Wolf Bond

Mina Carter

Wolf Bond Mina Carter

Barrett Simmons, head of security for the famous rock band Lyric Hounds has managed to avoid the band members' less-than-subtle matchmaking attempts. Since the woman he loved was killed in action, his heart has been as dry and dusty as the sands she fell on. He doesn't want to date, in fact he can't think of anything worse. But he didn't count on his sister, Melody, making a call to Madame Eve...

A car crash two years ago left werewolf Saxon Reeves with amnesia and nightmares — but the nightmares aren't of the crash. Instead she dreams of a soldier. A human soldier she can't get out of her head. When her family pushes her to mate with a wolf from a neighboring pack, she decides to take one night, just for herself, and contacts 1NightStand. The last thing she expects when she walks through the door is to come face to face with her soldier...

One Night Stand

Mina Carter does a great job writing about shifters! I'm just a greedy girl & wish it were longer. LOL I could read more of Saxon & Barrett!

Coyora Dokusho says

Liked this one better! There was more of a plot and more identification with the characters.

Julie (Jewls Book Blog) says

This would have been better if it was a little longer.. The story was going well before the rather abrupt ending.

Stephanie S. says

Yes, and No

Yes, I loved the book, and the whole premise of the story. He's her human mate, who thinks that she died 2 years ago. She's a werewolf who has no memory of the past, and a family who lies to her about it.

The only reason I have a, No, in the title is it's too short. You just get into the story, things start to get really good, and it's done! The End! I would have loved an epilogue or maybe even a sequel.

Donna Maynard says

Extremely wonderful

This book was simply fantastic. I loved how things worked out. It was different from anything I've ever read before. I truly loved it.

Brendy says

Interesting because of the bond and the loss when he thought she had died. So... **interesting**

Myst says

There was nothing extra in this new version. If you're going to redo this series it would have been cooler to give us more besides washing out anything to do with 1Night Stand that this used to be part of. The ending was just as stale as the original.

Maura says

Barrett, the human security guy for Lyric Hounds (and brother to Melody) used to be a soldier and has been mourning the loss of his love in an ambush two years earlier. He's finally ready to try moving on and sets up a blind date with Madame Eve (the matchmaker who matched Melody & Aaron). He's beyond stunned that the woman waiting for him is Sax, his former lover who he believed was dead. Turns out, she'd survived but lost her memory and her family had been lying to her about having ever been a soldier and trying to get her matched up with another pack leader. They were unaware that she had a mate and that her subconscious had been pushing her towards him because of their bond for the past 2 years.

Really super short and it affects the story. This one felt a bit underdeveloped there towards the end. The build up to that moment they finally see each other again was the real focus here and very drawn out. The sex was pretty hot and downright explosive. One downside here is that while Barrett gets to revel in the fact that he finally has his woman again, Sax never regains her memory so doesn't really KNOW Barrett nor have all those memories of falling in love. All she has to fall back on is the mating bond. The ending here is very rushed. There isn't much time for them to talk or discuss their future or even take her family to task for their behavior. As soon as the "baddie" is taken care of, the story ends. So that was disappointing. As for the world building, it seems the rules are still being laid out (and maybe changing? - I don't remember biting being a means of converting humans to werewolves...what about Melody?).

Cynthia Skeezix says

Long lost love found again...

Barrett lost his one true love in the war. Two years later and chance meetings lead him back to his one true love again and this time he's keeping her for life.

Cheesecake says

Barrett and Saxon. The second story where Melody's brother gets his hea through Madam Eve's one night stand company. This time he meets the love of his life that he thought had died. I liked this story less, because there was more story and buildup but no follow through. A hunky dorey ending were no justice is served. Kind of a palm to forehead moment.

Lexee Toste says

I really enjoyed this story!! Barr and Saxx definitely deserved their happy ending and I was so glad they got theirs. They hook you with their story right from the beginning of the book. I was able to connect with the characters and wanted to see them figure things out. Barr believes Saxx to have died out in battle and she lost 7 years of memory and believes it was a car accident like her family told her. Her nightmares are the one thing that give her the idea that there is more to it. I loved how they were reconnected. This story is a quick read and I would have loved more of them. It's a short story and it flows really well and keeps your attention the entire time. There is plenty to keep you engaged, little bit of action, romance, second chance love story. This was a great story to read on my lunch break!

Crystal says

I really loved Barrett and Sax's story. I couldn't imagine what Barrett had to go through for years thinking that he had watched the woman he loved die and couldn't do anything about it.

These two had a bond that could last years and a memory lose. I would hate to lost seven years of my life and have my family lie to me about it.

This author did a great job with this story and I can't wait to read more from her.

L.M. says

Second book to Mina's part in the 1NightStand serious. A man who thought he lost his love in the middle of a war zone, only to find as his one night stand. He's blown away when he sees her. Saxon has no idea that her dream man is her one night stand. She thought she had been in a simple accident, only to find out not only were years wiped from memory, but she lead a completely different life. Could not stop reading. Now yearning for more!!!

Azusa says

4 1/2★'s

Noooo!

Why a cliff hanger!?!?

I really want to know what happens next. Like desperately so. The suspense is killing me.

Can't wait for the next installment.

Cynthia L. Turner says

Love ?

This is a concise short story. It is quick, neat, and to the point! Barrett and Saxon are a couple ? that love each other even in death. Love it!
