the Sisterhood) who are the warriors of the village. Girl power!

While on her quest for vengeance, Red unwittingly treads the path of self-discovery. A little bit of werewolf trouble takes her straight into the reluctant arms of lonely, brooding Adrian - who just happens to be the up-and-coming King of the Weres. Talk about conflict. No spoilers here! Red the Were Hunter included some surprises I didn't see coming, fights and a charming sidekick, souls longing for love, magic and betrayal . . . it fed my love for fairy tales, romance, and action, all braided together in a sweet story of acceptance, true love, and destinies fulfilled.

Rebekah Ganiere gave me an advance reader copy for an honest review. I love how the story opened with so much action and emotion right from the start. I felt Redlynn's inner turmoil and anguish and was immediately pulled into the story, a character with loyalty and regrets that needed to be dealt with. The story never slowed down! The emotional roller coaster that Redlynn experienced is well written with humor, action, anguish, mysteries, and a life changing romantic desire that kept me reading until the very end. There's so much more, but you'll have to read the story to find out. I'm looking forward to the next book in this continuing saga!

Sara says

I want to first say OMG! I loved this book from the first chapter!

The story starts off with a bang, and it doesn't stop. The story is play on Little Red Riding Hood, but that so doesn't do it justice. The story is incredibly well written, and I'm in love with Red! I love that she was a no nonsense woman, and was tough as nails. I also loved the world this is set in. This is an urban fiction story, not a romance novel. Don't get me wrong, there is romance, and it's great!, but it fits in better in urban fiction in my mind. What an excellent start to a very different series. I haven't read anything else like this!

I will be one clicking the rest of this series without a doubt!

Linda Tonis says

A thousand years ago Fairelle was a prosperous kingdom ruled by one king. When the king's sons decided that they each wanted to take over the throne upon their father's death, they called upon demons to grant them one wish, only the demons twisted the wishes to suit themselves. One son wished to be forever bloodthirsty in battle and wound up a vampire, one wished to have unending loyalty from his men and he became a werewolf, then one became a fae and one a Neriad. The fae wanted to be a manipulator of the earth and the Neriad wanted to rule the seas. Before long Fairelle became a wasteland and each faction warred with each other.

The only thing that can heal and unite the lands of Fairelle is the fulfillment of nine prophesies, and this book is the first. Twenty-four year old Radlynn Mactire Fola lives in a small village called Volkzene and she is a member of the Sisterhood of Red. The Sisterhood protects the village from the werewolves and it is led by Lillith. Girls have been missing from the village and there is no doubt in Redlynn's mind that they were taken by the werewolves. The night her best friend is killed she breaks the rules and leaves the village to hunt down and kill the Were King. Although entering the woods is forbidden she cannot rest until she destroys the one responsible for the disappearances of the girls. She is a Were Hunter and it is time she picked up her sword and bow and did what she should.

The trip into the woods will change everything that Redlynn ever believed to be true. Are the werewolves the real enemy? Are there worse creatures roaming the woods? Attacked by a wolf she is injured and finds herself waking up in a strange bed. She is in the castle of Adrian who unbeknownst to her is the prince of the werewolves. He is the alpha and his pack are not the ones responsible for the missing girls, in fact they have always looked after the Sisters. The attraction between Redlynn and Adrian is extremely strong, but he is not looking to get involved with anyone even if she may be the one for him.

What does he do when he discovers that she may be the one to fulfill the prophesy, will he succumb to his feelings for her or just try to stay away. If she is indeed the one they have been waiting for it would require him to make her his mate and he would then become king, something he has refused to do. There is a history of betrayal between his mother and father that caused the Sisterhood to turn against the werewolves and he doesn't want to become his father.

The book is full of surprises, secrets, lies, betrayals and romance. Redlynn is a wonderful character she is stubborn, loyal and courageous and has to come to terms with some things about her life she never could have expected. Adrian has to come to grips with what happened with his mother and father and find the courage to do what he has to for his people. I read this book in one day because I couldn't wait to find out what would happen with Redlynn and Adrian. Although this is a series it is not a cliffhanger, the story is finished and you know there is more to come.

We also meet Sage, a vampire prince whose father has been exiled and who works along with the wolves to fulfill the prophesy and find the missing girls. His story is next and I can't wait.

I received this book from Rebekah Ganiere and “Paranormal Romance & Authors That Rock” in exchange for an honest review.

Red the Were Hunter is the first book in a series but does not end on a cliffhanger, per se. This book follows Redlynn on her were hunting journey. Along the way she finds answers to questions she didn’t even know existed, and she also finds mysteries that aren’t necessarily a bad thing. She is tough as nails, and innocent to a fault.

This was a quick read that had a good set pace. It had action scenes that were a bit gory, but not too over the top. The storyline was intriguing, but was lacking in execution. I found myself confused about Red’s character. She was very untrusting and skeptical, but would trust a complete stranger in the next moment.

I was disappointed with the whole insta-love connection. It could have been so much more developed. They meet for the first time, they fall in love, and that’s the end of it. There was hardly any dialogue between the two, but they knew they were soul mates.

Adrian was the head of his pack, but there were no real alpha qualities that I felt came out in the story. I also didn’t feel that the epilogue went with the flow of the book. It was almost like it was added as a second thought to open up an angle for the next book in the series to follow. Vampires could have added so much to the storyline, but it was as though they were just stuck in the story randomly.

I wanted to love this book, but in the end, I just felt “meh” about it. Don’t get me wrong, I didn’t hate it, but I also wasn’t biting my nails, as I turned the pages, wanting to find out what happens next. 3 fangs for this were hunter’s story.

This was my first book to read by Rebekah Ganiere and it will not be my last! Rebekah had me pulled in right from the beginning and wrote in the style that I love. When I am able to see the story unfold in my mind like a movie I know I am hooked! Rebekah describes all the characters and the surroundings so that I was able to get the perfect visual of what I was reading. This alone will get 5 stars in my book!

The story is about a girl named Redlynn and takes place in the year 1200 AD. She is part of the Sisterhood of the Red and they are the protectors of a village in Volkzene, Fairelle. The sister’s are sworn to protect the villagers from the Were. The girls are raised and trained their whole life to become a sister of the sisterhood. Red was always treated differently from the rest of the girls no one would ever look her in the eyes and avoided her at all cost even though she was the best of the sisterhood. One night when she was not on patrol it was claimed that two were’s entered the village and killed a guard and took a little girl. This was not the first little girl to be kidnapped. The village blamed the killing and kidnapping on Redlynn because she left Anya her best friend on duty alone. Redlynn decides to go into the forest where they are forbidden to go to hunt down and kill the Were’s responsible and to kill the Were king. She packs a bag with supplies and clothes, she also grabs her bow and arrows, sword and cloak then leaves the village on her quest. Lilith the

head of the order tells Redlynn if she leaves she will be banned from returning back into the sisterhood. This does not stop Redlynn she is hell bent on killing those responsible for killing her best friend and taking little girls from the village.

Redlynn comes face to face with a small pack of Were and the is a fight, she is injured and knocked unconscious. When the leader of the pack Adrian arrives to the location of the fight he shifts into human form and takes her back to his castle to bring her to his healer. His pack has been sworn to protect the humans from the bloodsuckers and he is not going to leave her there to die. He has the strangest connection to her that he can't explain. When back at the castle he asked the other men if they smell on her what he does... they all say no she just smells like a human. This has Adrian perplexed and is having a hard time staying away from her and to fight the urge to attack any of his pack that gets near her. As she heals and gets better things become clearer to Adrian and his closest pack mates. Redlynn is mean to me Adrian's mate!

I will leave my review at this point because I do not what to tell anything more and divulge any spoilers. But I can say this... If you like reading paranormal books about Were's or have even read the story of Little Red Ridinghood this is a good choice for the adult version lol! This is not in any way an erotic romance, any romantic scenes are written with good taste. This book is the first in a series and it does not leave you hanging at the end but it does make you want to read the next book!

Thank you Rebekah for the wonderful experience of reading your book, I look forward to reading all of the books that are still inside of your head waiting to land on paper.

Susan Foulkes says

Rebekah is a new to me author and as such it took it me a while to get into the story - I quickly came to appreciate her writing style and got to grips with Fairelle, the "world" in which the story takes place.

After that I was hooked! I needed to know what happened next and read the book in almost one sitting.

Fairelle is beautifully described and I got a real sense of place from the descriptions, whether the village where Redlynn was something of an outcast, the castle where Adrian and the wolves lived, Wolvenglen forest or the ruins.

The action scenes are well written too and add impetus to the story.

The characters are rounded and their pasts (which have made them who they are and influence their behaviour) are well described. Their attitudes are understandable...Adrian, the reluctant King and Redlynn the were hater...although I did want to shake her a few times and make her listen to reason!

All in all a thoroughly enjoyable book and I'm looking forward to reading book 2.

I received an ARC from the author in exchange for an honest review.

Alison Jansen says

LOVE LOVE LOVE!!!! This book captured my attention right from the beginning, and pretty soon I was 1 hour in, and had no idea of the time! There is no secret that I love supe books, but this one had a whole bunch of mythology and back stories and good old heroics.

Redlynn is the descendent of the Sisterhood of the Red, which her mother and grandmother were a part of. When the last of her loved ones is murdered by the were's, Red leaves the town and her job as a Sisterhood guard to hunt down the King of the Weres and make him pay for the slaughter of innocent women. She is an alpha kick arse fighter with a sword and a bow, and takes no mercy!!!! When she meets Adrian, who is unknown to her the descendent to the throne of Wolvenglen, there is an instant connection. Unbeknownst to Red, but she bares the mark of the one who will bring peace to the land, and when Adrian sees this he knows that he is destined to be with this woman, even if it is the last thing he wants to do.

I really loved this book! This is a super short review becasue I do not want to give much away, just know that this is a quick paced, fun, sexy journey that I could not put down, so follow the link and take a chance and buy this book!!!

I am really sad about not finishing this one, but my heart isn't in it. It began well, very whimsical, and I have hoped to find a romance about Red and the Wolf for a while. But, not only is the cover pretty bad, there is too much tell-not-show and insta-love galore. Can't do it anymore.

My Thoughts - 4 out of 5 Unicorns - I really liked it!!!

***Received a copy of the ebook for an honest review, but I am buying it as soon as I get paid :)

The cover is subdued, but intriguing all at the same time.

This is the first book I've read by Rebekah, and I'm definitely going to be reading more in the future especially in this series that I'm now hooked on :) Rebekah builds a wonderful world full of intrigue, prophesies, and in need of healing. I love the undercurrent of the fairytale Little Red Riding Hood! And I see the same undercurrent is probably in book 2 as well :)

When I first started reading the book, I was disconnected. I'm not sure if it was just getting to know the new author's style or building the new world. This happens for me sometimes, but I'm definitely quite taken with this series and plan to read more. Red is this amazingly strong woman, but she has blinders on so to speak. She is definitely stubborn and so much so I was yelling at her in my mind while I was reading several times. Adrian is sexy and just as stubborn but haunted by his family's past misdeeds. By the end, I was totally on Red and Adrian's side, and I hope I will see more of them in the series because I become attached to my characters and like to see them in the rest of the series even though I know they will not be the focus of the

book :) I'm going to have to get my hands on book 2 very soon :)

I recommend this book to paranormal fans of shifters and vampires and to anyone who loves to see new stories evolve from very old fairytales :)

Tiffany says

Vampires, and Werewolves, and female slayers oh my! :)

This was definitely a different retelling of little red riding hood. I loved all the other paranormal aspects tied in. Vampires. Mages. Nereid. Demons.

The best part had to be the Sisterhood of Red. Most PNR is all about the hot alpha guy....which we all love. But the damsel in distress gets old....in this book there was no damsel. Red was a bad ass!

Jo says

I received a free copy of this book in exchange for my honest review.

The first book I read in this series was *Cinder the Fae*[*Cinder the Fae*]. Starting from the beginning was fantastic. While I had fully understood *Cinder the Fae*, reading book one in the Fairelle series has given me extra understanding. In this book I learned a lot more about the prophecies as well as Dax (who plays a prominent secondary role in *Cinder* as well). So far, he is one giant mystery and I can't wait to learn more about him. Having already read *Cinder* gave me a bit better insight as to who (and possibly what) Lilith is, but I won't get into that (you'll just have to keep reading and find out for yourself). I really enjoy how Rebekah R. Ganiere[Ganiere] has put a spin on this fairy tale. It is vastly different from *Little Red Riding Hood*, but you can see parts of the original story peaking through on occasion. This is definitely the big girl's version of the story, and an excellent one at that. Redlynn and Adrian make a cute (and powerful) couple. Redlynn has never fit in in Volkzene and has never understood why. Regardless of being an outcast, she has vowed to protect the people in her village. Which is what leads her to leave in the first place. In Wolvenglen she finally feels like she belongs, like she's come home, but she has no idea why. Adrian is the prince of the wolves and avoiding becoming king at all costs. He does not want a mate, has not been looking for a mate, when he meets Redlynn. He doesn't want to feel what he feels for her. He knows that if he gives into it, he'll have to step up and take his place as king. I loved the characters in this book. Redlynn is strong, independent, and defiant. Adrian is compassionate, stubborn, and hiding from duty. This book follows Red's self discovery as the world as she knows it is tipped upside down. I really enjoyed watching this first prophecy get fulfilled (and I can't wait to see where Sage comes in in future books). One of my favorite parts, quite possibly, is closer to the end when Red is forced to appear in front of Volkzene's council to determine her banishment and the show of strength and solidarity we see from the girls. It's touching and where I think things really turn around for Volkzene and its people. The book has a HEA ending with no cliffhanger. It

could easily be read as a stand alone, but personally, I cannot wait to start Snow the Vampire Slayer!
