**Shift** Drew Elyse

Once a Disciple, forever a Disciple.

After the death of her father, Ash learned an important lesson: being a Disciple is dangerous. The club her father had loved, the club that had been their family, took him from her. She couldn't stay and wait for the day it would take the man she loved from her, too. So, she left. Now, she's the one in danger, and the Disciples are the only ones that can keep her safe. She has no choice but to return to the club and the man she left behind.

A Disciple will fight like a savage for what is his.

Sketch has what he needs: his tattooing, the club, and his bike. Anything else would require a heart, and his was ripped out of his chest a long time ago. It wasn't coming back. At least, not until she did.

His heart isn't the only thing Ash brings with her, though. She has a daughter. A daughter old enough to be his. A daughter Ash claims might not be. But in his heart, Sketch knows the truth. That little girl is his... just like her mom.

This biker knows one thing: a Disciple's daughter's return is about to make his whole world shift.

### Nicole says

*"4,5" You were always mine stars!!*

The second book of the Disciples Daughters series has many elements which made the story very interesting and enjoyable. Shift's main characters are Ash and Sketch, i liked both a lot especially Sketch who after all this time apart from heroine when she got back he tried hard and fought to get his woman and her little girl (who from the beginning he was saying that he was his daughter) back into his life and he succeeded it. The thing is that their story was like a soap-opera the one that you can't get enough because you see they were in love with each other from young age and it's impossible to stop loving your first and only love. Also i have to mention the at first i was very angry with Ash and her stubbornness " Girl he wants to give you the world, please ease up a little" but later i saw her point by learning her devastating secret.

This book was filled with so many emotions and in addition it was combined with suspense, little action, twists and hot explicit scenes, one of the highlights of this story was definitely Emmy and her sweet, funny dialogues with each character of the book, i definitely recommend it, Shift is a standalone so you don't have to worry if about a cliffhanger from the previous book but i always read all the books even if they are standalone. Can't wait to read Jager's story, he seemed very interesting character.

#### Loved it.....

This is the second book that I've read of Drew Elyse books and I'm so glad I found this author. This book had me from page one and I couldn't put it down. I actually had tears in my eyes at the end of the book. Awesome job... I can't wait for book three.

---

### JudyB says

They were childhood sweethearts, children of the club and planning to get married as teenagers. Then she loses her father, a club member, and blames the club. She leaves the boyfriend behind because he won't give the club up for her. Needing protection she returns to the club with a child but she won't share who the father is. I liked the intrigue of trying to figure out exactly why she didn't want a paternity test. I loved the precocious child and the author's ability to bring that cuteness over to the reader and make it genuine. I loved the fact that Gabe loved the child unconditionally. I hated that the h took so long to understand she was hurting too many people by keeping her secrets. Overall I loved the fact that I was caught up and invested in the characters and the story line as well as Gabe's dogged determination to get the h back. When they reunite they are 23/24 years old. So yes they made some bad decisions along the way but I was willing to give them a pass because of their youth. I usually don't care for the young adult romances but this one pulled me in.

## **Jodi Bird (Ruby Red Romance Review) says**

Shift by Drew Elyse is a great MC book. This is the second book in the Disciples' Daughters Series.

Ash left almost five years ago because it all became too much. The loss of her father, her one true love becoming just like him, she just couldn't stand to having more loss in her life. Nothing has been the same since that day she walked away. She wanted to go back, but things happen and home doesn't always seem like the best choice anymore. Until the day someone walks back into her life or really the diner she works in.

Sketch couldn't believe Ash would walk away from him and the life he was trying to build for them. He knew she hated the club, that had been family to both of them since they were young, but he didn't understand how she could just walk away from him. Resentment and anger course through him, until he finds out Ash brought a surprise home with her. It quickly becomes clear to Sketch that he needs to get back to the man he once was and win back Ash.

I really enjoy this series. I love the characters and the fight they have to go through to be with each other. Ash and Sketch are no exception to that rule. This book actually felt like a MC book. They went after the guys that threatened and hurt their girl. I enjoyed this book and cannot wait for the third.

This is the first book I have read by Drew Elyse and although it is book 2 in a series it can be read as a stand alone. I will go back and read the first one because I feel in love with the characters and the way that Drew Elyse writes a story. Personally there is just something about a MC romance that I cannot get enough of- so clearly I jumped on the chance to be able to review a MC book. This book did not disappoint!

Shift is the story of Ash and Sketch and their journey of losing one another and ultimately finding one another again. When Ash's father, an important member of the Disciple club, is killed it makes Ash think that this club, who is the only family she has known, is dangerous. Wanting nothing to do with them she realizes she has no choice but to leave them and the one man she has always loved- Sketch. Sketch's entire life has been dedicated to the club and growing up he wanted nothing more than to be a member of it. Being a member of the club that Ash wants nothing to do with put Sketch in a difficult position. He believes that her anger towards the club because of her father's death will start to dissipate once Ash accepts her father's death. So needless to say it comes as a complete surprise when one day Ash is gone. Three years later when a threat is made against Ash it is clear that she must return home to the family who will protect her with everything they have even after she left them. Ash realizes that returning home is not only her returning to the club for protection but also will be seeing Sketch again. Ash understands that she didn't leave on the best of terms

however needing protection for her and her little girl is the most important thing. The moment Sketch sees Ash and her little girl he knows and feels in it in his heart that his little girl and his and she and Ash belong to him. Will Sketch and Ash be able to move on from the past and the secrets they kept from one another? Or will they become victims to circumstances that they each played a part in?

I am so happy I was given the opportunity to read this book! I really enjoyed it and am looking forward to reading more books in this series by Drew. If you are in the mood for a MC romance where the bikers are hot and ladies are strong characters- this is the book for you!

---

### **Katie says**

I really enjoyed this book. It was a good biker themed romance. Even though it is book number 2 in this series, it could be read as a standalone. You don't need to have read the previous book to understand or enjoy this story.

Although this story is based around an MC, it is focused more on the romance between a club member and the woman he loves. There wasn't anything wrong with that as it was a sweet romance read. However, I would have liked to have seen more about the club.

Emmy was my favorite character of this book. She was so adorable. I would love to read a book based on her when she is grown up.

### **Roksana says**

**DNF @ 30%.**

This book is well written, hence the high reviews, but what i didn't know when I proceeded reading was that "the Hero moved on after heroine left him and had sex with other women whilst heroine stayed celibate" Sorry, but that is shitty! I know he was heartbroken when she left him and only started sleeping with women after 18 months heroine left him, but still she had slept with no one and he did, so that to me is a double standard....so he can have sex with OW's and that's ok, but heroine has to stay celibate? Does she have no needs too? If you want the Hero sleeping with OW's then make it heroine do the same with OM! I really don't like the double standards! Frankly, I really don't like any sleeping with others whilst Hero and heroine are separated.....I mean he said she was his love and soulmate but that did not withstand him sleeping around? And what angered me was the fact he was interacting with his daughter (although he did not know about it) the reader knew and I was so pissed that after saying goodbye to the little girl he went after some club where intending to sleep with her at a party where heroine was also there? he did not slept with her because she did not turn him on, but what if she did? So he would just screw her somewhere in the house where the full party was on and heroine was not far away? The daughter left the party, but she was already in his life and I would think at that point he would not do such a thing and just allow a random woman to have sex with him..at a party knowing the heroine was there...where not long ago his daughter was there too???....The fact he had intentions of doing it was bad enough and he already suspected the daughter was his and asked for paternity test and still he would just F\*\*\* a random woman, having no care for his daughter and heroine? ...that's just disgusting what's sort of father figure is he?....He might have been a good father from reading the reviews, but he was already gone for me...the way he acted was not a man I romantically

would respect and root for!

**A Disciple's daughter's return is about to make his whole world shift.**

**I loved this one and I m also loving this series, bossy bikers and women with backnbone.**

**A secret baby, a childhood to adult love story and a second chance romance, all my favourite things wrapped up in an MC read.**

**A bit about the plot;**

**When the club receives threats and the safety for one of their own is in jeopardy they all rally together and although Ash left four years ago the threats involve her and revolve around her fathers death too. following her fathers death and putting blame on the club and the life they live Ash left with no intention of ever returning.**

**Ash had been in love with Gabe who later became Sketch, they had both been childhood friends within the club and in their teenage years became more. Ash struggled in the days following her fathers death and wanted Gabe to run away with her, Gabe thought he had convinced her to stay until he woke up to find her gone.**

**That was four years ago.**

**When Ash returned after being brought back by one of the MC members not only did she have a frosty reception by Sketch but she wasn't alone. Ash had a beautiful little girl called Emmy.**

**"You don't own me." "Maybe not, but I own your heart. I know, because I gave you mine when I took it. You took off with it once and it hurt like hell, there's no fucking way I'll go through that again."**

**I loved this story, Ash's possessiveness and determination to get Ash back. I enjoyed the ride and looking forward to the next book in the series.**

**Told in first persons dual pov and leads to a heartwarming hea.**

**A Disciple's daughter's return is about to make this biker's world shift.**

**Sketch, Ash, and the whole Savage Disciples MC are now free on #KindleUnlimited!**

**\*\*\*read with KU\*\*\***

**I am a total sucker for second chance romances....throw in a MC and a baby and I am in heaven. Emmy may be a toddler, but close enough.**

**After the death of her father, Ash is in a bad place and makes a decision to leave her home and the love of her life, Gabe It doesn't take long to regret that decision, but events have happened that makes her feel she can't go home. Gabe, whose road name now Sketch is living the life of a patched member of the Savage Disciples. He has everything he ever wanted except his Firefly.....but that boat sailed - or has it?**

**What happens when the lovers are brought together? How will Sketch react to everything Ash brings with her?**

**I absolutely loved this. It really gave me the feels a couple of times. Can't wait to read more.**

---

## **Page says**

Better than book 1, I'll read book 3. Easy to pick up and put down.

---

## **Keanna Hudson says**

I could not put this book down. I devoured it. Talk about all the freaking feels. Sketch and Ash are just.. ugh. I love them. Sketch is an amazing man.

---

## **Leigh says**

4.5 stars

I loved this book. It's the story of Gabe and Ash who both grew up in the club and meet as young children. I loved the flash backs to when they were younger and how Gabe claimed he would marry her. They go from being best friends to lovers and after a tragedy Ash runs off and leaves Gabe broken hearted. After years away she is forced to come home due to a threat that is made against her but she doesn't come home alone, she comes home with her little girl. Emmy was just adorable and instantly won the hearts of everyone. I loved how Gabe is so mad at Ash for leaving him but it doesn't take him long at all to go after her again. I felt Gabe's pain when Ash told him Emmy may not be his and his pain when she shared her secret. As with book 1 the ending is wrapped up perfectly and everything works out for them and to be honest I loved it. Looking forward to more in this series.

---

## **Maria Lazarou--Obsessed by Books Blog says**

This is the second book in the Disciples' Daughters series and here we have Sketch's and Ash's story.

Having grown up together in the MC it was always thought that these two would be together. Their love grew throughout childhood into their adult years, that is until Ash's father was killed. Not wanting to suffer the loss again, she leaves.

Struggling to support herself and her daughter, Ash still stays away from the MC even though she misses them greatly. But she is forced to return home, when there is a threat to her.

Sketch has never got over Ash leaving him in the way that she did. When she returns he finds that there are more surprises than he ever thought of.

This read shows that once you have found your soul mate the love will never die, no matter time or distance.

Drew has written another great MC read and I cannot wait for the next book in the series.

**Emotional again**

What a read..a good read.

Little more action and suspense in this one. Sketch was great.  
Ash was strong and Emmy was darn cute she stole the show.
