Tattoo Your Name on My Heart Simon Cann

Although past his mid-thirties, the teenager that lives inside Boniface's head can't believe his luck when he is hired to help one of his rock idols, Danny Featherstone, and his ex-glamor-model wife, Dawn.

Danny and Dawn are the target of an anonymous internet hate campaign that has led to poor ticket sales and lost television work. Broken contractual terms brought to light by the hate campaign have led the management to freeze the band's assets, cutting off the couple's source of income.

And then Dawn disappears.

Boniface searches for Dawn but uncovers small-time crooks looking for money and excitement who think Boniface has something they can extort. Making his search even more complicated is an angry son looking to destroy the parent he believes abandoned him, and embittered, poverty-stricken musicians trying to regain their former fame and get a slice of the income that was only ever theirs in their dreams.

But most worrying, Boniface finds a husband who loves his wife, unconditionally, and who will do anything to protect her.

Won on a Goodreads Giveaway

Federica says

I won this book through a giveaway here on Goodreads.

I didn't believe this book was going to be worth reading, but I was wrong. *Tattoo your name on my heart* is the third book of the *Boniface* series, and, even though I have not read the previous two, I did not have problem in following the plot, since as there were just few references to the other books.

The novel is very well written and it highlights that the author has already reached an high level of ability in writing, as well as of ability in developing the plot, which was really interesting and intriguing, thanks also to a series of plot twists.

For what concerns the characters, I liked all of them, even the "bad" ones because they were realistic and believable.

The only thing that left me a bit disappointed was the ending, because it seemed like there was a missing part.

monta sorokina says

Book is a detective but not the kind of where the main character is someone from the forces of law. The one who investigates is a journalist. And for him the law isn't a obstacle when it comes to helping his favorite band from his teen years.

The plot follows smoothly, the characters are smart and quick-witted. But it took me pretty long to read because the story somehow seemed to be flat. Something was missing. I guess I was missing some kind of emotion from the main characters, like fear, real fear about themselves or each other's life. I as a girl wanted some kind of romance between the main characters of course.

But I loved the back stories from the former models, they were very taching. The ending was brilliant and beautiful. And I would like to say that the cover is absolutely perfect.
