Mr. Vance

My eyes raked over her. The temporary bartender brought into my office because she'd seen the virgin auction room. I took in her delicious curves and knew I needed to have her. Except, I would never see her again after tonight. But, I always get what I want, I'm the owner of Club V and I will unravel her in ways she's never experienced. I can barely wait to touch and lick every curve of her virgin body.

Samara

I assumed the auction room at Club V was just a rumor. Until I walked into the wrong room. I feared being fired but when the guard brought me to Mr. Vance I was instantly a hot mess. He was gorgeous, arrogant, cocky even and I couldn't take my eyes off the very naked woman wearing a diamond collar standing beside him. The look of lust and sex on her face as he played with her and then the way he watched me, teasing. But, I'd never have to see him again after tonight. That is until fate changed everything... God help me!

If cocky men, virgins and angst are your thing read on..

This was my first dip into erotica. Um, i'm not sure it was for me. Some scenes at the start felt a bit forced or maybe i just didnt find them that hot. But some of the hot scenes felt a bit vanilla. I guess I expected more. You know, you enter some kind of bondage room and you expect more than 'we used all the ropes and whips then moved on to straight sex'. It was a bit glossed over. And suddenly it all went from "impersonal sexy sexy" to "i've loved you from a far doe eyes." But it could just be me.

Margaret McGovern says

4.5 stars This is an excellent contemporary wealthy manage romance. Samara is working as a bartender at Club V to help pay for college and lessen her parents burdens. Neil, Mr. Vance manages one of the elite clubs. When introduced to Samara he isn't sure how to approach her. Suddenly a life and death disaster strikes Samara's life and she needs money in a hurry. She decides to auction the one thing some men still value her virginity. The story keeps the readers focus and the characters have realistic lives and issues. I received a complementary copy of this book and chose to write a review. I look forward to reading future books by Ms. St. Claire.

I am sort of on the fence about this book.

When I started to read Unravel, I thought here goes another poor kid working her way through college. I really liked the premise of the book in the start.

When Samara first met Mr. Vance I went oh come on! Even though she worked in a sex club, but never experienced that sort of thing in that she seen in her office, I would think she would get up and quit. I felt it disrespectful to his employee.I didn't really care for that part.

I was surprised at Mr. Vance knowing Samara's brother. Samara just accepted what Mr. Vance said with no argument. Not a very strong female. This book almost gave me cavities!

It was so short the characters didn't have time for me to feel a connection.

I will go on and read book to to see if I like it

Neil Vance is a owner of club V and into some kinky, well a lot of kinky sex.. Samara takes a job as a bartender for a friend to help out. She is sent for alcohol needed,finds herself at the wrong door. Samara sees a Little to much, a auction going on she wasn't supposed to see. The door man takes her to Mr. Vance,once again to walk in on Neil with other girl. What a night. She seems to find situation very erotic and herself wanting to join. As night goes on Samara talks with a customer who's always around bar, he tells her to always put family first, love them. Ironic a phone call comes in after conversation, her brother needs heart surgery. What is she to do? Sam her friend tells her to join, know needs money the virgin auction. Events

lead to Mr. Vance wanting her, not one night but forever. " Neil says To give up a part of yourself, so you could save your brother. Really admirable Samaria". "Samaria says "I don't feel like I have anything up". He is a stong, bad boy with a heart. He pays all medical bills for brother, which Samara is told his brother is the coach and Neil knows brother Josh. Neil asked Sanara to marry him and happy ever after. Could not out down. Second story was good and liked characters. Jake other owner wants the girl who comes in to pick up her friend sam. She also walks in on him with other girl. He wants one night to help her pay a large bill for her father. Which she does and leads to experience that is erotic, and all she could want. Liked this story yet first one was my favorite. Both stories great reads.

There were only one thing that crossed my mind when this book arrived on my Kindle. And that thought was : If this book is hot like the previous book that I've read from this author I will need a fan. And a very big one because it will be a very hot book.

Like I said, Gisele St Claire's writting is hot, sassy, intense and wild. She's amazing and her books shows just that.

Unravel is the first book from the Club V series and tells the stories of Samara and Mr. Vance.

Samara is a student by day and a bartender at night in a very exquisite Club. It's not the perfect job but she needs it to pay her bills. One day she step foot in one room and she couldn't believe it. But then she's taken to her boss office. And now what? Will she be in trouble?

Mr Vance is the owner of the V Club and is a very cocky guy. He's used to have what he wants all the time so when the sweet Samara walks in his office he knows only one thing, he wants her and will have her no matter what it takes.

Like I had expected this book is hot. Oh boy, so hot. You will need the cool yourself. Ah ah ah.

In this book you'll see that to protect and help the ones we love we will do everything in our power to be able to provide for it. There is no place for doubt, there is only place to love unconditionally till the end. And true love can be found just around the corner.

Although I'm sad because it ended so soon, I just wanted the story to keep going. The raw factor as well as the hot scenes are intense as hell and so explicit.

I want more books from you Gisele. More and more each day

Elysian Fields says

This was a fast fun read. It had a lot of desirable qualities like a fast pace, surprise plot points, interesting settings and fun characters. It was about a 19 year old woman (named Samara) who needed to earn extra money to help out her family members so she took a temporary job at a club as a bartender. She let her curiosity get the best of her and found herself in an interesting situation. Without giving away too much of the plot, the fact that she was a virgin plays greatly into the adventures she experiences. She finds herself standing in front of her boss and that is when the heat and adventures start. Her boss, Mr. Vance becomes her teacher and savior. The things that they experience together were fun (and hot) to read and I really enjoyed the chemistry between the two. The scenes were realistic and well described; there were times when I felt like I was there watching it happen. I truly enjoyed this story and that surprised me as this is not usually the type of book that I enjoy. I would read the next in the series without a doubt. I received an ARC and am leaving a voluntary review.

This book was an easy read with quite a few adult situations. If you like virgin auction type books then this book will keep your attention. Looking forward to seeing what's next for Club V

I received an ARC and am voluntarily reviewing it.

In this story a bartender from one Club V location, named Samara, is sent to the NYC club for a night to help out. She is sent to look for an ingredient of the main drink that has been being requested that night and ends taking a wrong turn, ending up in a room she was not supposed to see. She is taken to Neil for being in the wrong place, who asks her what she saw and is advised to forget what she saw. She agrees. Samara finds herself needing lots of money quickly a few months later and decides she is willing to apply for that forbidden room she entered. Must read to find out about that room and what happens from there, but it is well worth the read.

ViolinVixen says

This is the first book I've read by this author, but it won't be the last. This was a really good, super steamy quick read. Once I started it, I couldn't put it down.

Samara works as a bartender at Club V to pay her way through school. She doesn't want to be an added financial burden to her hard-working parents and she wants her younger brother to have all the opportunities that she didn't have. Club V is a very exclusive, elite sex club, but the bartenders are off limits. Nobody can touch them and Samara likes it that way. It's good money, without having to sell her body.

When she's filling in at their New York location one busy night, she stumbles across the Virgin Auction room. This room is the stuff of legends and no one was sure if it was real or not, but sure enough she saw it with her own eyes. Caught trespassing, she's dragged to the cocky and condescending owner's office and she expresses her shock to him. He suggests she forgets what she saw before she finds herself looking for other work.

Six months later Samara finds herself in a tight situation. After an emergency, she needs a large sum of money to help her family. She decides to sell the only thing she has of value – her virginity.

The man who purchases her, is the last man on earth she ever wanted to see again, let alone lose her virginity to, but he ends up surprising her with his patience and his huge heart. She starts to have feelings for him, but knows that for him this is strictly business.

Will she be walking away with a broken heart when her time is up?

Hot, hot, hot virgin and older man romance! No cliffhanger. HEA. Standalone.

This was a new author for me but definitely will be going on my watch list.

Samara's working as a bartender at Club V in New Jersey when she gets offered a chance to work the same club in New York. She jumps at the chance because it's possible to make more money there. However what she didn't expect was to discover a live auction when she went to get more alcohol for the main floor. This is how she meets Neil Vance one of the club's owners. He suggests that she forget what she saw unless it's something she'd be interested in. Putting everything behind her, Samara goes back to work as usual until her mom calls her with news that her brother is sick. With the impending medical bills for her brother's care Samara does the only thing she knows will get her cash quick. She signs up to auction off her virginity.

I loved this book read it in one setting. I definitely will be watching for more from this author. If you haven't read anything by her yet you should grab a copy now I recommend this to anyone that loves a great romance.

Neil is the co-owner of a BDSM club in New York. Samara is a bartender at the New Jersey club and is sent to New York to fill in for an event. Neil wants her but thinks she won't have anything to do with him. Samara has an emergency within her family that has her needing a large amount of money. She decides to join an auction to raise the funds and ends up belonging to Neil for a week. They learn things are not always as they seem. HEA, no cliff hanger.

Fiordiligii says

In a guilty pleasure way, I like the "heroine selling her virginity plot" in order to save her severely ill brother. The story started all right with the heroine working as a bartender in a sex club, thereby accidentally discovering a virgin auction. The hero, of course, immediately knows he wants her ... blablabla. Nothing new but an ok basis for smut. However, when the two MCs finally do the deed it's so boring and way too vanilla for a hero who's part owner of a famous nation-wide sex club chain. D, because it was so boring.

Kathy says

Samara works as a bartender at Club V in New Jersey. While working, her manager Stew asks her if she would be interested in working one night in their NYC club due to a promotion going on and needing the help. Samara agrees but knows that the NYC Club V is a little bit more risqué than the one she works at. While at the Club she is asked to go and get some Vermouth from the supply closet upstairs. When she takes a wrong turn, she finds herself in a private room that auctions girls to the highest bidder. The big secret of this though is they are all virgins. She gets all flustered and leaves quickly running into one of the bouncers

who takes her to Neil Vance's office who is one of the co-owners of the club. He's not happy to find out that she found out about this part of the club. Neil is immediately attracted to Samara but she finds him rather intimidating. When Samara's brother gets sick and has to have a heart transplant she will do anything she can to help pay for his medical bills. When she signs up to sell her "virginity" what will happen. Who will she meet? Will she end up loving the BDSM life? Will her brother's health get better? This is a very fun, steamy and quick read. I voluntarily read an Advanced Reader's of this book. Enjoy

5 Stars!

Gisele St. Claire is brand new to me but she has me super excited for this series because.... wow what an introduction. Fast paced and packed with heat, Gisele takes her readers on an erotic journey that won't soon be forgotten.

Unravel is the first book in the Club V series... an exclusive club that caters to any whim or desire. Sexy. Intense. Emotion. Passionate. This book will hook you from the start.

When Samara meets Mr. Vance... she's intrigued, turned on and a little pissed at herself. That is until they see each other again. Now Mr. Vance is in control and all bets are off. He wants get body but he'll also claim her heart.

If you are looking for substance then move along but if you like short, hot and so so good then this is totally for you.

I highly recommend this book.
