**Wedding Season** Sean Ashcroft

**“On a scale of one to ten, how indecent would it be if I invited you back to my hotel room tonight?”**

Seth can't afford to fall in love. As the heir to his family's fortune, his future is already pre-arranged: a partner will be picked for him based on what's best for the family business. When he meets Oz at his sister's wedding, he thinks the other man—his new brother-in-law—might just be fun for the night.

But then one wedding turns into two, and two turns into three, and before Seth knows it, he's falling in love with a man he can't have, one social event at a time.

Oz is tired of having his heart broken. He's been so focused on finding someone to settle down and be happy with that he's thrown himself into one bad relationship after another, looking for a partner he's no longer sure he can find. Seth proves to be a great distraction, a casual fling Oz doesn't have to take seriously... until he realises he's falling in love with a man he knows he can't have.

With Seth's father putting pressure on him to marry someone else, he's faced with an impossible choice: lose Oz forever, or leave the security of his family behind and make his own way in the world.

Can Seth take a leap of faith into Oz's arms? Or will he choose safety and security over the man he loves?

*Wedding Season is a standalone gay romance with a HEA ending. It does not contain a cliffhanger, but it does contain two cowboy hats, an oversized adult toy, four weddings, explicit sex scenes, and everything being bigger in Texas.*

# From Reader Review Wedding Season for online ebook

**Catherine says**

\*\*\* 3.5 Stars \*\*\*

---

**Charlene Harris says**

I loved it. Heated, very sexy, and sweet. The angst may have even made it a little sweeter. The MC's were adorable with each other. This story is well thought out and written and will hold you to it until the end. I've voluntarily read and reviewed an Advance Reader Copy.

---

**Wendy Moore says**

A feel good summer read!! Had some real feels with an HEA!!

---

**Ron-michael says**

This was a great love story! Oz and Sean meet at the wedding of Oz's brother and Sean's sister, and are pushed together as they are the only gay people at the wedding. Turns out they hit it off, even though neither feel they are worthy of the other. Sean heads back to NYC while Oz stays in Austin, neither able to forget their time together. More weddings take place, and they invite each other as wedding 'guests' and their bond deepens. There were a couple of typos, but aside from that, this was a great read, and the internal dialogues that helped keep Sean and Oz from confessing how they really feel actually make sense!

---

**Seth says**

The characters are sweet and intriguing, and the plot has a lot of potential, but in the end this story is very VERY painfully repetitive. There were pages where more or less the same thing would be restated, slightly rephrased, in three places. The internal concerns keeping the characters apart are also frustrating, as even slightly more open communication could have gone a long way, if not all the way, towards resolving them quicker. This feels like an excellent short story turned into a long novella by rambling and adding filler paragraphs, which pains me to say as I have enjoyed other stories by this author.

Egregious example, from an intimate scene: "This was just like the first time, when he couldn't move, could barely breathe, but Oz was so hot that he didn't care. He'd wanted him since the moment they'd parted ways, and now he was fully getting him. It was so good, so perfect. he'd wanted Oz since the moment he saw him and he hadn't stopped wanting him since. Not even when they'd been apart."

1.5/5, reluctantly rounded up due to vibrant characters, but barely so due to painful repetition.

---

## **Dara Nelson says**

I'll admit that there were times when I had mixed feelings about this one. Times when all I could think was 'geez, guys, would you just talk already?' But then the author brought the story around and gave it a perfect ending for me - it's what this author does every time. So kudos to him and kudos to me for being able to thoroughly enjoy Seth and Oz's journey. I voluntarily reviewed an advanced copy.

## **Beth says**

### **Cute and poignant story**

I enjoyed the book and it really is a poignant story about finding someone else and therefore finding yourself. I would have liked a lot more character development and background story. The characters felt a little hollow without more to go on. And it's quite a jump from the last chapter to the epilogue...would have been nice to know what transpired in the meantime and how they got there.

---

## **Suzanne Ellis says**

The connection between MCs Sean and Oz starts out fast from their first meeting at their siblings' wedding and continues on in the same vein. Because both come from very well-to-do families with high expectations and both know that their families are struggling to handle their sexuality, their bond is strong from the very beginning and their relationship takes leaps and bounds forward.

I have read several of Sean Ashcroft's novels and have really enjoyed the character building the author does with each and every book. I am completely unsurprised that this one is as good (or maybe even better, if that is possible) than previous ones. I can honestly say that the reader will never be disappointed in Sean Ashcroft's books and I am a life long fan.

This book was provided by the author in exchange for an honest review.

---

## **Pam Kay says**

Another great feel good love story from Sean Ashcroft...I felt like strangling these two characters, but they finally got it together..Oz and Seth meet at their siblings' wedding with an explosive one night stand, but it didn't stop there. Since they lived over 1000 miles apart, it took two other weddings and the need to see each other to bring them back together. Seth was part of a wealthy family and a father who was determined to control his life including choosing his marriage partner. Seth thought he had to do what his father said, but the more he got to know Oz the more he knew what he wanted. This was a great story of love...true soul mates... Well written... Loved this book♥?♥?

Biiiiiiiiig MISS :-(!!

\*\*\*\*\*

This is one of the Kindle Unlimited books I've had on queue that I really want to try :-)! This author has been very "hit or miss" for me, but I'm optimistic about this one; hopefully it'll be a hit. On we go ...

## **Denise H. says**

\*\*\* Sean Ashcroft's characters are marvelous, and it's a charming love story ! We see our guys meet at the wedding of Oz's brother and Seth's sister. They like each other and spend a hot night together. Each man sees that it is more than a one night stand.

They want more.

Then taller Oz, 29, a lawyer in Austin, TX., invites Seth to another wedding and their sexy times continue to be steamy and sizzling.

Next up, a wedding in NY, where Seth works for his Dad's company. He invites Oz as his guest. The deepness of their emotions have cemented inner dialogues of love. Neither wants to let go of the other, but are afraid to voice it.

Seth's Dad is arranging a marriage that is good for business, but Seth wants no part of it. I'm so glad to see Seth, 26, finally "man up" against his father. Sean runs to Oz; they want their relationship to last, because it's turned into love. What will happen when Seth's Dad threatens?

Wonderful characters all around, a well written tale,  
and super hot sex that thrills,

will make you like this book.

And, we get a terrific epilogue !

ENJOY !

=====

## **Beverly Southern Babes Book Blog says**

Wedding season is definitely in the air! Oz and Seth are such great characters. They are funny , loves me, sexy and so much passion between them. Sometimes meeting at your siblings wedding is the best thing that can happen to you. Can't wait to see what comes next!

---

## **Daphne says**

Seth and Oz were two sad little rich boys who managed to be endearing and not obnoxious -- kudos to the author for managing that! A one...two...three night stand turned into more when neither was expecting it and

only one was looking for it. The storyline itself wasn't novel here but I loved this book just the same for the banter, the sex and the sweetness.

---

### **Alex says**

Another sweet story! Seth is such a cutie :)

---

### **Cadiva says**

#### **Sweet and sexy 'accidental' love story**

I do like Sean Ashcroft's style of romance, they're unfailingly sweet and enjoyable to read with a little bit of seriously sexy thrown in on top.

This one is a delightful tale of two guys accidentally falling in love and it's incredibly sweet as they muddle through being dates at a number of weddings just so they don't have to fall prey to family manipulation.

The turnaround with Seth's dad in the epilogue was perhaps a bit unlikely but I didn't care at that point because him and Oz were lovely together.
