Some Like It Scot

Donna Kauffman

Some Like It Scot Donna Kauffman

As McLeod clan leader, Graham has always placed duty to his heritage and people before everything else. Even when it means honouring a ridiculously outdated pact to become betrothed to a McAuley descendant. His business arrangement with American Katie McAuley suits them both - she spends a month at his Scottish castle, where she can take refuge from her overbearing family and figure out her future - if he could just keep Katie's courage and honesty at arm's length, not to mention their all-too-sizzling attraction.

Donna says

Fun, interesting love story. The supernatural aspect was briefly touched on, but not really developed. I had a little trouble with the whole concept of the "marriage pact" being a good thing and that Graham was wrong in trying to end it.

Kelly~Got Fiction?~ Oakes says

Fantastic book. Could not set this one down. This is your single sitting romance. Our main highlander is a little rough around the edges, but a true softy at heart.

I like the characters in this story and can't wait to read about the next 2 Scots!

Amy says

Contemporary Romance -- A good story. What made it even better was Kauffman's use of the scottish brogue -- major turn on and it made this book a better read.

Niki says

I liked Donna Kauffman's Bride and Bachelors of Blueberry Cove so much I decided to start another of her series. It took me a little longer than I thought to get into this series. I always stories set in Scotland and enjoyed that but the story at some points just seemed a little to unbelievable although I liked the characters and how they all interacted together.

Kate says

DNF'D at 44 pages. Too much inner dialogue and mindless unrealistic chatter. Couldnt get into it.

Belldandy says

If you're thinking of reading this book, don't bother. Pretty much one of the most slow paced and boring books I have ever read. I really struggled to finish it, hoping there'd be some amazing twist or redeeming factor at the end. NOPE. It started out interesting, but quickly turned into longing looks and inner dialogue of PARAGRAPHS of what beautiful blonde hair Katie has. How perfect Graham is. How perfect Katie is. It's just all lovely between them. No tension whatsoever. Just when you think something interesting might happen right at the very end to make slogging through this tripe, nope! The author won't even finish her set

up for that. Too bad, that might have made it a decent read instead of a colossal waste of time.

Tams says

Slow to develop

I can't say I disliked this story but it felt so slow from the moment they left the church. It was hard to finish.

Lesley says

I have really liked this author's books in the past, but this one fell a little flat for me. For one thing, the story moved SO.FRICKING.SLOW! It took the entire first half of the book just for them to get to the airport! I get that some buildup was required to create some sexual tension, but this was overkill IMO. Would much rather have seen more of the story take place in Scotland than the trip getting there.

Michelle says

"You can't just a book by its cover!". How about its title? I admit I grabbed this from the library purely because I liked the title and found it cheesy, cliché, and I'm a sucker for bad puns... well sometimes, when the mood strikes.

This book has an interesting twist on a romance novel. Graham MacLeod needs to find a wife who matches a specific set of criteria in order to uphold his Clan's tradition and maintain his title to rule his tiny Scottish Island. The only female who has everything he needs is in America, and the only daughter of a powerful family intent on forging stronger ties with their business partners.

Katie finds herself drawn to the highlander who is promising her an escape from one arranged marriage straight into another. Should she marry her gay best friend to strengthen their families company, or disappear with the mysterious Scot.

The story was teasing, sexy, predictable, just what you want from a romance novel.

Pandora says

I truly enjoy Ms. Kauffman 's books. She has a sense of humor with her portrayal of the storylines and her wonderful characters.

Deb says

Leper-corn?!?

I mispronounce a great many words therefore I am not considering a career as an audiobook narrator. This narrator mispronounced words often. Not Gaelic words, but regular everyday English words.

Was there no editor or producer? No quality control?

The story is fun, but I recommend reading it in print.

Stephany says

I love Donna Kauffman so I had a feeling I would love this book and I did. There were some slow parts and the first chapter felt like it went on for 100 pages! But I knew the story would get better and it totally did.

I loved the characters and while it got a little fantastical in some parts which freaked me out, for the most part, it was a good, easy read. Just a great romance read!

Amy says

I liked the story and the characters, and most especially, their romance. It was quite slow-moving at times, which detracted from the story a bit. I think my favorite part was their "visions". I still think I will continue to read more of the series.

Alicia Mitsch says

3.75 stars. Good character development, though at times a little confusing. Entire plot takes place over three days, so more focused on characters than setting.

L M says

Usually devour this authors books.

As much as I liked the story the flow was like molasses. really could do with a bit of a rewrite and some more spice added to it.
